

## List of Tables

<b>Table No.</b>	<b>Content</b>	<b>Page No.</b>
	<b>Chapter I - Introduction</b>	
1.	Summary of Five Year Plans with emphasis on education	22
2.	Literacy Rate in India: Census 1951 – 2011	36
3.	Literacy rate in various districts of Gujarat - 2011	52
	<b>Chapter III: Research Methodology</b>	
4.	Existing Theoretical Framework and it's applicability to the current research	118
5.	Selection of Blocks under selected Districts	126
6.	Literacy rate of selected Districts	127
7.	Tools and methods of data collection	130
	<b>Chapter IV: Perception of Teachers</b>	
8.	Background Information of the Teachers	137
9.	Distribution of Teacher's responses regarding implementation of Government Plans and Programmes for Primary Education in Schools	139
10.	Distribution of teachers' responses regarding efforts made by schools to promote awareness regarding government programmes	140
11.	Distribution of teachers' responses regarding year of implementation of Right to Education Act (RTE) in the school	142
12.	Distribution of teachers' responses regarding facilities provided under RTE	142
13.	Distribution of teachers' responses regarding ensuring Community Participation for Implementation	144
14.	Distribution of teachers' responses regarding encouragement of Children to participate in curricular and co-curricular activities	146
15.	Distribution of teachers' responses regarding whether the No Detention Policy is followed in the school	147
16.	Distribution of teachers' responses regarding formation of School Management Committee in school	148
17.	Distribution of teachers' responses regarding frequency of School Management Committee (SMC) Meetings in schools	149
18.	Distribution of teachers' responses regarding Points of Discussion in School Management Committee (SMC) Meetings	151
19.	Distribution of teachers' responses regarding inception of Mid-Day Meal in school	152
20.	Distribution of teachers' responses regarding type of food served under Mid Day Meal in their School	153
21.	Distribution of teachers' responses regarding whether Mid Day	155

	Meal cooked in school	
22.	Distribution of teachers' responses regarding facilities available in school if meal is cooked in school	155
23.	Distribution of teachers' responses regarding provision of dishes under Mid Day Meal Programme	156
24.	Distribution of teachers' responses regarding monitoring of MDM in school	156
25.	Distribution of teachers' responses regarding helpers recruited under Mid Day Meal Programme	158
26.	Distribution of teachers' responses regarding inception of Kanya Kelavani Yojna in schools	159
27.	Distribution of teachers' responses regarding provision of scholarship under Kanya Kelavani Yojna	159
28.	Distribution of teachers' responses regarding holding of Shala Praveshotsav in school last	160
29.	Distribution of teachers' responses regarding participation of State Officials in Praveshotsav campaigns	161
30.	Distribution of teachers' responses regarding efforts made by school to ensure that each child is enrolled	161
31.	Distribution of teachers' responses regarding inception of Gunotsav in the school	163
32.	Distribution of teachers' responses regarding involvement of community members in Praveshotsav	164
33.	Distribution of teachers' responses regarding types of co-curricular and extra-curricular activities held at School	165
34.	Distribution of teachers' responses regarding regularity of the school in informing parents about the child's progress	167
35.	Distribution of teachers' responses regarding the last Parents Teachers Meeting held to discuss the child's progress	167
36.	Distribution of teachers' responses regarding use of Teaching Aids to increase the interest of the children in studies at school	168
37.	Distribution of teachers' responses regarding procurement of Teaching Learning Material	171
38.	Distribution of teachers' responses regarding remedial classes being conducted in school	171
39.	Distribution of teachers' responses regarding availability of necessary infrastructure for quality education	172
40.	Frequency and percentage distribution of responses regarding last assessment conducted by Government officials in School	174
41.	Distribution of teachers' perceptions of success of Right to Education (RTE) Act in ensuring hundred percent enrolment	176
42.	t-test results of perceptions of Male and Female teachers regarding success of Right to Education Act in ensuring hundred percent enrolment	176
43.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding success of Right to Education Act in ensuring hundred percent enrolment in relation with selected variables	177
44.	Distribution of teachers' perception regarding success of Mid	178

