

# List of Tables

---

<b>Table 1:</b> New Paradigm enabled by CloudIoT: everything as a service.....	05
<b>Table 2:</b> Standard ECG Intervals for a healthy adult with standard bpm of 60.....	44
<b>Table 3:</b> Different Time stamp calculations.....	53
<b>Table 4:</b> QoS parameters and their values.....	56
<b>Table 5:</b> Cloud server Distances in number of Hops.....	57
<b>Table 6:</b> Test Bed configuration.....	68
<b>Table 7:</b> Disp system Experimental Results.....	69
<b>Table 8:</b> Complete Time Complexity measures and percentage of improvements .....	71
<b>Table 9:</b> Hardware configurations of cluster nodes.....	76
<b>Table 10:</b> Number of nodes and nodes selection.....	76
<b>Table 11:</b> System functions and description.....	81
<b>Table 12:</b> System symbols and description.....	82
<b>Table 13:</b> Speedup factors for 5000 ECG waves for 4 nodes and 4* Nodes system .....	96
<b>Table 14:</b> Defined Op_codes.....	112
