The creeper of Kalpa (a supposed thing) fulfills all desires, in the same way what is the thing which knowledge does not produce ? It protects being like a mother, is auspicious like a father, removing all pain, diseases like a wife, spreads good time in all directions and gives wealth.

(*naitika manjusa*, p. 591-592, sl No. 1167)

Shrimant Maharaja Sayajirao Gaekwad III

“I have always looked upon education as an essential thing to instill the spirit of progress in the people at large. It is not every one who is fortunate enough to receive the benefit which such a college (Baroda College) as this confers. Knowing this and desiring that every one of my people should enjoy in some measure the advantages of education , I have inaugurated a policy of compulsory education throughout my state.” (p. 741)

Speech & Address of His Highness Sayajirao III

H. H. Sir Pratapsinhrao Gaekwad (29th June 1908 – 19th July 1968)

His Highness Pratapsinhrao Gaekwad was an able administrator, who was properly trained in administration by His Highness Sir Sayajirao Gaekwad - III himself. He was consecrated on 7th February 1939. During his period, the New Constitution was approved in 1940. It was viewed for the welfare of both kingdom and subjects. In 1940, the Shantadevi Trust & the Padmavati Trust for Welfare of T.B. Patients were approved. The M.S. University of Baroda was established in 1949. He said at that time "experts are to be trained from our own people." From the Vice-chancellor's Desk...

उद्यमेन हि सिध्यन्ति कार्याणि न मनोरथैः ।

*Success comes from efforts and not from wishful thinking,
A deer doesn't enter a lion's mouth automatically.*

Our scriptures bring to us such pearls of wisdom. At times, when there is a dull moment and nothing seems to be working our way, these subhashitas provide such fresh perspective to our actions. It is very rightfully explained that wishful thinking will not be able to yield results but hard work and efforts always will. There is no substitute to hard work. With this strong belief in the power of efforts and hard work, we began working afresh on this year's Annual Report for the year 2017-2018.

The preparation and presentation of the Annual Report of The Maharaja Sayajirao University of Baroda is the resultant outcome of critical reviews and reflections on Academic, Research, Extension, Curricular, Co-Curricular as well as Social Outreach, and various other activities of the university. It gives me great pleasure to present before the Senate the 69th Annual Report of the Maharaja Sayajirao University of Baroda, for the year 2017-2018 which has been prepared under thoroughly revamped format with multiple innovative features. It highlights the important developments & significant achievements of the 14 Faculties along with 03 Constituent Colleges, 07 Centers, 02 Institutes, 14 Constituent Libraries, 16 Hostels, Health Centre, Sports Pavilion, 05 Multipurpose Auditoria, Sadhana Printing Press and Stationery Unit, Green Guest House of our University and various other academic and administrative units, spread across the 07 Campuses of our university. This year, to foster the concept of Digital India, the entire data for the Annual Report has been collected and compiled online under indigenously developed software called as Annual Report Management System (ARMS).

The University has made substantial progress over the past one year. It is our constant endeavor in terms of improving the quality of education to place the University among the top ranked leading universities across country. The University also restarted the Science Stream at M. K. Amin Arts and Science College and College of Commerce, Padra and it received an overwhelming response across the district.

The Maharaja Sayajirao University of Baroda is renowned for its academic excellence both at home and abroad. Considering the academic stature of the University, the University Grants Commission, New Delhi has allotted a grant of 24 Crores for the XII plan period. In addition, other funding agencies like DST, DBT, AICTE, DAE etc too have continued to provide financial assistance to several Departments of the University for Research Support.

46 Research Projects in Science and Technology as well as in Social Sciences and Humanities amounting to Rs. 48.22 Crores have been funded by various National & International Funding Agencies during the year. The Maharaja Sayajirao University of Baroda had also received total grant of Rs. 12 Crores for infrastructure and under Rashtriya Uchchatar Shiksha Abhiyaan (RUSA).

Within a very short span, our university has achieved active academic collaborations and partnerships with some of the reputed top ranked academic institutions and universities around the world. Some of these academic exchange programs are funded by some of the well known and prestigious funding agencies like German Academic Exchange Service, British Council, European Union, Max Planck, and Fulbright to name a few. In a significant move, our university has been accorded the prestigious membership of the United Nations Academic Impact (UNAI).

We have made our Smt. Hansa Mehta Library Centrally Air Conditioned for students and users in the year 2015. The University Grants Commission (UGC), New Delhi has also sanctioned grant of Rs 1 Crore under the Development

of Sports Infrastructure and Equipment Scheme to build Gymnasium for promoting sports activities for our students and staff of the university.

This year, the University managed to launch an e-portal for recruitment and all the recruitments henceforth will be undertaken through this portal. Moreover, entire student life cycle has been brought under the digitalization process. All admissions are also done online and all Annual Report related documents were also linked with the Annual Report Management System (ARMS). The University has also launched a Human Resource Management System (HRMS) for recording the data of the staff of the University.

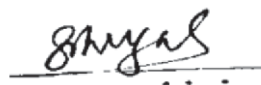

Last year, The Maharaja Sayajirao University of Baroda participated in the Vibrant Gujarat Summit and Exhibition and won three prizes - for best work by IQAC, for completion of GSET work and for Research and Consultancy Cell. The University also participated in Yoga Programme in which nearly 4000 youth of the University and staff actively participated. The University also participated in the Mukhyamantri Apprentice Yojana, the ambitious project of our beloved Chief Minister Shri Vijaybhai Rupani launched in 2018. Under the banner of this scheme, various training and registration facilities were provided to the youth skilled in the various trades. Another ambitious project by the Chief Minister Shri Vijaybhai Rupani was the Sujalam Sufalam Jal Sanchay Abhiyaan in which also the University youth and staff participated wholeheartedly and nearly 60 awareness camps on water conservation were organized in various parts of the district. The University also successfully undertook the massive project of NAMO e-Tablet Distribution to distribute tablets among the newly enrolled students of the first year of graduation and polytechnic.

It was a great honour for the University to welcome His Highness (Hon'ble President of India), Shri Ramnath Kovind, President of India as the Chief Guest for the 66th Convocation of the University. Along with him, the University also had the opportunity to welcome Hon'ble Governor of Gujarat Shri O. P. Kohli, Chief Minister of Gujarat Shri Vijaybhai Rupani and Education Minister of Gujarat Shri Bhupendrasinh Chudasama for the Convocation.

I would like to express special thanks to our beloved Hon'ble Chancellor, Mrs. Shubhangini Devi Gaekwad, for her continual guidance to us. We also appreciate support and efforts of the Senate and Syndicate Members, Deans, Principals, Heads of Institutions, Directors of various Units and Cells, Heads of Departments, Faculty Members, University Officials, Ministerial Staff, Alumni, and above all our beloved students and research scholars towards achieving the set goals. I also thank the Convener and members of the Annual Report Committee for their constant efforts to improve the quality and contents of the annual report.

Whether through providing equality education, research development or by providing the workforce with skilled employees, we play a distinctive role in furthering the state's as well as the nation's social, cultural, business and economic development. We embrace this obligation and are committed to ensure that our activities benefit the communities with which we serve and engage.

Dedicated to promote academic excellence and socially relevant education, the university has made all efforts to meet the national and global standards. The University has been progressively moving towards becoming a Centre of Excellence in the field of higher education thereby proving to be an ideal University to other universities not only in the state or the country but on the global front as well.

girirmahan girerabdhirmahan abdhernabho mahath

(A mountain is great; the ocean is greater; the sky is greater still; the Almighty is greater than even the sky. But the greatest of all is Hope.)