	Day Meal Programme in ensuring hundred percent enrolment	
45.	t-test results of perceptions of Male and Female teachers regarding success of Mid Day Meal Programme in ensuring hundred percent enrolment	178
46.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding success of Mid Day Meal Programme in ensuring hundred percent enrolment in relation with selected variables	179
47.	Distribution of teachers' perceptions regarding success of Kanya Kelavani Yojna in ensuring hundred percent enrolment	179
48.	t-test results of Male and Female teachers' perception of success of Kanya Kelavani Yojna in ensuring hundred percent enrolment	180
49.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding success of Kanya Kelavani Yojna in ensuring hundred percent enrolment in relation with selected variables	181
50.	Post Hoc Test result for perception of teachers regarding success of Kanya Kelavani Yojna in ensuring hundred percent enrolment in relation with selected variables	181
51.	Distribution of teachers' perception regarding success of Gunotsav in ensuring hundred percent enrolment	182
52.	t-test results perception of Male and Female teachers regarding success of Gunotsav in ensuring hundred percent enrolment	183
53.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding success of Gunotsav in ensuring hundred percent enrolment in relation with selected variables	183
54.	Post Hoc Test result for perception of teachers regarding success of Gunotsav in ensuring hundred percent enrolment	184
55.	Distribution of teachers' perception regarding success of Shala Praveshotsav in ensuring hundred percent enrolment	185
56.	t-test results of Male and Female teachers regarding success of Shala Praveshotsav in ensuring hundred percent enrolment	185
57.	Analysis of Variance (ANOVA) of perception of teachers regarding success of Shala Praveshotsav in ensuring hundred percent enrolment in relation with selected variables	186
58.	Post Hoc Test result for perception of teachers regarding success of Shala Praveshotsav in ensuring hundred percent enrolment	186
59.	Distribution of teachers' perceptions regarding success of various programmes in ensuring hundred percent enrolment- At a glance	187
60.	Distribution of teachers' perception regarding effect of No Detention Policy on quality of education	188
61.	t-test results of Male and Female teachers regarding effect of No Detention Policy on Quality of Education	189
62.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding effect of No Detention Policy on Quality of Education in relation with selected variables	190

63.	Post Hoc Test result for perception of teachers regarding effect of No Detention Policy on Quality of Education	190
64.	Distribution of teachers' perception regarding sufficiency of grants received under RTE to meet the infrastructural, teaching and learning requirements at the school	191
65.	t-test results of perception Male and Female teachers regarding sufficiency of grants received under Right to Education Act (RTE)	192
66.	Analysis of Variance (ANOVA) results of perception of teachers regarding sufficiency of grants received under Right to Education Act (RTE) in relation with selected variables	193
67.	Post Hoc Test result for perception of teachers regarding sufficiency of grants received under RTE	193
68.	Distribution of teachers' perception regarding increased regularity of children due to Mid Day Meal Programme	194
69.	t-test results of perceptions of Male and Female teachers regarding increased regularity of children due to Mid Day Meal Programme	195
70.	Analysis of Variance (ANOVA) results of perception of teachers regarding increased regularity of children due to Mid Day Meal Programme in relation with selected variables	196
71.	Post Hoc Test result for perception of teachers regarding increased regularity of children due to Mid Day Meal Programme	196
72.	Distribution of teachers' perception regarding increase in the enrolment of children due to Mid Day Meal Programme	197
73.	t-test results of perceptions of Male and Female teachers regarding increase in enrolment of children due to Mid Day Meal Programme	198
74.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding increase in enrolment of children due to Mid Day Meal Programme in relation with selected variables	199
75.	Post Hoc Test result for perception of teachers regarding increase in enrolment of children due to Mid Day Meal Programme	199
76.	Distribution of teachers' perceptions regarding improvement in nutrition of children due to Mid Day Meal Programme	200
77.	t-test results of perceptions of Male and Female teachers regarding improvement in nutrition of children due to Mid Day Meal Programme	201
78.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding improvement in nutrition of children due to Mid Day Meal Programme in relation with selected variables	202
79.	Post Hoc Test result for perception of teachers regarding improvement of nutrition of children due to Mid Day Meal Programme	202
80.	Distribution of teachers' perception regarding improvement in concentration of children due to Mid Day Meal Programme	203
81.	t-test results of perceptions of Male and Female teachers	204

