

Table of Content

CHAPTER 1- <u>I</u> NTRODUCTION.....	1
1.1 Internet: A boon	1
1.2 Brief History of the Internet	2
1.3 Use of Internet For Different Purposes	4
1.4 Advantages of Using an Internet	7
1.5 Internet Users in India	8
1.6 Internet and Women	10
1.7 Statement of the Problem	13
1.8 Justification of the Study	13
1.9 Justification of the study in the Department of Extension and Communication.....	15
1.10 Justification of the Sample	16
1.11 Justification of Variables.....	18
1.12 Objectives of the Study	24
1.13 Null Hypotheses	30
1.14 Assumptions.....	32
1.15 Delimitations	33
1.16 Operational Definition.....	33
CHAPTER 2 - <u>R</u> EVUEW OF LITERATURE.....	34
2.1 Studies related to Household Responsibilities	35
2.2 Studies related to Women and Internet	44
2.3 Studies related to Usage of the Internet for Household Purposes	57
2.4 Research Trends	72
2.5 Conclusion.....	74
CHAPTER 3- <u>M</u> ETHODOLOGY	75
3.1 Feasibility Study.....	75
3.2 Population of the Study	82
3.3 Sample of the Study	82
3.4 Construction of the Research Tools	84
3.5 Validity of the Research Tool	89

3.6 Reliability of Research Tool	90
3.7 Pretesting of Research Tool	91
3.8 Procedure for Data Collection	91
3.9 Scoring and Categorization	92
3.10 Plan of Statistical Analysis	101
3.11 Sampling for Qualitative Data collection	104
3.12 Research Tools Used For Qualitative Data Collection	104
3.13 Analysis of Qualitative Data	105
CHAPTER 4- <u>RESULT AND DISCUSSION</u>	106
4.1 Profile of the Married Women	108
4.2 Internet Usage Pattern of the Married Women	117
4.3 Household Responsibilities of Married Women	149
4.4 Usage of Internet For Household Responsibilities	175
4.5 Experiences of Married Women While Using the Internet	201
4.6 Problems faced by women while using the Internet	205
4.7 Qualitative Findings	217
4.8 Conclusion	236
4.9 Recommendations For Further Studies	238
CHAPTER 5- <u>SUMMARY</u>	245
5.1 Introduction	245
5.2 Review of Literature	269
5.3 Methodology	271
5.4 Major Findings of the Study	289
5.5 Conclusion	298
5.6 Recommendations for Further Studies	300
Cited Literature	301
Bibliography	312

Appendix-5 Copy of Research Paper Publications

List of Tables

Table No.	Title	Pg. No.
1.	Zone wise Percent distribution of Samples	83
2.	Research Tool Used For Quantitative Data Collection	85
3.	Number of Statement Under Each Responsibility	87
4.	Number Of Statement related to Internet Usage Under Each Household Responsibility	88
5.	Number of Statement related to Problems faced while Using the Internet	89
6.	Categorization of independent variables of the study	93
7.	Categorization of dependent variables of the study	94
8.	Score provided for different responses of Household Responsibilities of Married Women	94
9.	Scoring of data for Overall Household Responsibilities and Aspect wise Household Responsibilities	95
10.	Scoring and Categorization of data for Internet Usage for performing household responsibilities	95
11.	Minimum and Maximum obtainable scores for Overall and Aspect wise Internet Usage for Household Responsibilities	96
12.	Categorization of Internet Usage Patterns of Respondents	97
13.	Scoring and Categorization of Frequency of using internet for various Purposes	98
14.	Minimum and Maximum obtainable scores of purpose/reasons for using the internet	98
15.	Scoring of Internet Usage	99
16.	Categories of Internet Users on the basis of their Internet Usage pattern	100
17.	Scoring of data for Experience of Using the Internet	100
18.	Maximum and Minimum obtainable scores for the experience of using the Internet	100
19.	Scoring and Categorization of data for problems while using the internet	101
20.	Maximum and Minimum obtainable scores of Problems while using the Internet	101
21.	Statistical Measures Used to analyze the data	102
22.	Frequency and Percentage Distribution of Married Women According to their Background Information	108
23.	Frequency and Percentage Distribution of Married Women According to their Sources of Learning Computer and Internet	113
24.	Percentage Distribution of Married Women according to their Comfort for Using Different Software	114
25.	Frequency and Percentage Distribution of Married Women According to the Gadgets They Possess	117
26.	Frequency and Percentage Distribution of Married Women According to the Gadgets They Share with Family Members	118

