ACKNOWLEDGEMENTS

Writing this thesis has been fascinating and extremely rewarding. I would like to thank a number of people who have contributed to present thesis in many different ways.

To commence with, I pay my obeisance to GOD, the almighty to have bestowed upon me good health, courage, inspiration, zeal and the light. After GOD, I express my sincere and deepest gratitude to my supervisor, Dr. Rajesh C. Shah, Associate Professor, Department of Applied Mathematics, Faculty of Technology and Engineering, The Maharaja Sayajirao University of Baroda, who ploughed through several preliminary versions of my text, making critical suggestions and posing challenging questions, constructive criticism, patiently provided the vision. His expertise, invaluable guidance, constant encouragement, affectionate attitude, understanding, patience and healthy criticism added considerably to my experience. Without his continual inspiration, it would have not been possible to complete this study so effectively. I acknowledge the valuable time imparted by my supervisor during completion of this task.

I am extremely thankful to the Dean, Faculty of Technology & Engineering, The Maharaja Sayajirao University of Baroda, and Vice Chancellor, The Maharaja Sayajirao University of Baroda, for providing research facilities during the pursuit of the present work.

I take this opportunity to express my deep sense of gratitude and respectful regards to Dr. D. C. Vakaskar, late Professor and Head, The M. S. University of Baroda for his valuable suggestions and support throughout the work.

I am grateful to my doctoral committee members Professor D. C. Vakaskar (late Head of the Department), Dr. Rajesh C. Shah (Guide), Professor P. S. Kantawala, Dr. Trupti Shah, Dr. Purnika K.
