

LIST OF PLATES

PLATE	TITLE	PAGE NO.
1.	Model showing the hypothesised relation among the variables in the study of artificial lighting in kitchens	49
2.	Field enumerator taking reading for general ambient illuminance	73 A
3.	Field enumerator taking reading at sink centre	73 B
4.	Floor Plan and elevations of the simulated lighting with test points	81
5.	Simulated kitchen with lighting installations	83 A
6.	Layout of lamps/luminaires in the simulated kitchen	84
7.	Laboratory experimentation in pairs of subjects	94 A
8.	Standard Landolt's ring test in progress	94 B
9.	Brownness discrimination test in progress	94 B
10.	Location and wattage rating of lamps to achieve 500:300 lx for functional and general lighting (incandescent lamps)	216
11.	Location and wattage rating of lamps to achieve 500:300 lx for functional and general lighting (conventional fluorescent lamps)	216
12.	Location and wattage rating of lamps to achieve 500:300 lx for functional and general lighting (energy saving lamps)	216
13.	Location and wattage rating of lamps to achieve 300:180 lx for functional and general lighting (incandescent lamps)	217
14.	Location and wattage rating of lamps to achieve 300:180 lx for functional and general lighting (conventional fluorescent lamps)	217

PLATE	TITLE	PAGE NO.
15.	Location and wattage rating of lamps to achieve 300:180 lx for functional and general lighting (energy saving lamps)	217
16.	Location and wattage rating of lamps to achieve 200:120 lx for functional and general lighting (incandescent lamps)	218
17.	Location and wattage rating of lamps to achieve 200:120 lx for functional and general lighting (conventional fluorescent lamps)	218
18.	Location and wattage rating of lamps to achieve 200:120 lx for functional and general lighting (energy saving lamps)	218