Table No.	Title	Pg. No.
27.	Frequency and Percentage Distribution of Married Women according to the gadgets used to access the internet	121
28.	Frequency and Percentage Distribution of Married Women according to their type and number of internet connection	122
29.	Percentage Distribution of Married women according to their monthly expenditure on internet recharge	125
30.	Frequency and Percentage Distribution of Married Women according to their experience of using the internet	126
31.	Frequency and Percentage Distribution of selected women according to time spent on the internet per day	128
32.	Percentage Distribution of Married women according to their choice of browser on internet	130
33.	Frequency and Percentage Distribution of Married Women According to the Frequently Visited Websites by Them	132
34.	Frequency and Percentage Distribution of Married Women According to Their Source of Information About Websites	134
35.	Frequency and Percentage distribution of Married Women according to their Use of internet for various purpose	135
36.	Intensity Indices Showing Use of the Internet for Most of the Time	136
37.	Intensity Indices Showing Use of the Internet For Sometime	137
38.	Intensity Indices Showing Rare Use of the Internet	139
39.	Percentage Distribution of Married Women According to the Type of Internet Use in Terms of Their Internet Usage Patterns	140
40.	Analysis of Variance (ANOVA) Showing Difference in Use of Internet For Various Purposes by Married Women in Relation With Selected Variables	141
41.	Tukey's HSD comparison for in Purpose of using internet by Married Women in relation with selected variables	142
42.	Analysis of Variance (ANOVA) Showing Differences in Monthly Monetary Expenditure on Internet Recharge by Married Women in Relation with Selected Variables	143
43.	Tukey's HSD Comparison For Monthly Monetary Expenditure on Internet Recharge By Married Women In Relation With Their Income Group	144
44.	Analysis of Variance (ANOVA) showing the difference in Time Spent on the Internet by Married Women in relation with selected variables	145
45.	Tukey's HSD comparison for Time Spent on the Internet by Married Women in Relation With Selected Variables	146
46.	Analysis of Variance (ANOVA) showing the difference in Internet Usage Patterns of Married Women in relation with selected variable	147
47.	Tukey's HSD comparison for Internet Usage Patterns of Married Women in relation with selected variables	148
48.	Frequency and Percentage Distribution of Married Women According to Their Overall Household Responsibilities	150

Table No.	Title	Pg. No.
49.	Frequency and Distribution of Married Women according to their Household Responsibilities	151
50.	Frequency and Percentage Distribution of Married Women according to their Kitchen Management related Household responsibilities	153
51.	Frequency and Percentage Distribution of Married Women according to their Household responsibilities related to Child Care Management	155
52.	Frequency and Percentage Distribution of Married Women according to their Household responsibilities Related to Household Management	157
53.	Frequency and Percentage Distribution of Married Women according to their Finance Management related Household responsibilities	158
54.	Frequency and Percentage Distribution of Married Women according to their Socializing and Entertainment related Household responsibilities	159
55.	Frequency and Percentage Distribution of Married Women according to their Miscellaneous Household responsibilities	161
56.	Frequency and Percentage Distribution of Married Women According To the Help Available To Them for Performing Their Household Responsibilities	162
57.	Analysis Of Variance (ANOVA) Showing Difference in Overall Household Responsibilities Performed By Married Women in Relation Different Variables	164
58.	Tukey's HSD Comparison For Overall Household Responsibilities Performed By Married Women In Relation Income Group	165
59.	Analysis Of Variance (ANOVA) Showing Differences in Kitchen Management Related Household Responsibilities of Married Women in Relation with Selected Variables	166
60.	Tukey's HSD comparison for Kitchen Management Related Household Responsibilities of Married Women in Relation with Selected Variables	167
61.	Analysis Of Variance (ANOVA) Showing Difference in Child Care Management Related Household Responsibilities of Married Women in Relation Selected Variables	168
62.	Tukey's HSD Comparison for Child Care Management Related Household Responsibilities of Married Women In Relation With Their Occupation	169
63.	Analysis Of Variance (ANOVA) Showing Difference in Household Management Related Household Responsibilities of Married Women in Relation with Selected Variables	170
64.	Analysis of Variance (ANOVA) showing difference in Finance Management related household responsibilities performed by Married Women in relation to different variables	171
65.	Tukey's HSD comparison for Finance Management related Responsibilities of Married Women in relation with Selected Variables	172
66.	Analysis Of Variance (ANOVA) Showing Difference in Social and Entertainment Management Related Household Responsibilities of Married Women in Relation with Selected Variables	173

