

## List of Tables

<b>Table No.</b>		<b>Page</b>
		<b>No.</b>
<b>2.1</b>	Required function on the main sportswear.....	<b>20</b>
<b>2.2</b>	Scales for Thermal comfort and thermal sensations.....	<b>39</b>
<b>2.3</b>	Grading of Indices.....	<b>53</b>
<b>2.4</b>	Knitting geometry modeling.....	<b>63</b>
<b>3.1</b>	Characteristics of yarns used in the production of knitted fabrics.....	<b>233</b>
<b>3.2</b>	Blowroom process parameters of yarn spun.....	<b>233</b>
<b>3.3</b>	Carding process parameters of yarn spun.....	<b>233</b>
<b>3.4</b>	Comber process parameters of yarn spun.....	<b>234</b>
<b>3.5</b>	Draw Frame process parameters of yarn spun.....	<b>234</b>
<b>3.6</b>	Simplex process parameters of yarn spun.....	<b>234</b>
<b>3.7</b>	Ring Frame and Autoconer process parameters of yarn spun.....	<b>234</b>
<b>3.8</b>	Coding of Cotton knitted Samples.....	<b>235</b>
<b>3.9</b>	Coding of Viscose knitted Samples.....	<b>235</b>
<b>3.10</b>	Coding of Modal knitted Samples.....	<b>236</b>
<b>3.11</b>	Coding of Excel knitted Samples.....	<b>236</b>
<b>3.12</b>	Knitting parameter for the single jersey cotton fabric.....	<b>237</b>
<b>3.13</b>	Knitting parameter for the single jersey viscose fabric .....	<b>237</b>
<b>3.14</b>	Knitting parameter for the single jersey modal fabric.....	<b>237</b>
<b>3.15</b>	Knitting parameter for the single jersey excel fabric .....	<b>238</b>
<b>3.16</b>	Knitting parameter for the pique cotton fabric.....	<b>238</b>
<b>3.17</b>	Knitting parameter for the pique viscose fabric.....	<b>238</b>
<b>3.18</b>	Knitting parameter for the pique modal fabric .....	<b>238</b>
<b>3.19</b>	Knitting parameter for the pique excel fabric .....	<b>239</b>
<b>3.20</b>	Properties of Cotton fibre used in yarn production.....	<b>68</b>
<b>3.21</b>	Properties of Viscose fibre used in yarn production.....	<b>69</b>
<b>3.22</b>	Properties of Modal fibre used in yarn production.....	<b>69</b>
<b>3.23</b>	Properties of Excel fibre used in yarn production.....	<b>70</b>
<b>4.1</b>	Fabric properties and experimental air permeability values for single jersey cotton fabric .....	<b>242</b>

<b>4.2</b>	Fabric properties and experimental air permeability values for pique fabric knitted with cotton yarn.....	<b>242</b>
<b>4.3</b>	Fabric properties and experimental air permeability values for single jersey viscose fabric.....	<b>242</b>
<b>4.4</b>	Fabric properties and experimental air permeability values for pique fabric knitted with viscose yarn.....	<b>243</b>
<b>4.5</b>	Fabric properties and experimental air permeability values for single jersey modal fabric .....	<b>243</b>
<b>4.6</b>	Fabric properties and experimental air permeability values for pique fabric knitted with modal yarn.....	<b>243</b>
<b>4.7</b>	Fabric properties and experimental air permeability values for single jersey excel fabric.....	<b>244</b>
<b>4.8</b>	Fabric properties and experimental air permeability values for pique fabric knitted with excel yarn.....	<b>244</b>
<b>4.9</b>	The regression equation between porosity and fabric parameters...	<b>80</b>
<b>4.10</b>	Regression analysis: porosity versus tightness factor, stitch density, yarn count and fabric thickness.....	<b>245</b>
<b>4.11</b>	ANOVA Test for Fibre type and Fabric Structure.....	<b>245</b>
<b>4.12</b>	Thermal comfort properties of single jersey fabric knitted with cotton yarn.....	<b>247</b>
<b>4.13</b>	Thermal comfort properties of pique fabric knitted with cotton yarn	<b>247</b>
<b>4.14</b>	The regression equations between thermal properties and fabric parameters of the single jersey cotton fabrics.....	<b>104</b>
<b>4.15</b>	Regression analysis: thermal resistance versus porosity, fabric thickness.....	<b>247</b>
<b>4.16</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>247</b>
<b>4.17</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>248</b>
<b>4.18</b>	The regression equations between thermal properties and fabric parameters of the cotton pique fabrics.....	<b>104</b>
<b>4.19</b>	Regression analysis: thermal resistance versus porosity, fabric thickness.....	<b>248</b>

