

Dedicated to my Parents

This achievement will complete the dream that
you had for me when you chose to give me the best education you could.

Anything good that has come to my life has been because of
your examples, guidance, unconditional love and support.

This thesis is dedicated to my beloved parents
who have always been a source of inspiration, encouragement and stamina
to undertake my higher studies and to face the eventualities of life
with zeal, enthusiasm and fear of God!