	regarding improvement in concentration of children due to Mid Day Meal Programme	
82.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding improvement in concentration of children due to Mid Day Meal Programme in relation with selected variables	204
83.	Distribution of teachers' perception regarding inculcation of the habit of sharing meals amongst children due to Mid Day Meal Programme	205
84.	t-test results of perceptions of Male and Female teachers regarding inculcation of the habit of sharing meals amongst children due to Mid Day Meal Programme	206
85.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding inculcation of the habit of sharing meals amongst children due to Mid Day Meal Programme in relation with selected variables	207
86.	Post Hoc Test result for perception of teachers regarding inculcation of the habit of sharing meals amongst children due to Mid Day Meal Programme in relation with selected variables	207
87.	Distribution of teachers' perceptions regarding benefits of Mid Day Meal Programme – At a glance	208
88.	Distribution of teachers' perception regarding role of Kanya Kelavani Rath in increasing the gender enrolment ratio	210
89.	t-test results of perceptions of Male and Female teachers regarding role of Kanya Kelavani Yatra in increasing the gender enrolment ratio	211
90.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding role of Kanya Kelavani Rath in increasing the gender enrolment ratio in relation with selected variables	212
91.	Post Hoc Test result for perception of teachers regarding role of Kanya Kelavani Yojna in increasing the gender enrolment ratio	212
92.	Distribution of teachers' perception regarding need of Praveshotsav despite Right To Education Act already being implemented	213
93.	t-test results of perceptions of Male and Female teachers regarding need of Praveshotsav despite Right To Education Act already being implemented	214
94.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding need of Praveshotsav despite Right To Education Act already being implemented in relation with selected variables	215
95.	Post Hoc Test result for perception of teachers regarding need of Praveshotsav despite Right To Education Act already being there	215
96.	Distribution of teachers' perceptions respondents regarding role of Gunotsav in increasing quality of teaching and learning	216
97.	t-test results of perceptions of Male and Female teachers regarding role of Gunotsav in increasing the quality of teaching and learning	217

98.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding role of Gunotsav in increasing the quality of teaching and learning in relation with selected variables	218
99.	Post Hoc Test result for perception of teachers regarding role of Gunotsav in increasing the quality of teaching and learning	218
100.	Distribution of teachers' perception regarding success of Government plans and programmes in increasing enrolment and retention of students in primary education	219
101.	t-test results of perceptions of Male and Female teachers regarding success of Government plans and programmes in increasing enrolment and retention of students in primary education	220
102.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding success of Government plans and programmes in increasing enrolment and retention of students in primary education in relation with selected variables	221
103.	Distribution of teachers' perception regarding sufficiency of funds received by the Government in implementation of the programmes	222
104.	t-test results of perceptions of Male and Female teachers regarding sufficiency of funds received by the Government for implementation of the programmes	223
105.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding sufficiency of funds for implementation of the programmes in relation with selected variables	224
106.	Post Hoc Test result for perception of teachers regarding sufficiency of funds for implementation	224
107.	Perception of teachers regarding provision of training for proper implementation of the programmes	225
108.	t-test results of perceptions of Male and Female teachers regarding provision of training for proper implementation of the programmes	226
109.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding provision of training for proper implementation of the programmes in relation with selected variables	226
110.	Post Hoc Test result for perception of teachers regarding provision of training for proper implementation of the programmes	227
111.	Perception of teachers regarding cluelessness about the deliverables to be provided to the children	228
112.	t-test results of perceptions of Male and Female teachers regarding cluelessness about the deliverables to be provided to the children	229
113.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding cluelessness about the deliverables to be provided to the children in relation with selected variables	229
114.	Post Hoc Test result for perception of teachers regarding cluelessness about the deliverables to be provided to the	230

