

*“Take up one idea. Make that one idea your life - think of it, dream of it and live on that idea. Let every part of your body, be full of that idea. This is the way to success.”*

*Swami Vivekananda*

The idea of pursuing my doctorate degree has enabled me to see this day when I acknowledge with gratitude all those who rekindled the spark of hard work in me and helped me keep the flame of success lighted.

It is rightly said that ‘The love of a family is life’s greatest blessing’. I dedicate my thesis to my family especially to my better half - Saurabh, who without questioning even once allowed me to pursue my doctorate degree, managing his life alone during this period. He has literally lived my dream with me. I am grateful to my parents and my elder sister- Pooja, who inspired and made me capable to see this dream & achieve my goal. But more than them I am indebted to my in-laws with special mention to my mother-in-law who has been more than my mother during this tenure. They actually transformed my DREAM into a REALITY. I also thank my son - Tanush, who has been very understanding and co-operative throughout this phase of my life. Thank you all for your unconditional love, support and blessings.

The quote, “Great minds discuss great ideas” resembles perfectly to my guide, Prof. Uma Iyer who inculcated in me the idea of doing honest research and taught me to keep patience for favourable things to happen. She has always been an inspiration as a teacher, as a mentor and as a consummate person, with whom even the smallest thing could be discussed without hesitation. Madam it’s a privilege to be associated with you and I convey my deepest thanks and gratitude to you for accepting me as your student. I shall always strive hard to never let you down in life.

Without friends life is boring, dull and lacks the spark of enthusiasm. I thank Shriya, Mital, Rujuta, Trushna, Pawan & Aditika for making the days bright and cheerful. Special thanks to Pooja, Shruti, Shweta, Vijayata & Tanu for incorporating positivity in me and being with me when I wanted to talk. The lovely memories and de-stressing moments spent with you all will always be cherished. Friends you will be missed a lot and I really wish we all come together for some good cause in future.

I pay my gratitude to all my teachers for introducing me to the field of nutrition and helping me throughout my learning years. Heartfelt thanks are due to Swati Dhruv madam, for her help during this period. I also forward my thanks to Minaxi Sutharia for being so co-operative and always helping me with a smile.

I am thankful to Dr. Mona Shah for allowing data collection at her clinic and for her guidance whenever required. I am grateful to all my subjects who voluntarily participated in my study and made this research possible.

There are many more people, who though not mentioned here, were a part of this journey and are a part of my life. I thank them all for their never ending encouragement and support.

Lastly, I bow my head with great faith before the *Almighty* who gave me strength to overcome the odds and achieve my goal. Thank you for creating the favourable circumstances and make this accomplishment happen...

Thank you one and all for your gracious gestures!!!

Arti
