

## TABLES

Table	Page
I. Changes in Alcohol Soluble and Insoluble Material Starch and Cellulose content during ripening of Mangoes ...	38
II. Changes in some Enzyme Activities during ripening ...	44
III. Activity of Sucrose Synthetase, Sucrose Phosphate Synthetase and UDPG Content in ripening Mangoes ...	48
IV. Effect of Dialysis on Sucrose Phosphate Synthetase Activity of Mango Fruit ...	49
V. Activity of Invertase during ripening in Mangoes ...	51
VI. Partial Purification of Sucrose Synthetase and Sucrose Phosphate Synthetase from ripe Mango ...	56
VII. Inhibitory Effect of Unripe Mango Extract on the Activities of Enzymes from ripe fruit Extract ...	59
VIII. Inhibition of Mango Invertase Activity by Unripe Extracts of var Sardar, var Pachhatiyo ...	60
IX. Partial Purification of Invertase Inhibitor from Unripe Mango Extract ...	62
X. Effect of Preincubation Time on Invertase Inhibition by the Inhibitor ...	67
XI. Stability of Invertase Inhibitor ...	67
XII. Effect of Partially Purified Mango Inhibitor on Banana, Papaya and Yeast Invertase ...	68
XIII. Invertase Activity in Banana and Papaya Extract and the Inhibitory Effect of the Unripe Extract ...	70

# TABLES (Cont'd)

Table	Page
XIV. Partial Purification of Invertase Inhibitor from Unripe Banana ...	71
XV. Effect of Partially Purified Banana Inhibitor on Mango Invertase ...	71
XVI. Effect of Ethylene Treatment on the Activity of Partially Purified Invertase Inhibitor from Unripe Mango. ...	77
XVII. Effect of 0.01 $\mu$ M Oleic acid, 0.27 $\mu$ M Caprylic acid & 0.08 $\mu$ M $\beta$ -Carotene on some of the Enzymes related to Carbohydrate Metabolism ...	85
XVIII. Effect of Crude Fatty acid from Mango on Glucose-6-phosphate dehydrogenase, 6-Phosphogluconic dehydrogenase and Malic Enzyme ...	86
XIX. Effect of increasing concentrations of Fatty and $\beta$ -Carotene ...	87
XX. Effect of Fatty acid and $\beta$ -Carotene on Papaya and Yeast Enzymes ...	92
XXI. Effect of Vitamin A and Geraniol on the Mango Enzymes ...	92
XXII. Preservation of Mangoes with Wax Coating ...	97
XXIII. pH, Total acidity and Citric acid content in Healthy and Affected Tissues of Mango ...	98
XXIV. Changes in Starch and Sugar Contents of Healthy and Affected Tissue ...	99
XXV. Preservation of Wax Coated Mangoes by Aureofungin ...	100
XXVI. Some Factors Controlling Carbohydrate Metabolism in ripening Mangoes ...	110
