

LIST OF TABLES

Table		Page
1	Comparison of drape tests	22
2	Fabric analysis	51
3	Materials used for preparation of dressforms.	59
4	Measurements used for preparing dressforms ..	62-63
5	Skirt fabrics used for aesthetic appeal ..	83
5a	Godet fabrics used for aesthetic appeal ..	85
6	Preliminary data of fabrics	88
7	Data of fabric properties related to drape characteristics	89
8	Data of stiffness and % drape coefficient of different fabrics.. ..	90
9	Data of percentage drape coefficient and number of nodes in fabric of different fabrics	93
10	Data of percentage drape coefficient and flexural rigidity of different fabrics ..	96
11	Data of stiffness and number of nodes formed in fabrics	98
12	Methods of adding fullness and the drape effect obtained	108
13	Sari styles and their drape effect ..	156
14	Kurta styles and their drape effect ..	157
15	Skirt styles and their drape effect ..	158-161
16	Data on draped area of basic skirt - Fabric A	163
17	Data on draped area of basic skirt - Fabric B	166
18	Data on draped area of basic skirt - Fabric C	169

Table		Page
19	Data on draped area of basic skirt - Fabric D	172
20	Data on draped area of basic skirt - Fabric E	175
21	Results of the subjective assessment and its relationship with skirt fabrics ..	181
21a	Draping ability of skirt fabrics ..	183
22	Results of the subjective assessment and its relationship with godet fabrics ..	182
22a	Draping ability of godet fabrics ..	184
23	Comparison of subjective assessment with objective assessment	185
24	Summary of garment drape ratios ..	188
25	Preferences for the skirt fabric and godet fabrics used for aesthetic appeal ..	191