	children in relation with selected variables	
115.	Perception of teachers regarding problem of unavailability of checklist by the Government to check progress of the implementation	230
116.	t-test results of perceptions of Male and Female teachers regarding problem of unavailability of checklist by the Government to check the progress of work	232
117.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding problem of unavailability of checklist by the Government to check the progress of work in relation with selected variables	232
118.	Post Hoc Test result for perception of teachers regarding problem of unavailability of checklist by the Government to check the progress of work in relation with selected variables	233
119.	Perceptions of teachers regarding problem of no monitoring of the progress of work done	234
120.	t-test results of perceptions of Male and Female teachers regarding problem of no monitoring of the work done by officials	235
121.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding problem no monitoring of the work done by officials in relation with selected variables	236
122.	Post Hoc Test result for perception of teachers regarding problem of no monitoring of the work done by officials	236
123.	Perceptions of teachers regarding problem of materials not being provided on time	237
124.	t-test Results of perceptions of Male and Female teachers regarding materials not being provided on time	238
125.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding materials not being provided on time in relation with selected variables	238
126.	Post Hoc Test result for perception of teachers regarding problem of materials not being provided on time	239
127.	Perceptions of teachers regarding rigidity of community members for participation in implementation of the programmes	240
128.	t-test results of perception of Male and Female teachers regarding rigidity of community members for participation in implementation of the programmes	241
129.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding Rigidity of community members for participation in implementation of the programmes in relation with selected variables	242
130.	Post Hoc Test result for perception of teachers regarding rigidity of community members for participation in implementation of the programmes	242
131.	Perceptions of teachers regarding difficulty in involving parents in the school activities	243
132.	t-test results of perceptions of Male and Female teachers	244

	regarding difficulty in involving parents in school activities	
133.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding difficulty in involving parents in school activities in relation with selected variables	245
134.	Post hoc result for perception of teachers regarding difficulty in involving parents in school activities in relation with selected variables	245
135.	Section III - Teachers Experiences of Problems faced in Implementation of Government Plans and Programmes for Primary School Children – At a Glance	246
136.	Perception of teachers regarding organization of more awareness campaigns by the Government	247
137.	t-test results of Male and Female teachers regarding organization of more awareness programmes by the Government	249
138.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding organization of more awareness programmes by the Government in relation with selected variables	250
139.	Post Hoc Test result for perception of teachers regarding organization of more awareness programmes by the Government in relation with selected variables	250
140.	Perceptions of teachers regarding provision of Role Specific Training	251
141.	t-test results of perceptions of Male and Female teachers regarding provision of Role Specific Training	252
142.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding provision of Role Specific Training in relation with selected variables	253
143.	Post Hoc Test result for perception of teachers regarding provision of Role Specific Training in relation with selected variables	253
144.	Perceptions of teachers regarding conducting campaigns for people to avail facilities	254
145.	t-test results of perceptions of Male and Female teachers regarding conducting campaigns for people to avail facilities	255
146.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding conducting campaigns for people to avail facilities in relation with selected variables	256
147.	Post Hoc Test result for perception of teachers regarding conducting campaigns for people to avail facilities in relation with selected variables	256
148.	Perceptions of teachers regarding distribution of booklets and brochures during campaigns	257
149.	t-test results of perceptions of Male and Female teachers regarding distribution of booklets and brochures during campaigns	258
150.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding distribution of booklets and brochures during campaigns in relation with selected variables	259

151.	Post Hoc Test result for perception of teachers regarding distribution of booklets and brochures during campaigns in relation with selected variables	259
152.	Perceptions of teachers regarding Establishment of transparent communication/interaction channels between parents and the school administration	260
153.	t-test results of perceptions of Male and Female teachers regarding establishment of transparent communication/interaction channels between parents and the school administration	261
154.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding establishment of transparent communication/interaction channels between parents and the school administration in relation with selected variable	262
155.	Post Hoc Test result for perception of teachers regarding establishment of transparent communication/interaction channels between parents and the school administration in relation with selected variables	263
156.	Perceptions of teachers regarding regularizing Teacher Training	263
157.	t-test results comparing perceptions of Male and Female teachers regarding regularizing Teacher Training	265
158.	Analysis of Variance (ANOVA) results of perceptions of teachers regarding regularizing Teacher Training in relation with selected variables	265
159.	Post Hoc Test result for perception of teachers regarding regularizing Teacher Training in relation with selected variables	266
160.	Section IV - Distribution of responses of Teachers regarding suggestions to Improve Implementation of Plans and Programmes- At a glance	266
161.	t-test results of Teachers' perceptions at a glance	270
162.	ANOVA and Post Hoc results of Teachers' perception at a glance	273
	<b>Chapter V – Perception of Parents</b>	
163.	Background Information of the Parents	287
164.	Distribution of parents' responses regarding awareness regarding selected Government Plans and Programmes	288
165.	Distribution of parents' responses regarding awareness and provision of facilities under Right to Education (RTE) Act	290
166.	Distribution of parents' responses regarding involvement of Community in implementation of the Government programmes	292
167.	Distribution of parents' responses regarding provision of motivation to the children to participate in co-curricular and extra-curricular activities	292
168.	Distribution of parents' responses regarding punishment faced by the children at school	293