Every year, while preparing for the Annual Report we contemplate upon all our virtues and good deeds which give us immense joy in knowing what greater heights we have achieved each year. This year, I thought it worthwhile to contemplate over what the purpose for all this hard work has been, and how can we use it to make a difference to the society. It is said that progress is based on dreams and requires change. With this constant thought in mind, we have put in our best efforts in bringing out this 69th Annual Report. This year, the Annual Report highlights some of the prominent research and academic achievements, along with the other major administrative and educational activities carried out during the year 2017-2018. It provides an opportunity to reflect on the significance of academic researches, educational achievements and effective governance gained by The Maharaja Sayajirao University of Baroda and the contribution that The Maharaja Sayajirao University of Baroda makes in assisting the city's transformation into a knowledge-base. The Maharaja Sayajirao University of Baroda has always taken initiatives in the field of teaching and research, and has been in the limelight in areas of extension and co-curricular activities. The significant academic growth of our University is one of the indicators of the inherent effectiveness of this great institution and of the excellence of the human resources. At this juncture, I would really like to place on record that it was indeed a mammoth task to collect and compile the details and information of such a glorious and vast Institute. I deeply appreciate the efforts put in by the entire team constituted for preparing the Annual Report 2017-2018 especially Mrs. Neeta Dhar, Development Officer, who steered the proceedings and ensured that an accurate and complete report could be prepared. I also wish to express my gratitude to Dr. B. S. Chakrabarty, Director, Internal Quality Assurance Cell and his entire team for their full-fledged support in compiling the enormous amount of information and greatly assisting in the final preparation of the report. I also would like to thank the entire team of coordinators at faculties, colleges and institutes who were instrumental in gathering data for the annual report. I also would like to thank the Head, Computer Centre and University Press for their timely support.

Confidence is extremely important for progress. Openness is a sign of such self-confidence. The ability to accept, evaluate, adapt and adopt new ideas is very essential. Keeping this in mind, our University has put all efforts to generate ideas among students and teachers during the year. The University has received considerable grants during the year from various agencies for development and research activities. To enhance the teachers' and researchers' potential, various faculties and institutions have organized and conducted various regional, national and international seminars and conferences during the year. A good number of research projects have been approved with generous grants in each case. Many teachers from various faculties have been granted financial assistance for participation in conferences and seminars, abroad. During the year 2017-18, many of our faculties and institutions have done a remarkable effort and under the transformational leadership of Prof. (Dr.) Parimal Vyas, Honourable Vice-Chancellor of our University, we have made possible to collect entire information for Annual Report online. The details about the decisions of Board of Studies and Faculty Boards, The Opinions, Suggestions and Feedback from Alumni, Parents and Students, the awards and felicitation of individual teachers, the PhD information and unique features of every academic institution have also been incorporated in the Annual Report as special phenomena. We have also made very important progress in the area of Alumni Cell with special emphasis on Alumni activities and their online registrations. Apart from managing students requirements, various Staff Development Programs have also been organized in the year 2017-18 for our Teaching as well as Non-teaching Staff. We also, continuously, keep on organizing intramural and extramural activities through various faculties and departments. National Service Scheme (NSS), National Cadet Corps (NCC), Department of Physical

Education, various academic cells and institutions have incessantly worked for the benefit and overall development of the students of our University, throughout the year.

The vision and mission of Global Engagement of the University has enabled us to create international visibility. The University has signed several new Memorandums of Understanding (MOUs) with foreign universities. This has facilitated the students participation in the exchange programmes planned with foreign universities.

The students of the University showed their inclination of research and innovation, which is very well evident from doctoral degrees awarded during the year 2017-18. To promote health and fitness and to encourage sports activities, the university always encourages and supports students' participation. Students of various faculties have participated in state and national level tournaments in various sports disciplines, individually and in teams. Career counselling centres for students have also been developed and all Students' activities have been positively emphasized by all faculties. The Institute of Leadership and Governance has organized various need-based educational programs for the benefit of the students at large.

Meeting with the industrial requirements, the students have also been trained to secure placement with various Government, Private and Multinational Companies. The Maharaja Sayajirao University of Baroda has also strengthened its ties with the various industries in and around the city of Vadodara as well as the state of Gujarat and the nation at large.

The University has introduced several progressive steps towards digitization of administrative processes and other technological advancements. We have efficiently managed students' cycle from admission to obtaining mark sheets in courses where they have sought admission.

I wish that The Maharaja Sayajirao University of Baroda reaches the pinnacle of excellence and proves to be an ideal University to other universities not only in the state or the country but on the global front as well.

22-01-2018	Faculty of Arts, Department of French, Translation of Indian poems in French language, Currently Dr. Sheela Karki is a Visiting Faculty at the Dept. of French, Delhi University. She was also the ex-department head, The Maharaja Sayajirao University of Baroda, discussed several poems written by her. Her poems were inspired by strong Indian women like "Sita" and "Meera". As an introduction to her poem and through her poem as well, Dr. Karki described Meera as a princess, philosopher, widow and a poet. She said that Meera was gifted with the gifts of Goddess Saraswati and her name Meera itself was not a Hindu name but it was a name inspired by the title Mir (an attribute from the Persian form of the title Amir meaning 'the exalted one'). Her love for Krishna was legendary but because of her audacity to converse with learned and pious men, she was forced to have a cup of poison. It is no wonder that because of her faith and belief in Lord Krishna she survived the poison. Her poems were a strong depiction of the strength of women. Dr. Karki also discussed the circumstances under which "Ahalya" was turned into a stone and elucidated her predicament through her poem Ahalya. Dr. Sheila Karki believes that these women are feminists who were abandoned by their husbands but still stood high and were strong women, Department of French, The Maharaja Sayajirao University of Baroda

1 INTRODUCTION

A premier institution of teaching and research in languages, social sciences and the humanities, the Faculty of Arts, owes its genesis to The Baroda College, established in 1881 by H. H. Maharaja Sayajirao Gaekwad – III of the erstwhile Baroda State. The Faculty is sanctified by the name of the seer and philosopher, Sri Aurobindo Ghosh, who had been appointed by Sir Sayajirao to teach English and also as the Vice-Principal of the erstwhile Baroda College.

The alumni of the erstwhile Baroda College and the present Faculty of Arts included well-known personalities like Acharya Vinoba Bhave, Shri Rang Avadhoot, Shri Mota, Shri K. M. Munshi, Kakasaheb Kalelkar, Shri Rajendra Shah, Dr. M. N. Srinivas, Dr. B. Subbarao, Dr. I. G. Patel, Dr. V. Y. Kantak, Dr. Suresh Joshi, Dr. Sitanshu Yashashchandra and others.

The founding vision of the Faculty was charted, realized, and furthered by eminent academicians and stalwarts in different disciplines, and it remains committed, through its sustained efforts, to the enhancement of this rich tradition as well as the expectations and demands of the present day changing environment. Among other institutions in the region, the position of the Faculty of Arts is distinguished by the wide variety of disciplines in which it imparts training and knowledge.

The Faculty has always endeavoured to establish a network of intellectuals with a view to contributing to the cause of knowledge and imparting education, responsive to the changes taking place in the field of knowledge and technology, to encourage multi and interdisciplinary research, to introduce and develop courses, bringing them in line with contemporary theoretical developments and also relate them to societal concerns and issues. It also attempts at promoting and developing educational opportunities in tandem with the demands of social justice.

In an endeavour to bringing all its Programmes in line with the proposed uniform pattern all over the state and the country, with effect from the Academic Year (2011-2012), the Faculty of Arts introduced a Choice Based Credit System (CBCS), initiated by the National Knowledge Commission, University Grants Commission and the Association of Indian Universities.

