

ACKNOWLEDGEMENTS

Though only my name appears on the cover of this thesis, many people have contributed to its production. I would like to express my special gratitude to all those people who have made this thesis possible and motivated me to strive towards my goal. At the start, I would like to express my sincere thanks to my thesis advisor Prof. Prafulla K. Jha, for his assistance and guidance during my Ph.D. His guidance provided me well-rounded experience consistent with my long term career goals. Apart from my thesis work, he always helped me whenever I ran into trouble. His encouragements and faith in me not only lead me to grow as a computational physicist but also as an independent researcher. I am privileged to become a part of his research group. I am always inspired by his capacity, enthusiasm towards research. I am very much thankful to him for his priceless guidance not only in research work but also in decisions pertaining to my career. Also I would like to acknowledge him for the stimulating discussions in the evening talk over a tea and his unrelenting support throughout the Ph.D. tenure.

I am thankful to Prof. Prafulla K. Jha for encouraging me to work as a Junior Research Fellow under the Science and Engineering Research Board (SERB), Government of India funded major research project (Ref. No.: SB/S2/CMP-0005/2013).

I would also like to acknowledge Mrs. Sunita Jha for encouragement and support. Besides, I wish to acknowledge the teaching and non-teaching staff in the Physics Department at The Maharaja Sayajirao University for their support during the course of my PhD.

My sincere thanks also goes to **Dr. Prakash Jha** for his support when I was learning Molecular Dynamics Simulations (MDS) and giving me an opportunity to be a part of the Central University of Gujarat (CUG) and facilitate the basic needs.

The atmosphere at our '*CMMP*' lab and the group members group helped me to understand the complex problems in a easy way. I specially want to acknowledge all my seniors **Dr. Satyam Shinde, Dr. Shree Mishra, Dr. Nikita Shah, Dr. Himadri Soni, Dr. Venu Mankad, Dr. Sanjay Gupta, Dr. Shweta D. Dabhi and Dr. Nidhi Astik** for always being there as my motivators and friends. I owe a great deal of gratitude and appreciations to my Master's supervisor, **Dr. Satyam Shinde** his continuous encouragement and thoughtful

insights enlightened me about research. I really appreciate his willingness to help me out whenever I needed some advice in the beginning of my research.

I am also thankful to my fellow labmates, **Dr. Basant Roondhe, Bhumi Baraiya, Deepak Upadhyay, Sharad Pillai, Dr. Som Narayan, Trupti Gajaria, Vaishali Sharma, Hardik Kagdada, Archana, Khushboo, Raghottam, Darshil, Madhavi and Shardul** for their constant support.

A very special thanks to **Ms. Annu Manhas, Dr. Mohsin Y. Lone, Dr. Mohd Athar, Dr. Showkat H. Mir and Dr. Prabodh Ranjan** for their guidance during my stay in Gandhinagar for 5 months at CUG.

At length, I am running out of words to acknowledge my family members, Mom (Ritaben Patel), Papa (Manubhai Patel), brother (Kalp Patel) and Bhabhi (Ankita Patel) and finally my cutie pie my nephew Darsh Patel for their constant unconditional support both in my career as well as studies. Their encouragement, endurance, and unwavering love were indubitably the bedrock upon which the past few years of my life have been built. Their tolerance of my occasional moods is a testament in itself of their unyielding devotion and love. I thank my mom for her prayers, your prayers were what sustained me this far and inspired me at moments when there was no one to answer my queries. I thank my dad for being a constant source of strength, instilling in me the ability to tackle challenges head-on and his financial support whenever I was in need.

Before I complete, I would also like to express my sincere and profound gratitude to my husband **Mr. Jay Mehta** for being supportive during my thesis writing. I wish them all the happiness in life. Above all, I must thank God for making this sojourn a beautiful place.