169.	Distribution of parents' views on regularity of Mid Day Meal in school	295
170.	Distribution of parents' responses regarding whether the child eats Mid Day Meal regularly in school	296
171.	Distribution of parents' views on reasons for child not eating Mid Day Meal regularly at school	296
172.	Distribution of parents' responses regarding benefits of Mid Day Meal Programme- Child does not stay hungry anymore	297
173.	t-test results of perceptions of Male and Female parents regarding benefits of Mid Day Meal Programme- Child does not stay hungry anymore	298
174.	Analysis of Variance (ANOVA) results of perception of parents regarding benefits of Mid Day Meal Programme- Child does not stay hungry anymore	299
175.	Post Hoc Test result for perception of Parents regarding benefits of Mid Day Meal Programme- Child does not stay hungry anymore	299
176.	Distribution of parents' responses regarding benefits of Mid Day Meal Programme- Child gets food regularly on time	300
177.	t-test results of perceptions of Male and Female parents regarding benefits of Mid Day Meal Programme- Child gets food regularly on time	301
178.	Analysis of Variance (ANOVA) results of perception of parents regarding benefits of Mid Day Meal Programme- Child gets food regularly on time	301
179.	Post Hoc Test result for perception of Parents regarding benefits of Mid Day Meal Programme- Child gets food regularly on time	302
180.	Distribution of parents' responses regarding benefits of Mid Day Meal Programme- Child is motivated to go to school	303
181.	t-test results of perceptions of Male and Female parents regarding benefits of Mid Day Meal Programme- Child is motivated to go to school	304
182.	Analysis of Variance (ANOVA) results of perception of parents regarding benefits of Mid Day Meal Programme- Child is motivated to go to school	305
183.	Post Hoc Test result for perception of Parents regarding benefits of Mid Day Meal Programme- Child is motivated to go to school	305
184.	Distribution of parents' responses regarding benefits of Mid Day Meal Programme- Child does not have to work anymore	306
185.	t-test results of perceptions of Male and Female parents regarding benefits of Mid Day Meal Programme- Child does not have to work anymore	307
186.	Analysis of Variance (ANOVA) results of perception of parents regarding benefits of Mid Day Meal Programme- Child does not have to work anymore	307
187.	Post Hoc Test result for perception of Parents regarding benefits of Mid Day Meal Programme- Child does not have to	308

	work anymore	
188.	Distribution of Parents' Views on Benefits of Mid Day Meal Programme – At a glance	310
189.	Distribution of parents' responses regarding type of food served at school under Mid Day Meal Programme	311
190.	Distribution of parents' responses regarding provision of plates for Mid Day Meal Programme	311
191.	Distribution of parents' responses regarding awareness Scholarship for girls as a facility under Kany Kelavani Yojna	312
192.	Distribution of parents' responses regarding whether they have availed the scholarships under Kanya Kelavani Yojna	312
193.	Distribution of parents' responses regarding reasons for not availing scholarships under Kanya Kelavani Yojna	312
194.	Distribution of parents' responses regarding whether Remedial Classes under Gunotsav programme are conducted in school	313
195.	Distribution of parents' responses regarding last Praveshotsav held in their community	314
196.	Distribution of parents' responses regarding whether assistance was provided in admission	315
197.	Distribution of parents' responses regarding whether Government officials were involved in Praveshotsav Campaign	316
198.	Distribution of parents' responses regarding whether community members were involved in the Praveshotsav Campaign	316
199.	Distribution of parents' responses regarding co-curricular and extra-curricular activities held at school	318
200.	Distribution of parents' responses regarding whether the school informs parents regarding progress of the child	319
201.	Distribution of parents' responses regarding whether they interact with the school teachers regularly	320
202.	Distribution of parents' responses regarding number of meetings attended in the last twelve months to know the progress of the child	320
203.	Distribution of parents' responses regarding reasons for not attending the meetings	322
204.	Distribution of parents' responses regarding satisfaction of facilities under Right to Education (RTE) Act- Free Admission	324
205.	t-test results of perceptions of Male and Female Parents regarding satisfaction of facilities under Right To Education (RTE) Act– Free Admission	324
206.	Analysis of Variance (ANOVA) results perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Free Admission in relation with selected variables	325
207.	Distribution of parents' responses regarding satisfaction of facilities under Right to Education (RTE) Act - Free Books	325
208.	t-test results of perceptions of Male and Female parents regarding satisfaction of RTE facilities – Free Books	326
209.	Analysis of Variance (ANOVA) results perceptions of Parents	326

