

## TABLE OF CONTENTS

	PAGE
LIST OF TABLES	vii.
LIST OF FIGURES	xii.
CHAPTER	
I INTRODUCTION	1
1. Statement of the Problem	8
2. Objectives of the Study	11
3. Assumptions of the Study	12
4. Hypotheses of the Study	13
5. Delimitations of the Study	13
II REVIEW OF LITERATURE	15
1. Conceptualisation of Adoption	15
2. Sectors of Energy Demand and Consumption	23
3. Studies Related to Energy Consumption Pattern of Urban and Rural Families	29
4. Studies Related to Traditional Chulha	39
5. Studies Related to Improved Chulha	45
III METHODOLOGY	63
1. Variables	64
2. Model Showing Hypothesised Relation Among Variables in the Study of EAMC	80
3. Operational Definitions	81
4. Interview cum Observation Schedule	84
5. Pilot Study	90
6. Data Collection Procedure and Scoring of the Instruments	92
7. Analysis of Data	106

IV	FINDINGS AND DISCUSSION	111
1.	Description of the Sample	112
2.	Level of Quality of Housing	118
3.	Extent of Possession of Consumer Durable Goods	124
4.	Extent of Demands on Main Cook's Time	125
5.	Energy Base of End Uses	126
6.	Extension of Activities of Families After Dusk	127
7.	Energy Management Practices of Family	128
8.	Extent of Interaction of Main Cook and Family with Different Spheres	129
9.	Energy Consumption Pattern	130
10.	Perception Regarding Available Cooking Fuel Sources	150
11.	Perception Regarding Accessibility to Available Cooking Fuel Sources	151
12.	Participation in Cooking Fuel Cycle	153
13.	Practices Related to Family Cooking	155
14.	Responses Related to Conventional/Traditional Cookstoves	161
15.	Source of Information About MC	172
16.	Factors that Motivated Families to Become Beneficiaries of NPIC	174
17.	Decision maker to Volunteer to Own MC	175
18.	Reasons for Delayed Installation of MC	176
19.	Location of MC	177
20.	Changes Made in Cooking and Fuel Management Practices	178
21.	Changes Made in MC	182
22.1	Frequency of Cleaning Chimney Pipe	183
22.2	Frequency of Repair and Maintenance of Potholes of MC	185

23.	Follow-up of MC	186
24.	Reasons for Satisfaction	187
25.	Reasons for Dissatisfaction	189
26.	Utilization of Time Saved due to MC	191
27.	Level of Quality of Installation	192
28.	Nature and Type of Training Received	196
29.	Extent of Participation in NPIC	197
30.	Extent of Adoption of MC	207
31.	Perceived Cost Benefit Ratio	218
32.	Profiles of High and Low Adoption Scorers	219
33.	Profiles of High and Low Scorers of PCBR	221
34.	Hypothesis Testing	224
35.	Discussion of Findings in Relation to Hypothesis Testing	237
V	SUMMARY AND CONCLUSION	257
1.	Summary	257
2.	Conclusions	272
3.	Implications of the Study	274
	Bibliography	281
	Appendices	308