For many years there has been a demand from students for offering Sindhi as a core course at BA level. Since 1995 the department has a full time teacher.

The average student strength has increased to about 350. It also has a small departmental library.

Its thrust area is to develop Sindhi language & literature especially in Gujarat, Rajasthan & Maharashtra.

Department of Sociology

The Department of Sociology in the Maharaja Sayajirao University of Baroda came into existence in June 1951, with the Late Professor M. N. Srinivas as its founder Head. During the last fifty years, the department has grown and it has built a name for itself in this part of the country. Throughout its long period of existence, the department has had its share of years of progress and sometimes even setbacks. Overall, however, it has been able to build and maintain its reputation as a leading Department of Sociology in the country.

The Department of Sociology came into existence in June 1951. Professor M. N. Srinivas, was the founder and the first Head of the Department. Under the able guidance of M. N. Srinivas and I. P. Desai, the Department earned a name as a leading department of teaching and research in Sociology in India.

The syllabi for various courses are revised from time to time with a view to bringing them at par with those suiting to the contemporary academic demands. At the post-graduate level, there is an emphasis on both theoretical and empirical materials.

The Department has instituted the M. N. Srinivas Scholarship for PG students, and the I.P. Desai Scholarship for UG students. The Gift Book Collection Library is a unique feature of the department. It is a collection of books, gifted by students, teachers and other donors.

1	Empowering Young Minds	Dr. Mala Kapadia has a rich background in Literature, Human Resources and also in Psychology. She has taught Human Resource Management, personal effectiveness and leadership excellence at the S P Jain School of Global Management. She is the author of various books like "Reiki", "Heart Skills: Emotional intelligence for work and Life", she gives talks on "Emotional Intelligence" and trains teachers & students evaluating with psychometric TAT and personal interviews. Her Ph.D. thesis was on Dr. Suresh Joshi's Literary works. She has also achieved excellence in the fields of Ayurveda, Vedic Sciences and Yoga. She has also taught Indian Psychology at Tapovan, Centre for Yoga and Ayurveda at France in 2003 and 2004. Dr. Kapadia spoke on "Empowering Young Minds" and the struggles faced by young people from different backgrounds. During her visit to the Department of French, she inspired the students by telling them about her college year struggles and how she overcame them. She also shared some of her poems during her visit. Incidentally, Dr. Kapadia talked about "Ahalya", who was said to be seduced by "Lord Indra" and then cursed by her own husband for this infidelity by converting her into a stone. 2	Jour de la Francophonie (Francophony Day)	We celebrate French Language Day throughout the world. This day is celebrated through cultural event: Skits, songs etc. along with High Tea.	March 30, 2018	Dept. of French, The Maharaja Sayajirao Univ. of Baroda
3	Translation of Indian poems in French language	Currently Dr. Sheela Karki is a Visiting Faculty at the Dept. of French, Delhi University. She was also the ex-department head, The Maharaja Sayajirao University of Baroda, discussed several poems written by her. Her poems were inspired by strong Indian women like "Sita" and "Meera". As an introduction to her poem and through her	January 22, 2018	Dept. of French, The Maharaja Sayajirao Univ. of Baroda

poem as well, Dr. Karki described Meera as a princess, philosopher, widow and a poet. She said that Meera was gifted with the gifts of Goddess Saraswati and her name Meera itself was not a Hindu name but it was a name inspired by the title Mir (an attribute from the Persian form of the title Amir meaning 'the exalted one'). Her love for Krishna was legendary but because of her audacity to converse with learned and pious men, she was forced to have a cup of poison. It is no wonder that because of her faith and belief in Lord Krishna she survived the poison. Her poems were a strong depiction of the strength of women. Dr. Karki also discussed the circumstances under which "Ahalya" was turned into a stone and elucidated her predicament through her poem Ahalya. Dr. Sheila Karki believes that these women are feminists who were abandoned by their husbands but still stood high and were strong women.

*Faculty of

5. Faculty of Education and Psychology

1 INTRODUCTION

The genesis of the Faculty can be traced back to 1935 when the then King of Baroda state His Highness Srimant Maharaja Sayajirao Gaekwad started the Secondary Teachers' Training College as a temporary institution to train the graduate and matriculate teachers of secondary schools. It was made a permanent institution in 1938, because of its good work and salutary influence on the secondary school system of the state. During the same year the college was provided with a permanent building and practicing school of its own. The institution was raised to the status of Faculty of Education and Psychology when the Maharaja Sayajirao University got formally established on 29th April, 1949.

The Faculty of Education and Psychology is one of the distinguished institutions and has the only of its kind Department i.e., the Center of Advanced Study in Education (CASE). The faculty has also the Department of Research Support (DRS) in its Dept. of Educational Administration since 1994 and now elevated to the status of Department of Special Assistant (DSA I) since 2015. It has a total of three departments viz. Department of Education, Department of Educational Administration and Department of Psychology. It offers a number of courses viz. It was established in the year 1951 and since then, the Department has been progressing consistently in the field of teaching, research, and extension. It was elevated to the status of Department of Research Support (DRS) by the University Grants Commission in the year 1994. Since then, the Department has been organizing many international and national seminars, workshops and training programmes in the field of Educational Management and striving to develop Educational Management as a Discipline. Now, the Department is upgraded by University Grants Commission to SAP-I (Special Assistant Programme –Phase I) 2020. The Department has academic and research collaborations with several foreign universities. It has been offering Professional Diploma in Educational Management (PDEM) course for Educational Managers at all levels of education, and Master Degree in Educational Management (M.Ed.M.) for those looking for a career as researchers/practioners in educational management. It organizes Competency Based Institutional Management in Education (COMBIME) programmes and Capacity Building programmes for school Teachers. Department of Psychology

The Department of Psychology at the M. S. University of Baroda is one of the oldest and strongest departments in the Western India. The Psychology Department was started in 1952. Prior to this, Secondary Teacher Training college ran courses in Educational Psychology, Educational and Psychological Measurement, Experimental Psychology and Statistics. The STT college also had a laboratory of Experimental Psychology since 1935. With the establishment of the Maharaja Sayajirao University of Baroda on 29th April 1949, the Student Teacher Training college was incorporated into the University and the Faculty of Education and Psychology was established as one of the faculties of the University. However, in view of the progressive development as well as various specializations in courses and also increasing number of students interested in basic and other applied fields of Psychology, a separate department of Psychology was setup in 1952.

Since its inception, the department has grown tremendously both in the sphere of teaching as well as research. The department undertakes various functions of teaching as well as research and guidance. A separate guidance and counseling center catering to the needs of student community was attached within the department till 1965. Faculty of Fine Arts

1 INTRODUCTION

Faculty of Fine Arts was founded in June 1950. For the first time in independent India, a programme of study was introduced to offer UG/Diploma, PG/Post-Diploma Courses and Research facilities. It was envisaged as an integral part of life for the new citizens. The emphasis was laid on individuality through knowledge of Indian and Western traditions.

It has since then made a definite mark in the field of Visual Art and remained in the forefront of the art education scenario in the country. Illustrious art practitioners who have been awarded with the Padma Bhushan and Padmashree and also international awards have nurtured the Faculty to its present eminence.

Art mentoring is envisioned as individual attention to students taking into account their creative needs. Through the dept. libraries, dept. film shows, visiting artists, workshops, studio /gallery/ museum visits and other innovative programs, the Faculty strives to provide a nurturing atmosphere for young creative minds.