	regarding satisfaction of facilities under Right To Education (RTE) Act – Free Books in relation with selected variables	
210.	Distribution of parents’ responses regarding satisfaction of facilities under Right to Education (RTE) Act-Free Uniform	327
211.	t-test results of perceptions of Male and Female Parents regarding satisfaction of facilities under Right To Education (RTE) Act - Free Uniform	327
212.	Analysis of Variance (ANOVA) results of perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Free Uniform in relation with selected variables	328
213.	Distribution of parents’ responses regarding satisfaction of facilities under Right to Education (RTE) Act- Proper Learning Environment	328
214.	t-test results of perceptions of Male and Female Parents regarding satisfaction of facilities under Right To Education (RTE) Act - Proper Learning Environment	329
215.	Analysis of Variance (ANOVA) results of perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Proper Learning Environment in relation with selected variables	329
216.	Distribution of parents’ responses regarding satisfaction of facilities under Right to Education (RTE) Act- Separate Toilets for Boys and Girls	330
217.	t-test results of perceptions of Male and Female Parents regarding satisfaction of facilities under Right To Education (RTE) Act– Separate Toilets for Boys and Girls	330
218.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Separate Toilets for boys and girls in relation with selected variables	331
219.	Post Hoc Test results for perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Separate Toilets for boys and girls in relation with selected variables	331
220.	Distribution of parents’ responses regarding satisfaction of facilities under Right to Education (RTE) Act- Library	332
221.	t-test results of perceptions of Male and Female Parents regarding satisfaction of facilities under Right To Education (RTE) Act –Library	333
222.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction of facilities under Right regarding To Education (RTE) Act – Library in relation with selected variables	334
223.	Post Hoc Test result for perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Library in relation with selected variables	334
224.	Distribution of parents’ responses regarding satisfaction of	335

	facilities under Right to Education (RTE) Act- Computer Lab	
225.	t-test results of perceptions of Male and Female Parents regarding satisfaction of facilities under Right To Education (RTE) Act– Computer Lab	336
226.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Computer Lab in relation with selected variables	337
227.	Post Hoc Test result for perceptions of Parents regarding satisfaction of facilities under Right To Education (RTE) Act – Computer Lab in relation with selected variables	337
228.	Distribution of parents’ responses regarding satisfaction of facilities under Right to Education (RTE) Act at a glance	338
229.	Distribution of parents’ responses regarding whether No Detention Policy compromises the quality of education	339
230.	t-test results of perceptions of Male and Female Parents regarding No Detention Policy compromising the quality of education	342
231.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding whether the No Detention Policy compromises the quality of Education in relation with selected variables	342
232.	Post Hoc Test result for perceptions of Parents regarding whether the No Detention Policy compromises the quality of Education in relation with selected variables	343
233.	Distribution of parents’ responses regarding satisfaction with implementation of Right To Education Act by the school	344
234.	t-test results of perceptions of Male and Female Parents regarding satisfaction with implementation of Right To Education Act by the school	344
235.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction with implementation of Right To Education (RTE) Act by the school in relation with selected variables	345
236.	Post Hoc Test result for perceptions of Parents regarding satisfaction with implementation of Right To Education Act by the school in relation with selected variables	346
237.	Distribution of parents’ responses regarding satisfaction with Mid Day Meal programme- Child does not stay hungry anymore	346
238.	t-test results of perceptions of Male and Female parents regarding satisfaction with Mid Day Meal programme- Child does not stay hungry anymore	347
239.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child Does not stay hungry anymore in relation with selected variables	347
240.	Post Hoc Test result for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child Does not	348