Table No.	Title	Pg. No.
67.	Tukey's HSD comparison for Social and Entertainment Management related Responsibilities of Married Women in relation with Variables	174
68.	Intensity Indices And Percent Distribution of Married Women According To Their Usage Of Internet For Their Household Responsibilities.	175
69.	Item Wise Intensity Indices For Usage of Internet For Kitchen Management	176
70.	Item Wise Intensity Indices for Usage of Internet For Child Care Management	178
71.	Item Wise Intensity Indices for Usage of the Internet for Household Management	179
72.	Item Wise Intensity Indices for Usage of the Internet for Finance Management	180
73.	Item Wise Intensity Indices for Usage of the Internet for Social and Entertainment Management	182
74.	Item Wise Intensity Indices for Usage of the Internet for Miscellaneous Household Responsibilities	184
75.	Analysis of Variance (ANOVA) Showing Difference in Usage of the Internet for Overall Household Responsibilities	185
76.	Tukey's HSD Comparison for Usage of the Internet for Overall Household Responsibilities	186
77.	Analysis of Variance (ANOVA) Showing Difference in Usage of the Internet for Kitchen Management	187
78.	Tukey's HSD Comparison for Usage of the Internet for Kitchen Management in Relation with Selected Variables	188
79.	Analysis of Variance (ANOVA) showing the difference in Usage of Internet Child Care Management	190
80.	Tukey's HSD comparison for Usage of Internet for Child Care Management	191
81.	Analysis of Variance (ANOVA) showing the difference in Usage of the Internet for Household Management	192
82.	Tukey's HSD comparison for Usage of the Internet for Household Management in relation with Selected Variables	193
83.	Analysis of Variance (ANOVA) showing the difference in Usage of the Internet for Finance Management	194
84.	Tukey's HSD comparison for Usage of the Internet for Financial Management in relation with Selected Variables	195
85.	Analysis of Variance (ANOVA) showing the difference in Usage of the Internet for Social and Entertainment Management	197
86.	Tukey's HSD comparison for Usage of the Internet for Social and Entertainment Management in Relation with Selected Variables	198
87.	t-Ratio showing differences in usage of internet for different household responsibilities in relation to their type of computer training	199
88.	Percentage distribution of women according to their experiences while using the internet	201

Table No.	Title	Pg. No.
89.	Item Wise Intensity Indices for Experiences of Married Women While Using Internet	202
90.	Percentage Distribution of Married Women According to Their Overall Problems while using the internet	205
91.	Percentage Distribution of Married Women According to Their Personal Problems While Using the Internet	206
92.	Percentage Distribution of Married Women According to Their Technical Problems While Using the Internet	206
93.	Intensity Indices for problems faced by Married women while using the Internet	207
94.	Analysis of Variance (ANOVA) showing Difference in Overall Problems Faced by Married Women While Using the Internet	210
95.	Tukey's HSD comparison for Overall Problems while using the Internet by Women in relation with Selected Variables	211
96.	Analysis of Variance (ANOVA) showing Difference in Personal Problems Faced by Married Women While Using the Internet	212
97.	Tukey's HSD Comparison for Personal Problems While using the Internet by Women in Relation With Selected Variables	213
98.	Analysis of Variance (ANOVA) Showing Difference in Technical Problems Faced by Women While Using the Internet	214
99.	Tukey's HSD Comparison for Technical Problems of Married Women while using the Internet in relation with Selected Variables	215
100.	t- ratio showing difference in Problems faced by women while using the internet in relation with their type of computer training	216
101.	Frequency Distribution of Married Women According to their Background Information	218