The vision and mission can be enumerated as follows:

- To nurture and develop the creative potential in every student. Constantly strive to incorporate best practices from the world over.
- To encompass study of various traditional as well as modern media and methods of expression
- To expose students and generate an understanding towards the entire spectrum of world art through the abundant and rich collection of visual material that we have documented; conducting workshops, lectures, seminars, etc. by distinguished artists and scholars; and visits to artist studios, workshops, galleries, museums, advertising agencies, etc.; and mandatory study tours to a group of sites of historical and artistic importance.
- Consistent and continuous mentoring and evaluation through tutorials, studio and class discussions, projects, assignments, displays.

The Faculty's mission is to consistently break newer grounds in the areas of art education and scholarship by assimilating and integrating ever new ideas from the world over by keeping pace with developments in the field of art in the west without marginalizing traditional art. We do this by providing optimum exposure to students through our methods of teaching and ensuring a wholistic growth- cerebral, artistic as well as that of a responsive individual.

Department of Art History and Aesthetics

The Department of Art History and Aesthetics as an autonomous department got established in 1965 when it begun its Master Course. This Department is the first in the country to initiate an Under-graduate program with specialisation in Art History in 1975.

The Ph.D. doctoral research program also got initiated in 1973.

Considering its academic achievements, the Department received the honor of being recognized by the UGC, New Delhi, for the Special Assistance Programme of DSA in 1987 that continued for three consecutive terms and also the ASIHS.

The UGC also recognized the Department as a Regional Documentation Center to set up the first ever University-level Photo Archives of Indian Architecture, Paintings and Sculptures.

To the Faculty's pride, we have the only Visual resource center in the area of Fine Arts in the country comprising of 1, 50,000 visuals and examples of art.

The thrust area of the Department for research, study and documentation has been the art and architecture of the Western Indian region (Gujarat, Rajasthan, Madhya Pradesh and Maharashtra), Indian Aesthetics and Modern Indian Art and Criticism.

Department of Graphic Arts

Since its beginning the department has gained a tremendous reputation of being a professional department of higher education & the development has played an important role in the contemporary Graphic Art scene worldwide. This department has one of the largest infrastructures in India and provides all the facilities for exploring the possibilities of graphic art as a creative means of expression. Our alumni are working and freelance print makers, teaching in many art schools and art centers across the country & made marks in the field of contemporary Graphic Arts.

Department of Sculpture

The Department of Sculpture has played an important and dynamic role in the development of contemporary sculpture in the country since 1960s. It is evident from the number of alumni who are working and teaching in most of the art schools in India. The Department has well-lit studio space, foundry and well equipped work shop, basic tools and materials to be able to work with all non methods to contemporary sculptures.

ANY INNOVATIVE PROCESS ADOPTED BY THE FACULTY /COLLEGE IN TEACHING AND LEARNING

• Departments of painting, Sculpture and Graphics regularly hold workshops/talks by eminent practitioners/professionals to expose students to professional practices, ideas and developments in Contemporary art. Workshops are also offered by traditional artists, artisans and our alumni to expand learning into related areas of art. The Master Degree studies are designed for individual research and practice. A large part of teaching is focused on individual mentoring.

Dept. of Museology inculcates Field visits to Heritage monuments; Museum visits and museum training to have practical exposure for museum management, setting up exhibitions, education and outreach; training and conservation of cultural materials in National Research Laboratory (NRLC); lectures and demonstrations by the experts in specialized areas namely taxidermy.

- The Dept. of Applied Arts conducts workshops and industry visits to supplement teaching.
- The Dept. of Art History and Aesthetics that conducts theory classes for the students of Fine Arts has designed a module method in the time table where one subject is engaged with the same class for the entire week. It helps student's in retaining information and allows more insight in teaching for teachers.
- The role of visual material for teaching is almost considered imperative and crucial in teaching in the Faculty of Fine Arts. since the beginning. The Art History department has over 1,30,000 visuals in the form of transparencies, photographs, reproductions and documents, making it the best archives of its kind not only in the country but also Asia. We have always been using this documentation for our day to day teaching and research. No teaching is done without projection of visual material.
- The visual material of the photo archives is also in the process of being digitized to enable students and researchers to use the material for their class projects, thesis and other academic purposes.
- Apart from our photo documentation, we also have a sizable collection of plaster casts and original art works that is also used for academic purposes for imparting different kinds of academic training.
- We have collection of films based on art movements, artist's works, biographies of artists, etc. that teachers borrow to screen in classes to supplement black-board teaching.
- Visits to historical sites, monuments, artist studios, museums, publishing houses, advertising agencies, etc. are frequently organized for students to experience and partake in a wider range of academic stimuli.
- Established artists, architects, researchers, scholars, architects, film makers, museum curators, performance artists, ex-students and other professionals are routinely invited for live demonstrations, conducting workshops, delivering talks accompanied with slide presentations and engaging in Interactive sessions with students sharing experiences, discussing their practice, recent works, though processes, etc. Students thereby also get an opportunity to personally show their work to them and get guidance and feedback individually. Students of Art History and Museology also get similar opportunities where they can share their dissertation research work with invited scholars whose insight and expertise in turn enriches the former's academic work.
- Artists from the tribal and folk traditions (which have conventionally not been considered main stream art practices) are also invited to the Faculty occasionally to hold workshops, interact with students and share their traditional ways and methods of working. It not only helps students identify with tradition and but more importantly presents them with opportunities to understand and borrow these traditional methods of working. The Faculty encourages this synergy.

- Students of Studio courses at the PG level are also expected to undergo an internship/apprenticeship programme where they are expected to work with artists/professionals/craftsmen/artisans of a discipline other than theirs. This is designed to expose students to indigenous/non-academic art traditions and synergise them with contemporary art practice. India has had a timeless tradition in art and craft practices of miniature paintings; tribal and folk practices such as that of - metal casting (Dhokra casting of Bastar), terracotta (Molela), painting (Madhubani, Warli, Phads, Patas, etc); Kalamkari, block printing, stencilling; various kinds of leather work, puppetry, embroideries; weaving techniques; glass object making techniques; sculptural traditions; mural and fresco traditions; paper making; etc. Students are hence supposed to choose from this broad spectrum of indigenous art skills/practices and spend a stipulated amount of time with the practitioners. whereby they not only

get exposed to and learn these art forms but more importantly impact the traditional practitioners too with newer technologies, a contemporized aesthetic framework, and visibility and permeability in the market.

- Faculties and/or invited resource persons frequently hold demonstrations of various techniques in the studios (preparation of moulds; metal casting; application of different color pigments – oils, tempera, enamel colors, pastels etc.; printing and photography techniques; etc.)

Visits to Design studios and Printing houses are a regular part of the curriculum for Applied Arts students for them to get acquainted to newer technologies being employed in the field. Lessons in the studios are usually complemented with exposure to various contemporary practices in the industry/field for wholistic comprehension which is the aim of pedagogical institutions.

19(B) ANY INNOVATIVE PROCESS ADOPTED BY THE DEPARTMENTS IN TEACHING AND LEARNING

Department of Art History and Aesthetics

- Introduced a Module- method in the time table where one subject is engaged with the same class for the entire week largely facilitating learning process and retention.
- Incorporation of visual material such as photographs of almost all art works ranging from architecture, paintings, sculptures; archived write-ups; recordings of interview; films etc. for every day teaching.
- Allowing students access the Department's Visual Archives with its collection of about 1, 50,000 representations of art works, collection of plaster casts, journals, artist catalogues, and other archival material.
- We have a collection of films on art movements, artists' biographies and work's that are screened regularly to supplement blackboard teaching.
- Study tours to historical sites and monuments; visits to artists' studios and museums, are organized for students to partake in a wider range of academic stimuli.
- Established artists, architects, researchers, scholars, architects, film makers, museum curators, performance artists, and other professionals are routinely invited for delivering talks that are accompanied with slide presentations and engage in Interactive sessions with students.