	stay hungry anymore in relation with selected variables	
241.	Distribution of parents' responses regarding satisfaction with Mid Day Meal programme- Child enjoys eating at school	349
242.	t-test results of perceptions of Male and Female Parents regarding satisfaction with Mid Day Meal programme- Child enjoys eating at school	349
243.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction with Mid Day Meal programme – Child Enjoys eating at school in relation with selected variables	350
244.	Post Hoc Test result for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child enjoys eating at school in relation with selected variables	350
245.	Distribution of parents' responses regarding satisfaction with Mid Day Meal programme- Child enjoys going to school	351
246.	t-test results of perceptions of Male and Female Parents regarding satisfaction with Mid Day Meal programme- Child enjoys going to school	352
247.	Analysis of Variance (ANOVA) results for perceptions of Male and Female Parents regarding satisfaction with Mid Day Meal programme- Child enjoys going to school in relation with selected variables	352
248.	Post Hoc Test result for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child enjoys going to school in relation with selected variables	353
249.	Distribution of parents' responses regarding satisfaction with Mid Day Meal programme- Child learns to mingle with children of other social classes	353
250.	t-test results of perceptions of Male and Female Parents regarding satisfaction with Mid Day Meal programme- Child learns to mingle with children of other social classes	354
251.	Analysis of Variance (ANOVA) results for perceptions of Male and Female Parent respondents regarding satisfaction with Mid Day Meal programme- Child learns to mingle with children of other social classes in relation with selected variables	355
252.	Post Hoc Test result for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child learns to mingle with children of other social classes in relation with selected variables	356
253.	Distribution of parents' responses regarding satisfaction with Mid Day Meal programme- Child does not have to work anymore	357
254.	t-test results of perceptions of Male and Female Parents regarding satisfaction with Mid Day Meal programme- Child does not have to work anymore	357
255.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child does not have to work anymore	358

256.	Post Hoc Test result for perceptions of Parents regarding satisfaction with Mid Day Meal programme- Child does not have to work anymore in relation with selected variables	358
257.	Distribution of Parents' perception regarding Satisfaction with Mid Day Meal Programme – At a glance	359
258.	Distribution of parents' responses regarding overall satisfaction with the implementation of Mid Day Meal programme	361
259.	t-test results of perceptions of Male and Female Parents regarding overall satisfaction with the implementation of Mid Day Meal programme	362
260.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding overall satisfaction with the implementation of Mid Day Meal programme in relation with selected variables	362
261.	Distribution of parents' responses regarding role of Kanya Kelavani Yojna in motivation of girl child education	363
262.	t-test results of perceptions of Male and Female Parents regarding role of Kanya Kelavani Yojna in motivation of girl child education	364
263.	Analysis of Variance (ANOVA) results for perceptions of Male and Female Parents regarding role of Kanya Kelavani Yojna in motivation of girl child education in relation with selected variables	364
264.	Post Hoc Test result of perceptions of Parents regarding role of Kanya Kelavani Yojna in motivation of girl child education in relation with selected variables	365
265.	Distribution of parents' responses regarding satisfaction with provision of remedial classes at school	365
266.	t-test results of perceptions of Male and Female Parents regarding satisfaction with provision of remedial classes at school	366
267.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding satisfaction with provision of remedial classes at school in relation with selected variables	367
268.	Post Hoc Test result of perceptions of Parents regarding satisfaction with provision of remedial classes at school in relation with selected variables	368
269.	Distribution of parents' responses regarding benefits of Kanya Kelavani Yojna- Has paved a way to motivate female children to go to school	369
270.	t-test results of perceptions of Male and Female Parents regarding benefits of Kanya Kelavani Yojna- Has paved a way to motivate female children to go to school	370
271.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding benefits of Kanya Kelavani Yojna- Has paved a way to motivate female children to go to school in relation with selected variables	370
272.	Post Hoc Test result of perceptions of Parents regarding	371

