

LIST OF TABLES

Table	Page
1. Chemical composition of agents in finish receipe.	56
2. Preliminary data of the fabrics.....	76
3. Data of the finishing agents used.....	77
4. Percent shrinkage of wool fabric (W) treated with acrylamide polymer finish..... ¹	80
5. Percent shrinkage of cotton fabric (C) treated with acrylamide polymer finish.....	82
6. Percent shrinkage of cotswool fabric (CW) treated with acrylamide polymer finish.....	84
7. Percent shrinkage of wool fabric (W) treated with chlorine and 5% acrylamide polymer finish..... ²	87
8. Percent shrinkage of wool fabric (W) treated with 5% acrylamide polymer finish..... ³	90
9. Percent shrinkage of wool fabrics (W , W and W) treated with 5% acrylamide polymer finish..... ^{1 2 3}	93
10. Percent elastic recovery of wool fabric (W) treated with acrylamide polymer finish..... ¹	97
11. Percent elastic recovery of cotton fabric (C) treated with acrylamide polymer finish.....	99
12. Percent elastic recovery of cotswool fabric (CW) treated with acrylamide polymer finish.....	99
13. Tensile strength of wool fabric (W) treated with acrylamide polymer finish..... ¹	103
14. Tensile strength of cotton fabric (C) treated with acrylamide polymer finish.....	105

Table	Page
15. Tensile strength of costwool fabric (CW) treated with acrylamide polymer finish.....	107
16a. Percent elongation of wool fabric (W) treated with acrylamide polymer finish (warp).....	110
16b. Percent elongation of wool fabric (W) treated with acrylamide polymer finish (weft).....	110
17a. Percent elongation of cotton fabric (C) treated with acrylamide polymer finish (warp).....	112
17b. Percent elongation of cotton fabric (C) treated with acrylamide polymer finish (weft).....	112
18a. Percent elongation of cotswool fabric (CW) treated with acrylamide polymer finish (warp).....	115
18b. Percent elongation of cotswool fabric (CW) treated with acrylamide polymer finish (weft).....	115
19. Tearing strength of fabrics (W ,C and CW) treated with acrylamide polymer finish (warp).....	117
20. Bending length of fabrics (W ,C and CW) treated with acrylamide polymer finish.....	121
21. Wrinkle recovery ⁰ of fabrics (W ,C and CW) treated with acrylamide polymer finish.....	125
22. Appearance rating of fabrics (W ,C and CW) treated with acrylamide polymer finish.....	129
23. Percent retention of pleats in wool fabric (W) treated with acrylamide polymer finish	135
24. Percent retention of pleats in cotton fabric (C) treated with acrylamide polymer finish	137

Table	Page
25. Percent retention of pleats in cotswool fabric (CW) treated with acrylamide polymer finish.....	137
26. Percent finish on acrylamide treated fabrics (W ,C and CW) before (a) and after (b) washing....	140
27. Wrinkle recovery ¹ of acrylamide treated fabrics before (a) and after (b) washing.....	142
28. Bending length of acrylamide treated fabrics before (a) and after (b) washing.....	142
29. Percent pleat retention in garments (half skirts) of wool, cotton and cotswool (W , C and CW) fabrics treated with 5% acrylamide polymer finish.....	150
30. Percent elastic recovery of wool fabric (W) treated with 5% acrylamide polymer finish	181
31. Tensile strength of wool fabric (W) treated with 5% acrylamide polymer finish.....	181
32a. Percent elongation of wool fabric (W) treated with 5% acrylamide polymer finish	184
32b. Percent elongation of wool fabric (W) treated with 5% acrylamide polymer finish.....	184
33. Tearing strength of wool fabric (W) treated with 5% acrylamide polymer finish.....	186
34. Bending length of wool fabric (W) treated with 5% acrylamide polymer finish.....	186
35. Wrinkle recovery ² of wool fabric (W) treated with 5% acrylamide polymer finish.....	189

Table	Page
36. Appearance rating of wool fabric (W ₂) treated with 5% acrylamide polymer finish.....	189
37. Percent retention of pleats in wool fabric (W ₂) treated with 5% acrylamide polymer finish.....	192
38. Percent retention of pleats in wool fabric (W ₁ and W ₂) treated with 5% acrylamide polymer finish.....	192
39. Percent finish on acrylamide treated wool fabric (W ₂) before (a) and after (b) washing.....	195
40. Wrinkle recovery ⁰ of acrylamide treated wool fabric (W ₂) before (a) and after (b) washing	195
41. Bending length of acrylamide treated wool fabric (W ₂) before (a) and after (b) washing	195