19(B) ANY INNOVATIVE PROCESS ADOPTED BY THE DEPARTMENTS IN TEACHING AND LEARNING

Department of Clothing and Textile

Use of Interactive Smart Board: Use of technology for quick and convenient dissemination of concepts. Used at the M.Sc. level for explaining student the concept of weave plotting, before the concept is actually delivered there is a lot of manual drawing involved, which consumes class timing and delivering multiple variants becomes difficult. But with the aid of the Interactive Smart Board, labour is reduced and actual delivery of concepts and its related variations in weave plotting are taught. Students keep abreast with technological advancements in the field, as they also learn through specialized software for that particular plotting.

1	Workshop on 'Gender Champions'	A one day workshop on 'Gender Champions' was held at the Women's Studies Research Center on Saturday, 12th August, 2017 from 3.00 pm to 5.30 pm. Gender Champions is a joint initiative by the Ministry of Human Resource Development and the Ministry of Women and Child Development to promote gender equality within the academic institutes. Gender Champions are envisaged as responsible leaders who will facilitate an enabling environment within their schools/colleges/academic institutes where girls are treated with dignity and respect. Gender Champions can be both boys and girls above 16 years of age enrolled in educational institutes. They will strengthen the potential of young girls and boys to advocate for gender equality and monitor progress towards gender justice. The broad mandate of Gender Champions is to provide an integrated and interdisciplinary approach to understanding the social and cultural constructs of gender that shape the experiences of women and men in society. The aim is to make young boys and girls gender sensitive and create positive social norms that value the girls and their rights. The workshop on Gender Champions was divided into	August 12, 2017	Women'S Studies Research Center, The Maharaja Sayajirao University Of Baroda, Vadodara

three sessions. The first session was started with the self-introduction of participants and later Subair.K gave a brief idea about the Gender Champions program and how it was relevant. Followed by Dr. Swati Joshi oriented the participants about gender in details. She was helping the participants to understand how gender was working as a system in the society by explaining various institutions of society and their inclines towards patriarchy. After the detailed introduction to gender, the second session was started. The second session was more dealing with the gender experiences of the participants. Third session was started with an interesting introduction to gender identity and masculinity by Prof. Shagufa Kapadia. She gave a clear picture of being male and being female and the burden of these gender roles. She pointed out that the questioning was the first step to break the patriarchal notions. Followed by it, she tried to engage with the participants to make future plans to promote gender equality inside the campus to shape a better gender unbiased campus society or positive gender biased campus.

It was an advanced level training for the Gender Champions of the campus as continuation of Gender Champions orientation program held on date August, 2017. A total of 24 enthusiastic students across the university were participated in the workshop. Dr. Ananya Ghosal, an Academic Fellow at the Forum on Contemporary Theory & Balvant Parekh Centre for General Semantics and Other Human Sciences was the resource of the workshop. Dr. Ananya was explaining the relationship between gender and various kinds of human bodies including disabled bodies. She was explain this through various film excerpts, and she had screened a documentary named as The World's Smallest Girl. She explained that in recent years, human body had been fundamentally rethought by both science and philosophy. The body was not more a natural object but more of a cultural representation, constructed through various media, especially language. With critical thinkers like Jacques Derrida and Michel Foucault challenging the Cartesian dualism which subordinates body to mind, the body has emerged as the central object through which power relations are both formulated and resisted. Societies produce ideals of the perfect body in order to define their identities and yet time and again, the body's boundaries turn out to be fluid, uncertain. As the self-certainty of the Cartesian subject falls away, it poses significant questions by challenging how a culture perceives itself. Physical disability is one such concern.</p>	January 05, 2018	Women'S Studies Research Center, The Maharaja Sayajirao Univerity Of Baroda, Vadodara

8. Faculty of Journalism and Communication

1 INTRODUCTION

The Faculty of Journalism and Communication (FJC) was set up in the M.S. University of Baroda vide Syndicate Resolution Number S.R.2 (4) dated 28. 08.1993. It initially offered a one year post-graduate Bachelors in Journalism and Communication Programme (BCJ), which five years later, in 1997, was replaced by a four-semester Masters in Communication Studies programme. The nomenclature of this course has been recently changed to Masters of Journalism and Mass Communication (MJMC). FJC offers a comprehensive curriculum which encapsulates a range of relevant subject areas and related practical work. One of the key ongoing features of the programme is that during the proceeds of the course, students get ample opportunity for exposure and hands-on training in the field. For instance, students report on the beats and publish the newsletters through daily reportage of varied local events like industrial exhibitions, university Youth Festival, conferences, etc. Their print media lab journal "Itivritt" is also published each year. Similar work is done for Radio and Television too, and many programmes and films have been produced over the years. Such an interface helps student build their confidence and capability to be effective practicing journalists in the future. The New Media component has also been integrated into the theory and practical aspects of the curriculum. The Faculty has fully integrated the Ph.D Programme, where the registrations are ongoing, and the Bachelors Programme (BJMC) where the first year of the Programme has been successfully completed.

Department of Journalism and Communication

Department of Journalism and Communication

The Faculty was established in 1992 and launched a two year programme Master of Communication Studies in 1997, replacing the then existing one year post graduate Bachelor's programme. The Faculty offers a two year (four semesters) MJMC programme which familiarises the students with Communication theories, intricacies of media society relations, and basic cultural and contemporary media issues. The Faculty also strives to provide intensive theoretical instructions and practical training in journalism and allied areas like radio, television, new media, public relations, corporate communication, advertising, etc. With a thorough grounding in theory, research, and intensive practical training in different media, the students have a wide range of avenues open to them when they graduate from the Faculty and become practitioners in the field. From the academic year 2012, the Faculty upgraded and refreshed the syllabus content, and having changed from the marks to grades evaluation, now offers an 84 credits four semester comprehensive, contemporary, and interdisciplinary programme.

12. Faculty of Performing Arts

Department of Dramatics

The Department of Dramatics is a foremost constituent of the Faculty of Performing Arts, the Maharaja Sayajirao University of Baroda, established in 1950. It is one of the pioneer theatre departments imparting training at the University level offering UG, PG Degree and Ph.D Programme in Dramatics as also a two year diploma in the subject. It has nurtured a number of aspiring artists wanting to pursue theatre arts as a profession. The potential training is towards creative performing artists, production/technical designers, academicians who are able to respond to changing times of the contemporary society. The course structure is designed to foster creative and intuitive abilities and the student is encouraged to experiment with different theatre techniques in Acting & Productions where by attaining a systematic understanding of the art and science of theatre.

The Department has also acted as a protagonist and catalyst in the societal commitments and development through its varied activities and programmes. The goal is to train students not only in the performing skills but also in their mental and intellectual activities so as to become aware of critical ideas and understand the philosophy of contemporary arts and life. Our endeavour is to form a bridge between the conventional and most modern, keeping close to the basics which evolved over centuries and connecting them to present day modern applications.

Department of Music(Indian Classical/Vocal)

The Vocal music department is the oldest and largest in India.

The department was started as "GayanShala" way back in 1886, led by Prof. MawlaBux under the patronage of Shrimant Maharaja SayajiraoGaekwad III. This was a historic move in the field of Institutionalized Music education in the history of India. Further it was led by Ut.Murtuza Khan till 1899 and then by a Russian jew Mr.Fredlis. He was also the manager of the state band. The music school was later on expanded in other parts of the princely Baroda state. Some of the renowned musicians later on joined on the staff of the college were, Ut.TasadduqHussain Khan, Aftab e Mousiqui Ut.FaiyazHussain Khan 'Rangeele', Ut. Atta Hussain 'Ratanpiya', Ut.NissarHussain Khan of Rampur gharana and Gayanacharya Pt. Madhusudan Joshi.

