

## Acknowledgments

---

*It is my genuine pleasure to express my deep sense of thanks and gratitude to my mentor, philosopher and guide **Prof. S. Mukherjee, Head, Department of Physics.** His dedication and keen interest, above all his overwhelming attitude to help his students, had been solely and mainly responsible for me completing my work. He has helped me and motivated me to complete my work when I was passing through some of the toughest times in my life. His timely advice, meticulous scrutiny, scholarly advice and scientific approach have helped me to a very great extent to accomplish this task.*

*I am also deeply thankful to **Prof. H.R. Kataria, Dean, Faculty of Science,** for providing me with all the necessary facilities and infrastructure to carry out my research work. Prof. Kataria has always been a very approachable Dean and has been helpful to not only me but to all the research scholars of the Faculty, always keeping the best interests of students at his heart.*

*I would also like express my sincere gratitude to **Dr.T.S. Prabhu, Principal, M.K. Amin Arts, Science & Commerce College, Padra** and **CA Minesh M. Shah, Associate Professor and Senate Member, M. K. Amin Arts, Science & Commerce College, Padra** for their constant encouragement and motivation for me to complete my thesis. It was only because of their support that I was able to complete my research and thesis while also performing my academic duties at the college.*

*I would also like to thank **IUAC, New Delhi** for sanctioning the research project(No. IUAC/XIII.7/UFR-56311), to provide the funding during the course of the project and to provide the research facility for my work.*

*I also sincerely thank **Dr. B.K. Nayak, Head, Nuclear Physics Division, BARC, Dr. K. Ramachandran, Dr. P.C. Rout, Dr. S.V. Suryanarayana and Dr. A. Saxena from BARC,** for helping me out during my experiment and for providing me their valuable guidance and expertise.*

*Most of all, I would like to express my special gratitude towards **Dr. Ambar Chatterjee, Ex-Head, Nuclear Physics Division, BARC,** who showed me the ropes during my very first experiment and helped me throughout the data analysis through his expertise and advice. I consider myself really fortunate that Dr. Chatterjee made himself available at Department of Physics, The M.S. University of Baroda, Vadodara and me and my colleagues got a chance to learn so many things from him.*

*I am also extremely thankful to my friends and colleagues **Mr. Siddharth***

*Parashari, Mr. Bhargav Soni, Mr. Akash Hingu, Dr. Nakul Soni, Dr. Rajnikant Makwana, Mr. Rakesh Chauhan, Mr. Ketan Chaudhary, Dr. Bhavna Sharma, Dr. Khushali Pandya* for their valuable support and for providing me necessary and useful suggestions from time to time. Without their help it would have been an extremely difficult task for me. I also whole heartedly thank **entire non-teaching staff of Department of Physics** for helping me out in various ways, throughout my Ph.D. work.

Although all the above mentioned people have helped me to a great extent throughout my entire Ph.D., I cannot express enough gratitude to my mother, **Shri Rashmiben Acharya** and to my brother, **Mr. Dipen Acharya** for providing me their unwavering support and continuous encouragement, care and love, throughout my career. Without their hard work, I would not have been able to achieve this milestone of my life. And last but not the least, a very special thanks to **Ms. Tapsi Upadhyay** for her support, motivation and faith in me to carry out this work.

Thank you all !
