LIST OF TABLE

2.1	CRAR of PSBs in India from 1995 to 2005(In Percentage)	42
2.2	Different risk weights under different loans as per Basel-II	48
2.3	Minima &Maxima of Components of Regulatory Capital as % of RWAs	60
2.4	Transitional Arrangements in India for all Banks: (Excluding LABs and RRBs)	61
2.5	Minimum Capital Conservation Standards for Individual bank for CCB	66
2.6	Minimum CET-1 during transition to 2018 with CCB (As on March- end)	66
2.7	Individual Bank's Minimum CET-1 during build-up of CCCB	68
2.8	Individual Banks Minimum Capital conservation Standards	68
2.9	Individual Bank's Minimum Capital Conservation Ratios assuming a requirement of 2.5% each of CCB and CCCB	68
2.10	Individual Bank's Minimum Capital Conservation Standards, when Bank is subjected to requirement of 2.5% CCB and 1 % CCCB	69
2.11	Implementation of more stringent Capital Standards of Basel-III in India by RBI	78
2.12	Restrictions imposed by RBI on Banks to pay dividend when CET-1 falls	78
3.1	Risk-Management Tools Prescribed under the Basel Accords	86
3.2	Various Risk Management structure introduced in India	99
4.1	Sources of Changes in Banks' CAR	105
4.2	Dividend Payout and ROE of banks 2005-2012	106
4.3	Summarized Result of Impact of 1% Point Increase in CAR	106
4.4	Descriptive: mean, standard deviation, minimum, maximum and percentiles of the annual profit ploughed back as capital by the sample banks	110
4.5	ANOVA for model fit	112
4.6	Regression Analysis Result-Unstandardized Coefficients and p-values (across years)	113
4.7	Summary of Regression Analysis: Multiple R& R SQUARE &Adj. R-SQUARE etc.: Model Summary	113
4.8	Descriptive: Mean, Standard Deviation, Minimum, Maximum and Percentiles of the profit ploughed back as capital annually: variations across the 3 bank groups	116
4.9	ANOVA for ploughed Capital amongst Bank-groups	117
4.10	Post-hoc analysis by Bonferroni Test: for the year 2013	117
4.11	Mean, Standard Deviation, Minimum, Maximum and Percentiles of the Tier-1 capital as consolidated by banks.	119
4.12	ANOVA for model fit	121
4.13	Regression Analysis: un-standardized Coefficients and p-value(across the years)	122
4.14	Summary of Regression Analysis: Multiple R & R Square& Adj. R-Square etc.	122
4.15	Mean, Standard Deviation, Minima and Maxima during 2009-	124

	2014: Consolidation of T-1 (across the 3 bank-groups)	
4.16	ANOVA across Banks: Consolidation of Tier 1 Cap	125
4.17	Mean, Standard Deviation, Minimum, Maximum and Percentiles of CC-Credit across the years	127
4.18	ANOVA for model fit:	129
4.19	Regression Analysis: un-standardized Coefficients and p-value (across the years)	129
4.20	Summary of Regression Analysis: multi R, R-square and Adjusted R-square: Model Summary	130
4.21	Mean, Standard Deviation, Minimum, Maximum and Percentiles of CC-Credit (variation across the bank-groups)	132
4.22	ANOVA for Comparison of CC-Credit across bank-group	132
4.23	Multiple Comparisons: Dependent Variable: CC-Credit (Bonferroni Test)	133
4.24	Mean, Standard Deviation, Minimum, Maximum and Percentiles of the growth rate of assets across the years	135
4.25	ANOVA for model fit.	137
4.26	Coefficients etc.	138
4.27	Model Summary	138
4.28	Mean, Standard Deviation, Minimum, Maximum and Percentiles of the growth % of assets across the three bank-groups	140
4.29	ANOVA for growth of assets amongst Bank-group	141
4.30	Bonferroni for post hoc analysis for 2011 & 2013	141
4.31	Mean, Standard Deviation, Percentile, Minima and Maxima of Growth % of RWAs	144
4.32	ANOVA for model fit: Growth of RWAS (Across the years)	146
4.33	Regression Analysis Result- Unstandardized Coefficients and p-values: Growth of RWAs (across the years)	147
4.34	Model summary	147
4.35	Mean, Standard Deviation, Minimum, Maximum and Percentiles of the growth % of RWAs across the three bank-groups.	149
4.36	ANOVA for a growth of RWAs amongst Bank-group:	150
4.37	Post-hoc analysis for the Year 2011	150
4.38	Comparison of mean, standard deviation, minimum, maximum and percentiles of the mean growth % high-risk assets across the years	153
4.39	ANOVA for model fit	155
4.40	Regression Analysis Assets: p-value & Un-standardized Co-efficient:	156
4.41	Summary of Regression Analysis: Multiple-R & R-square & Adj. R-square	156
4.42	Mean, Standard Deviation, Minima's & Maxima, Percentile of High Risk assets: Comparison across the banks.	159
4.43	ANOVA for High-Risk Assets amongst three Bank-groups	160
5.1	Estimates by different studies on Bank Capital Deficiency by 2018-19	186
5.2	The Parameters of four Probable Alternate Scenarios to	187

	determine amount of capital deficit	
5.3	Estimated Capital Surplus/Deficiency of State Bank Group in 4 scenarios as on March -2019	191
5.4	Estimated Capital Surplus (+) /Deficiency of Other PSBs as on March-31, 2019.	192
5.5	The Capital Deficiency of Groups in Four Scenarios: As on 31/03/2019	193
6.1	The Formation of Proposed New 5 Big Banks as on 1-4-2018	228
6.2	The profile of newly formed 'Big Bank A' as on 31-3-2019	229
6.3	The profile of newly formed 'Big Bank B' as on 31-3-2019	230
6.4	Estimated parameters of 'Big Bank C' (as on 31-3-2019)	231
6.5	Estimated parameters of 'Big Bank D' (as on 31-3-2019)	232
6.6	Estimated parameters of 'Big Bank E' (as on 31-3-2019)	233
6.7	Summary of Capital Infusion from GOI into 5 Big Banks during or as on 31-3-2019	234