The renowned Musicologist Pt. V. N. Bhatkhande was invited to restructure music education and evolved graded system for the first time.

In 1916, the department hosted historic first Music conference of United India led by Pt. Bhatkhande and patronized by ShrimantSayajiraoGaekwad III, in which 400 stalwarts attended from all over India and neighbouring countries. Ever since the revolution in Music education took place. A set of text books as written and prescribed by Pt. Bhatkhande was introduced under the Principal ship of ShriHirjibhai Doctor since 1928.

The degree course in Music was introduced in the department of music since 1950. Four more disciplines viz. Vocal, Tabla, Sitar, Violin and Dhruba were introduced in the department. The institute was called as "The college of Indian classical music, Dance & Dramatics". The institution was awarded the status of a separate faculty from 26/3/84, and was named as Faculty of Performing Arts.

The department of Music has divided in three separate departments.

- 1) Department of Indian Classical Music (Vocal)
- 2) Department of Tabla
- 3) Department of Indian Classical Music (Sitar & Violin)

Department of Indian Classical Music (Vocal & Tabla) has 10 teaching staff and three accompanists, highest in India. The average strength of students in the department is 500 plus.

The department has enrolment of students across the states of India and abroad.

Department of Music(Instrument)

DEPARTMENT OF INSTRUMENTAL MUSIC :In 1886 Gayan Shala was founded by the Late Maharaja Sayajirao of Baroda with a thread of his own institute known as "Kalawant Karkhana" and through his patronage this institution the oldest of its kind in India has served the cause of Performing Arts for over 130 years. On the establishment of The M. S. University of Baroda, the Gayan Shala has develop into full-fledged college and since June 1950 Department of Instrumental Music is also established with various other departments of the Faculty. This is a prime department in western region of India impacting knowledge in Instrument like Sitar & Violin from Diploma to Ph D level. The department is having its own system of teaching, ie. Traditional & Institutional way of teaching simultaneously. The Department of Instrumental Music is the place where teaching and learning of pure traditional Indian Classical Music is undisturbed till day. So many academicians & Well-known performing Artists are the alumni of this well-known department

Tabla Dept

Department of Tabla, nomenclature & established as a separate entity on 20th August 2014.

Since the University's inception in April 1949-50 the Tabla section remained under the wings of the Department of Indian Classical Music (Vocal & Tabla). It is only now after almost Six & half decades that the illustrious Tabla section has acquired an independent status of a Department. It is undoubtedly a new beginning but with a difference. A new chapter in the history books has already unfolded.

1	Seminar on "Indian Performing Arts : Prospects, Perspectives and Challenges".	Organized by Department of Tabla. The performing arts of India have for long been the lifeblood of the vibrant culture of the nation. From the Vedic era to the Medieval Period, Music, Dance and Drama served as a potent means of education that was more meaningful than modern pedagogy! Although that status has been altered somewhat and entertainment has taken centre stage, the performing arts of India are just as relevant and influential. Individual talent, visibility, training and location are important factors that dictate the prospects in the performing arts. An artiste's capability to strike a balance between the aesthetic, traditional and commercial aspects of the chosen art form invariably decides the quality and quantity of the prospects available. Over the past decade, the scope available to a student of the performing arts has widened	February 11, 2018	Concert Hall, F.P.A.
---	---	--	-------------------	----------------------

considerably. The largest film industries in the world, satellite channels, the Internet, and digitalisation have ensured a plethora of opportunities, though the competition is stiff.

In the not-so-distant past, foreign and indigenous influences have served to make India's performing arts richer and more vibrant. However, modern factors such as globalization, commercialization, and technology have had a deep impact upon the performing arts in India.

Survival of the hallowed traditions in the performing arts of India versus the impact of these modern factors is the subject of many academic as well as other formal discussions. Perspectives in this regard abound. In addition to the bipolar arguments, there is also a muted voice of protest in favour of preserving the Indianness and the traditions of our performing arts.

Our Indian ethos tells us that plurality comes naturally to us.

Conservatives among us want us to preserve and protect our traditions. Globalization and commercialization, in turn, are powerful challenges that have their own, unique line to dictate. The path that an aspiring artiste wishes to take will doubtless be influenced by all of these, in varying measures.

As an enlightened society, we certainly do not want our current and future generations of artistes to make such far-reaching decisions merely on the basis of personal whim or circumstance.

To present before them all the various ramifications of the emerging scenarios in India and abroad, to acquaint them with the perils of the one and the benefits of the other choice, and to ensure that their decisions are based on sound, well-researched judgement, the Faculty of Performing Arts of the M.S.

University of Baroda has organized a seminar on the broad topic: "Indian Performing Arts : Prospects, Perspectives and Challenges".

This concept note is intended to jump-start the discussion. Participants may choose from the themes included under Music, Dance, and Dramatics and add their own, valuable points of view.

There is increasing awareness and concern of society regarding environmental issues. The Swatch Bharat Abhiyan and Namo Ganga Project to clean the River Ganges are recent programs initiated by our Prime Minister Shri Narendra Modi. Natural disasters like earth quake, which occurred in Kutch on 26th January 2001 and the rarest of the rare, a powerful earth quake and a devastating tsunami, led to a serious situation in Fukushima, Japan, on 11th March 2011 causing misery to thousands of people. Environmental planning and management can reduce the damage both to the material and human lives. Every industry today realizes the necessity to control the environmental pollution resulting from industrial processes. The need to generate a trained and knowledgeable work force, which can provide the necessary expertise in environmental issues and who have a basic understanding of the environment in its totality, is being widely felt. Conservation of natural resources like fossil fuels, water, soil and minerals and protecting biodiversity losses are to be better understood and practiced. Protection of forests is to be done on priority basis, which can make this planet a healthier place to live. Environmental Science is an interdisciplinary academic field that integrates physical and biological sciences (including but not limited to ecology, physics, chemistry, biology, soil science, geology, atmospheric science, oceanography and geography) to study the environment and the solution of environmental problems. We welcome change and drive students to expand their thinking and apply the foundations of the subject matter to solve environmental problems.

In addition, the Faculty members are also engaging in Foundation Courses related to Environmental Science and Disaster Management offered by Faculty of Science.

About B.Sc. Environmental Science:

A credit based three year Bachelors course in Environmental Science was initiated in the year 2000. It is interesting to note that the UGC recognized the course and funded rupees 40 Lakh under UGC Innovative Programme. The grant was mainly used for setting up a laboratory. The course provides the basic training needed to generate technically competent man-power. The course is inter-disciplinary in nature and is being taught by experts from various branches of Science and Technology. Comprehensive understanding of the physical, chemical and biological mechanisms, working under natural conditions and the alterations brought about by human interventions is aimed to be developed through this course by adopting an interdisciplinary approach. Regular practical and industrial training imparted makes them competent enough to handle various environmental issues at work place. This year around 600 students applied for the programme. The present intake of B.Sc. Environmental Science Programme is 100.

About M.Sc. Environmental Science:

With the growing need to understand the subject more thoroughly, there was an urgent need of inception of a more advanced course as M.Sc. Environmental Science Programme. For the same reason, the course was initiated in the year 2011. This course was designed in such a manner that it enables the students to understand the complex inter linkages of environmental parameters. This helps students to have a holistic approach towards the current day environmental issues. The programme is suitable for the students graduate with different subjects such as Botany, Zoology, Geology, Geography, Chemistry, Microbiology, and Biotechnology to name a few. The current intake capacity of M.Sc. Environmental Science Programme is 50.