	benefits of Kanya Kelavani Yojna- Has paved a way to motivate female children to go to school in relation with selected variables	
273.	Distribution of parents' responses regarding benefits of Kanya Kelavani Yojna- Scholarships help reduce the economic burden	372
274.	t-test results of perceptions of Male and Female Parents regarding benefits of Kanya Kelavani Yojna- Scholarships help reduce the economic burden	373
275.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding benefits of Kanya Kelavani Yojna- Scholarships help reduce the economic burden in relation with selected variables	373
276.	Post Hoc Test result of perceptions of Parents regarding benefits of Kanya Kelavani Yojna- Scholarships help reduce the economic burden in relation with selected variables	374
277.	Distribution of parents' responses regarding benefits of Education programmes- Helped in improvement of three R's	375
278.	t-test results of perceptions of Male and Female parents regarding benefits of Education Programmes- Helped in improving three R's	377
279.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding benefits of Education Programmes- Helped in improving three R's in relation with selected variables	377
280.	Post Hoc Test result of perceptions of Parents regarding benefits of Education Programmes- Helped in improving three R's in relation with selected variables	378
281.	Distribution of parents' responses regarding whether schooling has brought about any visible behavioral changes in their child	379
282.	t-test results of perceptions of Male and Female Parents regarding whether schooling has brought about any visible behavioral changes in their child	380
283.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding whether schooling has brought about any visible behavioral changes in their child in relation with selected variables	381
284.	Post Hoc Test result of perceptions of Parents regarding whether schooling has brought about any visible behavioral changes in their child in relation with selected variables	381
285.	Distribution of parents' responses regarding whether they are happy with their child's progress in school	382
286.	t-test results of perceptions of Male and Female Parents regarding whether they are happy with their child's progress in school	383
287.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding whether they are happy with their child's progress in school in relation with selected variables	384
288.	Distribution of parents' responses regarding discrimination faced at school – the child is isolated from other children	385

	during Mid Day Meal	
289.	Distribution of parents' responses regarding discrimination faced at school – the child is given a small portion of the meal	385
290.	Distribution of parents' responses regarding discrimination faced at school – the child is made to wash other children's plates	386
291.	Distribution of parents' responses regarding discrimination faced at school- the child is not given books	386
292.	Distribution of parents' responses regarding discrimination faced at school- the child is made to sit on the last bench	387
293.	Distribution of parents' responses regarding extent of difficulties faced during admission of the child	387
294.	Distribution of parents' responses regarding extent of difficulties faced while interacting with the teachers of the school	388
295.	Distribution of parents' responses regarding holding campaigns on how to avail the facilities under the programmes	390
296.	t-test results of perceptions of Male and Female Parents regarding holding campaigns on how to avail the facilities under the programmes	390
297.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding holding campaigns on how to avail the facilities under the programmes in relation with selected variables	391
298.	Post Hoc Test result of perceptions of Parents regarding holding campaigns on how to avail the facilities under the programmes in relation with selected variables	391
299.	Distribution of parents' responses regarding setting up facilitation centre for parents who have no idea about admission procedures	392
300.	t-test results of perceptions of Male and Female Parents regarding setting up facilitation centre for parents who have no idea about admission procedures	393
301.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding setting up facilitation centre for parents who have no idea about admission procedures in relation with selected variables	393
302.	Post Hoc Test result of perceptions of Parents regarding setting up facilitation centre for parents who have no idea about admission procedures in relation with selected variables	394
303.	Distribution of parents' responses regarding need for a facilitator to take care of queries	395
304.	t-test results of perceptions of Male and Female Parents regarding need for a facilitator to take care of queries	396
305.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding need for a facilitator to take care of queries	397
306.	Post Hoc Test result of perceptions of Parents regarding need for a facilitator to take care of queries in relation with selected variables	397

307.	Distribution of parents' responses regarding distribution of brochures and pamphlets	398
308.	t-test results of perceptions of Male and Female Parents regarding distribution of brochures and pamphlets	399
309.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding distribution of brochures and pamphlets in relation with selected variables	399
310.	Distribution of parents' responses regarding establishment of a transparent communication channel between the school and the community	400
311.	t-test results of perceptions of Male and Female Parents regarding establishment of a transparent communication channel between the school and the community	401
312.	Analysis of Variance (ANOVA) results for perceptions of Parents regarding establishment of a transparent communication channel between the school and the community in relation with selected variables	401
313.	Post Hoc Test result of perceptions of Parents regarding establishment of a transparent communication channel between the school and the community in relation with selected variables	402
314.	Section IV - Distribution of parents' responses regarding suggestions to Improve Implementation of Plans and Programmes – At a glance	403
315.	t-test results of Parents' perceptions at a glance	407
316.	ANOVA and Post Hoc results of Parents' perception at a glance	411
