TABLE OF CONTENTS

Sr. No.	Topic	Page No.
i	Certificate	I
ii	Approval	II
iii	Candidate's Declaration	III
iv	Acknowledgments	IV
v	Abstract	VI
vi	Table of Contents	VIII
vii	List of Tables	XI
viiii	List of Figures	XII
1	**INTRODUCTION**	1
	1.1 A Brief History of Currency	1
	1.2 Introduction To the Indian Currency	2
	1.2.1 The Indian Rupee	2
	1.2.2 The Reserve Bank of India and New Currencies	4
	1.2.3 Unique Features of the Indian Currency Notes	7
	1.3 Motivation For This Work	9
	1.4 The Problem Statement, Objectives, Research Contributions and Applications	10
	1.4.1 The Problem Statement	10
	1.4.2 The Objectives	10
	1.4.3 The Research Contributions	11
	1.4.4 The Applications	12
	1.5 The Overall Organization of Thesis	13
2	**BACKGROUND**	15
	2.1 Work Carried Out Across the World	15
	2.2 Work Carried Out for the Indian Currency	33
	2.3 Currency Recognition Tools/Apps	39
	2.4 Tools Used	40
	2.4.1 The OpenCV	40
	2.4.2 Android	42

2.4.3 Python 43
SUMMARY 43
3 A BRIEF INTRODUCTION TO THE WORK AND THE PROPOSED *cGrab-Cut* 45
3.1 A Brief about the Proposed Work 45
3.2 The Dataset and Environment 46
3.3 The *cGrab-Cut* – A Compromised yet Optimized GrabCut for Android Devices 47
3.3.1 Introduction to the *cGrab-Cut* 47
3.2.2 Performance testing of the *cGrab-Cut* 49
SUMMARY 50
4 THE PROPOSED FEATURE DETECTORS - *HORB* AND *ACORB* **51**
4.1 The ORB (Oriented Fast Rotated Brief) Feature Detector 51
4.1.1 Introduction to the ORB 51
4.1.2 The Basic Implementation of the ORB 54
4.2 The *HORB* – A Histogram-Based ORB Feature Detector 55
4.2.1 Introduction to the *HORB* 55
4.2.2 The Testing and Performance Analysis of the *HORB* 57
4.3 The *ACORB* – An Ant Colony Optimization Based ORB Feature Detector 60
4.3.1 Introduction To The *ACORB* 60
4.3.2 The Testing and Performance Analysis of the *ACORB* 63
SUMMARY 67
5 THE PROPOSED CLASSIFIERS - *HORBoVF* AND *ACORBoVF* **69**
5.1 The Image Classification 69
5.1.1 Introduction to the Image Classification 69
5.1.2 Bag of Visual Words Classification 72
5.2 The Proposed Classifiers 74
5.2.1 The *HORBoVF* – A Histogram, the ORB, and a Bag 75

of Visual Features based 3-Stage Hybrid Classifier
5.2.2 The *ACORBoVF* – An ACO, the ORB, and a Bag of Visual Features based 2-Stage Hybrid Classifier 77
5.3 The Testing and Performance Analysis of the *HORBoVF* and the *ACORBoVF* 79
5.3.1 For K=10 80
5.3.2 For K=15 82
5.3.3 For K=20 85
5.3.4 For K=24 87
SUMMARY 91
6 A RETRAINED CLASSIFIER – *Te₹₹ency* 93
6.1 Introduction to the Convolutional Neural Networks (CNN) and TensorFlow 93
6.2 *Te₹₹ency* – A Tensorflow and CNN Based Retrained Model 95
6.3 The Testing and Performance Analysis of *Te₹₹ency* 98
6.3.1 For Iterations=100 99
6.3.2 For Iterations=500 101
6.3.3 For Iterations=1000 104
6.3.4 For Iterations=2000 106
6.3.5 For Iterations=4000 109
SUMMARY 113
7 THE CONCLUSIONS AND A ROAD-MAP 115
7.1 The Conclusions 115
7.2 A Road-Map to Future Work 116