Department of Mathematics

DEPARTMENT OF MATHEMATICS

Established in 1949, the Department of Mathematics at Faculty of Science The Maharaja Sayajirao University of Baroda is actively engaged in researches in Analysis, Classical Harmonic Analysis, Special Functions, Topology and Classical General Relativity, Fluid Mechanics. Mathematics Department is well known for teaching, research and extension activities. Department offers B. Sc., M. Sc., M. Phil. , Ph. D. and B. A. (Honors) courses.

Researches in analysis began with the advent of Prof. U. N. Singh in January 1958 and since then many workers in the department have produced good amount of quality research work in the study of Fourier Series in general and lacunary Fourier Series in particular. While the work on general trigonometric Fourier Series, in connection with the convergence and summability problems, is noteworthy; in the area of lacunary Fourier Series, the department has put in significant research work regarding the problems of their absolute convergence, study of properties of Fourier coefficients and convergence and summability problems not only in the setting of circle group but currently in the setting of totally disconnected compact abelian groups as well.

Since, 1973 the department is actively engaged in the researches in the field of Special Functions also. The research work done and being done cover varied topics such as Hypergeometric functions and associated polynomial systems, multiple series and associated function viz, Lauricella functions, Appel's functions, H-functions, G-functions, of polynomial sets and their q-analogues.

It is now more than 21 years that the department is actively working towards researches in Topology. The work going on as the topology can broadly be classified into two areas: Dynamical systems and Compactifications and Projective objects. Interesting problems in the area of dynamical systems include studying the impact of robustly and persistently dynamical properties, like expansivity and shadowing, on compact invariant sets such as homoclinic classes, chain components and chain recurrent sets. Multidimensional dynamics including Chaos is another area of interest. Work is also being done in the area of G-spaces, Compactifications and Projective objects. Many staff members have collaborative research work with research workers at leading institutions in India and abroad.

The department has FIST programme of DST since 2009. Also department gets recurring library grant from the National Board for Higher Mathematics, DAE. The department has initiated infrastructure renovation programme with the support from UGC XI plan and DST – FIST support. Department now has a well equipped seminar room with capacity of 70 people with modern equipments and one new computer laboratory with latest configuration computers.

Department of Microbiology

The Microbiology Department was started in 1964, and since 1985-86, it also offers the DBT funded M.Sc. Biotechnology Course in addition to the M.Sc. in Microbiology and Ph.D. in Microbiology. M.Sc. Microbiology entrance exam conducted by the Department is open for students coming from all across the country. The Department has produced more than 100 Ph.Ds and a large number of research papers are regularly published in journals of international repute. The Department funded under DST-FIST-I program under which new equipments have been purchased and other infrastructure facilities were strengthened. Department has received support from UGC-DRS, UGC-DSA and COSIST programs. The Department has a strong base in Microbial technology and the main focus of the program is on Genetics, Molecular Biology, Industrial Microbiology, Immunology and other contemporary areas such as genomics and bioinformatics.

Department of Applied Chemistry

The Applied Chemistry Department was established in year 1975 to cater to the needs of undergraduate teaching in Chemistry for the young engineering students. Subsequently, MSc programme was started in 1980. Teachers from this department are actively engaged in teaching chemistry to engineering, pharmacy and diploma students apart from advanced chemistry to postgraduate students. The department has an active research programme with a good number of publications in peer reviewed reputed journals. The department has been sanctioned to set up a Centre of Excellence in Polymers with a grant of Rs. 5.0 crore by Govt. of Gujarat, Gandhinagar.

Department of Architecture

Maharaja Sayajirao Gaekwad III, ruler of the erstwhile State of Baroda in the western part of the Indian subcontinent, was not only a visionary leader but also an institution builder. Under him, the princely state began to experience the first aspects of urbanization and became one of the most progressive states in the country.

In 1890, he founded the Kalabhavan Institute of Industrial and Fine Arts. He realized that with the consolidation of British rule in India, the practicing British Architects in the country would require skilled assistance. With this in mind, the Department of Architecture was established, initially as a section of Fine Arts, under the leadership of Professor T.K.Gajjar, a textile chemist. The course was essentially in draftsmanship and was awarded a certificate in Architectural Assistantship.

The Department of Architecture offers a ten semester (five year) Under graduate course in Architecture leading to the degree of B. Arch. which conforms to the recommendations of the Council of Architecture (COA), and is recognized by both COA and the All India Council of Technical Education (AICTE). Major subjects of the course are Architectural Design and Building Construction Technology supported by other technical and humanities subjects.

The Department also offers a self financed four semester (two year) Post graduate course in Urban and Regional Planning leading to the degree of MURP which conforms with the guidelines laid down by the Institute of Town Planners India (ITPI) and is recognized by ITPI and AICTE. The main subjects of the course are the Planning studios on Area Planning, Metropolitan Planning and Regional Planning supported by other subjects including Infrastructure and Governance.

Department of Computer Science & Engineering

The Computer Science & Engineering Department Of The Maharaja Sayajirao University is one of the most renowned institutions in Gujarat, having produced a reservoir of world class computer professionals.

The Maharaja Sayajirao University of Baroda has always been pioneer in offering new courses and teaching / research facilities in emerging areas of higher education. Commensurate to this tradition the University was first in the State of Gujarat to offer a Bachelor of Engineering Course in Computer Science & Engineering in the year 1982 and a post graduate Maser of Computer Applications course in the year 1984.

The department has five well established laboratories. The department has been mainly focusing on strengthening research facilities, UG/PG teaching and improving the infrastructure, which has resulted in reaching high degree of acceptance of students by IT industry reflecting almost 100% placement through campus recruitment.

This department is one of the 14 institutions of our country to have been selected under the Project "IMPACT", initiated by the department of Electronics, WORLD BANK , & Switzerland government, which is aimed at improving the quality of Technical manpower being developed in India.

Department of Textile Chemistry

The Textile Chemistry Department is the oldest department of The "Kalabhavan" Technical institute which was started in the year 1890, by his Highness Late Maharaja Sayajirao Gaekwad III of Baroda, in the Faculty of Technology & Engineering. That time Textile Chemistry was popularly known as 'Rangshala', where artisan courses were conducted in Bleaching, Dyeing, Printing, Sizing etc. The first Head of the department was Prof. T. K. Gajjar when Kalabhavan was established in 1890.

In the late Nineteenth Century, Diploma in Textile Chemistry (Three years) Course was started; about hundred students were admitted and passed out from the department.

After independence, the year 1949, The Maharaja Sayajirao University of Baroda was established and department of Textile Chemistry was also commenced with the establishment of Faculty of Technology & Engineering. Since then, the department has kept moving from diploma courses to Ph.D. courses. The department presently offers following courses.

1. Diploma in Textile Chemistry
2. B.E. - Textile Processing
3. M.E - Textile Chemical Processing
4. Ph.D. - Textile Chemistry

The thrust areas of the Department are Eco-friendly textile wet processing, Nano-Technology in textile processing, Natural dye applications, Chemical modification of textile fibres for improved performance etc.

WREMI

In 1980s in Gujarat State a massive step to boost up the agricultural production was taken up by modernising existing irrigation projects and constructing a few new ones including Sardar Sarovar Narmada Project. A need arose for water.

One of the most exemplary product and noble thought behind the primary motive to grant financial aid to 'genuine but economically disadvantaged' future assets of this nation pursuing their studies at the Maharaja Sayajirao University started way back in the academic year 2012-'13 which resulted in bringing the haves and the have-nots on equal footings. This is how DSW came into existence.

