

## ACKNOWLEDGEMENT

Foremost, I would like to thank God, the Almighty for his blessing, leading me constantly towards the right path alongwith strength, knowledge, ability and opportunity to conduct this research as well as to persereve and complete it satisfactorily.

Throughout the journey of my research, I meet many people who have been directly or indirectly supporting, guiding and provided opportunity to explore, learn, execute the research work and in making of the thesis. So, I would like to convey special thanks to one and all by mentioning in acknowledgement.

My sincere and deep gratitude to my guide, Prof. (Dr.) Anjali Karolia and co-guide, Dr. Hireni Mankodi, both of them has always directed, supported, motivated and encouraged me. Their immense knowledge, co-operation, patience, suggestions, confidence on me and provided space to explore, learn and grow, continoues supervision and guidance has always helped me a lot right from framing of the title to execution of research work for satisfactory results as well as writing of thesis and research papers. Thank you so much correcting and editing my work patiently.

I would like to thank UGC for providing BSR Fellowship, which has supported me initialy for five years, with it entire experimental work as well as fabrication of instruments for the research work was smoothly finalized.

Amarpreet Singh, Scientist-In-Charge, Ramie Research Station, Assam and Dr. Ajit Kumar Jha, Senior Scientist Incharge, Sisal Research Station, Bamra, sincere appreciation to both of them for providing good quality of fiber as well as making the fiber procurement process easy and speedy.

Heartfelt thanks to Dr. Amey J. Damle, Asst. Manager, Rossari Biotech Limited, Mumbai for sponsoring three different enzymes alongwith his kind guidance and suggestions. I also thank Mr. Sunil Vaidya, Novazyme for assisting in the procurement of Laccase enzyme for the study. Indebt thanks to Mr. Amin, Colourtex for conducting pilot work of treating fibers in bulk using enzymes at the research and development department and sharing immense knowledge for further possibilities.

I am grateful to Mr. Jaydeep Shah, Assistant Professor, SVMIT, Bharuch for creating 3D designing of the sound absorbing instrument and Mr. Prakash, Unity Glass, Vadodara for constant support and providing his expertise in fabricating the instrument. Also grateful to Mr. Kirti Panchal, Technical staff, Department of Textile Engineering, Faculty of Technology and Engineering, The Maharaja Sayajirao University of Baroda, Vadodara for fabricating combing tool and beating machine for fiber softening process. And thanks to Mr. Navin Goliya, Kusum Electricals Industries Ltd., Mumbai for sending dB meter which was used for sound absorbing testing.

I am obliged to Mr. Badresh Shah, Hemangbhai and Siddharthbhai of Department of Textile Engineering, Faculty of Technology and Engineering, The Maharaja Sayajirao University of Baroda, Vadodara for providing their facilities to accomplish tensile strength as well as air-permeability test of samples in their laboratory. Also grateful to Dr. R C Tandel, Professor & Head, Applied Chemistry Department, Faculty of Technology and Engineering, The Maharaja Sayajirao University of Baroda, Vadodara for conducting FTIR test of the fibers in their laboratory.

Sincere thanks to different members of testing institutions/laboratory - Mrs. Chandrakala Madichetty, Senior Scientific Officer and Ms. Tejasvini, The Bombay Textile Research Association (BTRA), Mumbai for X-Ray Diffraction test, Mr. G B Hadge, Senior Officer, Department of SEM, Central Institute for Research on Cotton Technology (CIRCOT), Mumbai for fiber SEM and to Mr. Jaydeep Sheth, ERDA, Vadodara for fabric SEM and EDS test of fibers.

I am grateful to Ms. Avani Varia, Aadhar, Non-profitable Organisation, Ahmedabad, she enthusiastically assisted in spinning of sisal fiber which was one of the challenge in my study. I also thank Dr. Goutam Bose, Principle Scientist and his team member Mr. Robin, Spinning Department, NIRJAFT who developed the ramie yarns as per the need of the study. Thanks to Dr. Sengupta and Ms. Papai, Nonwoven Department, NIRJAFT for developing nonwoven samples as backing material.

To Mr. R.S. Gokhale, Assistant Director and Rajesh Lade, Weaving Department, Weavers Service Center, Mumbai as well as Mr. Prakash Siju, Carpet weaver, Kachchh who explored with cellulosic minor fibers for the first time and developed aesthetically appealing woven samples, they owe my sincere gratitude for it.

I am grateful to Mr.Hiren Bhatt, Technical Manager, Choksi Laboratories, GIDC, Makarpura, Vadodara for conducting anti-microbial & fungal tests onto the treated samples and sincere thanks to Mr. Arindam Choudhuri, Senior Manager – Technical, Britacel Silicones Ltd., Mumbai for assisting in application of Resin finish onto the treated sample.

A big thanks to all my senior teachers of the Department of Clothing and Textiles, Faculty of Family and Community Sciences, The Maharaja Sayajirao University of Baroda, Vadodara for their continuous support, encouragement and assistance during coursework as well as research work.

I am grateful to Davebhai for his guidance for paper work right from the inception my study. For all kind of laboratory work, assistance and direction, I am also grateful to Naineshbhai, Nishantbhai and Sanjaybhai. My sincere thanks to Pratikbhai who has always assisted and sloved all my computer and software related issues. I also thank Sachinbhai, Ila ben, Kapila ben and Santoosh bhai for all their co-operation and assistance during my fiber treatment process.

Indeed, the smooth and full of fun Ph.D tenure was only possible due to my friends –Amrita Maam, Sukriti Di, Vandita Di, Jennifer, Priyanka, Ankita Patadiya, Chhavi, Ankita Shroff, Parthraj Puranik and all my friends, they all deserve a big thank you for all the support, motivation and tackfully handling my tough times.

I owe my success to my father, mother, sister Chitra Upadhyay, my aunt Dr. Trupti Almoula, my in-laws and entire Purohit parivaar who has always stood with me as a backbone, has always showed faith in me and most importantly has always supported me throughout my Ph.D journey. I had a great and lovely support from my husband Shivam Purohit and always provided a space to move towards success and build a career, from bottom of my heart I not only thank but owe for the same.

Thanks to all of those who eagerly asked two major questions -“Haji Ketlu Baki?” and “Kyare patshe?” (How much is pending? and when will you finish?).

HERE IT IS!!

**Arpita Desai**
