

ACKNOWLEDGEMENT

I find it a matter of pride and privilege to express my sincerest gratitude and indebtedness to my Guide, Dr. Umesh R. Dangarwala, for his guidance, constructive suggestions, constant inspiration, moral support and counseling. It is true to say, he alone has played a crucial role in the fulfillment of my long cherished dream.

I am grateful to Prof. A. R. Hingorani, Dean, Faculty of Commerce and Prof. Parimal Vyas, Head, Department of Commerce Including Business Administration for their blessing.

I wish to express my heartfelt gratitude to Dr. Shamal Pradhan whose co-operative gestures, moral support and invaluable suggestions helped throughout the course of my study.

I am especially grateful to all respondents who participated in this study, whose indispensable co-operation is usually played down in behavioural research by little respectfully calling them subjects.

Words are lacking to express my profound thanks to my parents, a source of constant inspiration and encouragement who always dreamt for higher education of their Son. I am highly indebted to them, without whose co-operation the study would not have been completed.

I thank all those who directly or indirectly helped me in bringing out this Thesis.