What is DSW?

Directorate of Students' Welfare with the aim to plan and organize the co-curricular activities for the students at the University and College level.

The main objectives of the Directorate are to coordinate different activities of Sports, Literary, Cultural, Moral Education, and Placement and Counselling and so on.

The Directorate also supervises the Students' Union activities to allow them to work in a democratic setup to solve the genuine problems of the students and to bridge the gap between the students and University administration.

- **Creating a sense of community service** through participation
- **Inculcating positive thinking** for physical and mental health,
- **Providing conducive atmosphere** to strengthen teaching- learning process, student- teacher relationship, peer group relationship, etc.

Constitution of DSW

As the name implies, the objective of the office is to ensure the welfare of student community. It will work as an agent between students and the administration of The Maharaja Sayajirao University of Baroda, Vadodara. The responsibility of the Directorate is of two fold. i.e. to guide and assist students to overcome their problems and on the other hand not to compromise on the Rules and Regulations of the Maharaja Sayajirao University of Baroda, Vadodara.

To facilitate the overall personality development and to inculcate the basic values amongst the young students of the University to groom them as Good Citizens of the Nation. The Directorate will also supervise the Students' Union

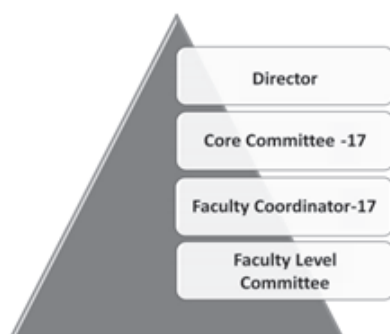

activities to allow them to work in a democratic setup to solve the genuine problems of the students and to bridge the gap between the students and University administration. The faculties and administration of the university seek at all time to impress upon the students the fact that moral and spiritual bases are the corner stones for the development of character and good citizenship. Oriental Institute

1 INTRODUCTION

The Oriental Institute is a post-graduate teaching and research Institute right from its very inception. His Highness Sir Sayajirao Gaekwad III of Baroda conceived the idea in 1893 and felt the need for establishing the Oriental Institute which can collect and preserve the ancient treasure of rare Manuscripts and books. He founded the Institute in 1927 and invited scholars to edit these ancient works based upon Manuscripts under the Gaekwad's Oriental Series. For educating the common persons, he also started by donating Rs. 2 lacs, the Translation Branch, in which important works were translated and published under different Mala Series in vernaculars. After the establishment of the M.S. University in 1949, the Oriental Institute became the constituent part of the University. The publications under the Gaekwad's Oriental Series and the other Mala Series are still being published.

The Oriental Institute has huge treasure of rare, important, illustrated manuscripts (30,168) and Printed books (1.00.000) which includes many rare old editions. Right from its inception, the Institute is rich in Manuscripts and books on diverse subjects, some of the books and manuscripts are unique in their nature, rarely to be found anywhere else. The scholars from all the corners of India and abroad visit this Institute, consult the manuscripts and books for their research-projects or research-works.

The main activity of the Institute is Research and Publication. The Institute publishes important unpublished works on all subjects relating to Oriental Studies in general and Indology in particular.

Critical Edition's Wing

Critical Edition Section - Established as Ramayana Department specifically for the critical editing of Valmiki-Ramayana in 1951- which is now a land-mark identity of Oriental Institute in the world. Its other editions of Vishnupurana (in II Vols.) and Markandeyapurana (in three Vols.) are also acclaimed by the scholars. At present it is busy in preparing critical edition of Vayupurana. The writing of the vulgate of 112 Adhyayas is ready. The collation work of the manuscripts are ready for 112 Adhyayas. Critical Apparatus of Chapters 50 completed and 51 continued. Constituted text upto Chapter 62 is completed and 63 continued.

Manuscript Section

This section is the heart of the Institute. The scholars from all over the world come here to refer the manuscripts and can get the digitized copy of the required manuscript/s. The National Manuscripts Mission has started a Project of digitizing all the Manuscripts of Oriental Institute this year. In first phase, nearly 26000 manuscripts are digitized. These Manuscripts vary in subjects as well as in script which included Persian and Arabic also. The Manuscripts are written on Paper (mostly), Palm-leaf (nearly 2000), Birch-bark (few), Sanchipat etc.

Digitization Work:

The second phase of National Manuscript Mission's Digitization Project started on 10th Jan 2017 came to an end at 31st May 2018. In the second phase, the remaining paper manuscripts of first phase and all Palm Leaf manuscripts (3469) were digitized. The project was started in 2014's 3rd November by NMM (National Mission for Manuscript) where all 30,295 are digitized

This year we provided digitized copies of 40 Manuscripts to 25 scholars. Some of them personally came to collect them and to others, we sent them online on their request. Not only manuscripts but demand for printed books' copies from Oriental's Library is equally made by scholars. They include students, scholars or just readers who visit the Library in person, request for the digitized copy of a book, many people from all over India and abroad have asked for the copies of the books (GOS or our Gujarati publications) or old articles from Journal of Oriental Institute (our research Journal).

Printed Section

1. JOURNALS : We are receiving more than 100 journals in exchange of our journal publication "Journal of the Oriental Institute" and "Swadhyaya". A few of them are also received by way of gift. The Institute is subscribing only one journal "MARG".

2. AVERAGE STATISTICAL DATA : The timing of the library is from 10.30 a.m. to 6.10 p.m. except Sunday, 2nd & 4th Saturdays and holidays. The daily number of readers visiting the library is 21. Total number of books issued per day for reference is 27. Average no. of books issued per reader in the year is 10.

3. GENERAL INFORMATION : We are also providing the Xerox facility to users of the library on their demand. Library users are coming from all over India for their reference query. We also organize Library orientation programmed to new comer readers/visitors.

Printed Section or the Library of the Institute is equally famous for its rich collection of books and Journals on Indology. The Library has a collection of 53,451 Books and bound Periodicals of 100 Journals which are received in

exchange of Institute's Journal of Oriental Institute. Under UGC – XII Plan, a grant of Rs.1,10,000/- and 15000/- of Critical Edition Dept. (to be utilized before 31st March 2018) has been received for Purchase of books. This year 250 books were purchased with value of Rs. 1,30,000 .

The Library of oriental Institute is huge in the sense of housing many rare extinct, first edition of books and Journals being collected since many decades from its inception. But, the paper material of books and Journals cannot survive a very long age. So this year nearly 2300 books were discarded which were totally brittle, insect-eaten and harmful for other books on racks. A proper procedure was followed to declare them discarded. A team from main library of the University - Hansa Mehta Library, was appointed to supervise the work and make a list of discarded books.

The issues of various journals are getting bounded in 102 volumes in their respected series.

Translation Branch

This section was established in 1912 to look after the vernacular publications of the Institute which are published under five Mala Series - Sri Sayaji Sahityamala for Adults, Sri Sayaji Balajnanamala for Juveniles, Sri Sayaji Gramavikasamala for rural uplift, Matusri Jamanabai Smaraka Granthamala for Women, Sri Sisujnanamala for Children. The languages are Gujarati, Marathi and Hindi. 695 books have been published in these Series. Other than these publications and GOS, the Institute also publishes books under Maharaja Sayajirao Memorial Lecture Series, The M.S.University Oriental Series, M.S.University of Baroda Research Series.

1. 53rd Vol. of Svadhyaya were printed and circulated. Collection of articles for 54th vol. of Svadhyay is complete. Editing of articles for Press-copy is complete.

2. Reprint of 'Vadodara: Ek Adhyayana (in Gujarati)