<b>4.20</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>248</b>
<b>4.21</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>248</b>
<b>4.22</b>	Thermal comfort properties of single jersey fabric knitted with viscose yarn.....	<b>249</b>
<b>4.23</b>	Thermal comfort properties of pique fabric knitted with viscose yarn	<b>249</b>
<b>4.24</b>	The regression equations between thermal properties and fabric parameters of the single jersey viscose fabrics.....	<b>107</b>
<b>4.25</b>	Regression analysis : thermal resistance versus porosity, fabric thickness	<b>249</b>
<b>4.26</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>249</b>
<b>4.27</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>250</b>
<b>4.28</b>	The regression equations between thermal properties and fabric parameters of the viscose pique fabrics.....	<b>108</b>
<b>4.29</b>	Regression analysis: thermal resistance versus porosity, fabric thickness	<b>250</b>
<b>4.30</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>250</b>
<b>4.31</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>250</b>
<b>4.32</b>	Thermal comfort properties of single jersey fabric knitted with modal yarn.....	<b>251</b>
<b>4.33</b>	Thermal comfort properties of pique fabric knitted with modal yarn	<b>251</b>
<b>4.34</b>	The regression equations between thermal properties and fabric parameters of the single jersey modal fabrics.....	<b>111</b>
<b>4.35</b>	Regression analysis: thermal resistance versus porosity, fabric thickness	<b>251</b>
<b>4.36</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>251</b>
<b>4.37</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>252</b>
<b>4.38</b>	The regression equations between thermal properties and fabric	

	parameters of the pique knitted modal fabrics.....	<b>112</b>
<b>4.39</b>	Regression analysis: thermal resistance versus porosity, fabric thickness	<b>252</b>
<b>4.40</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>252</b>
<b>4.41</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>252</b>
<b>4.42</b>	The regression equations between thermal properties and fabric parameters of the single jersey excel fabrics.....	<b>115</b>
<b>4.43</b>	Regression analysis: thermal resistance versus porosity, fabric thickness.	<b>253</b>
<b>4.44</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>253</b>
<b>4.45</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>253</b>
<b>4.46</b>	The regression equations between thermal properties and fabric parameters of the pique knitted excel fabrics.....	<b>115</b>
<b>4.47</b>	Regression analysis: thermal resistance versus porosity, fabric thickness.	<b>253</b>
<b>4.48</b>	Regression analysis: thermal conductivity versus porosity, fabric thickness.....	<b>254</b>
<b>4.49</b>	Regression analysis: air permeability versus porosity, fabric thickness, tightness factor.....	<b>254</b>
<b>4.50</b>	ANOVA Test for Fibre type and Fabric Structure.....	<b>254</b>
<b>4.51</b>	MMT results of Cotton knitted Single Jersey fabrics in value.....	<b>119</b>
<b>4.52</b>	MMT results of Cotton knitted Single Jersey fabrics in grade.....	<b>120</b>
<b>4.53</b>	Pearson correlations and p-values of tightness factor versus MMT indices of Single Jersey Cotton Knitted fabrics.....	<b>130</b>
<b>4.54</b>	MMT results of Cotton knitted Pique fabrics in value.....	<b>132</b>
<b>4.55</b>	MMT results of Cotton knitted Pique fabrics in grade.....	<b>133</b>
<b>4.56</b>	Pearson correlations and p- values of tightness factor versus MMT indices of Pique Knitted cotton fabrics.....	<b>141</b>
<b>4.57</b>	MMT results of Viscose knitted Single Jersey fabrics in value.....	<b>144</b>
<b>4.58</b>	MMT results of Viscose knitted Single Jersey fabrics in grade.....	<b>145</b>

<b>4.59</b>	Pearson correlations and p-values of tightness factor versus MMT indices of Single Jersey Viscose Knitted fabrics.....	<b>154</b>
<b>4.60</b>	MMT results of Viscose knitted Pique fabrics in value.....	<b>156</b>
<b>4.61</b>	MMT results of Viscose knitted Pique fabrics in grade.....	<b>157</b>
<b>4.62</b>	Pearson correlations and p- values of tightness factor versus MMT indices of Pique Knitted fabrics.....	<b>166</b>
<b>4.63</b>	MMT results of Modal knitted Single Jersey fabrics in value.....	<b>168</b>
<b>4.64</b>	MMT results of Modal knitted Single Jersey fabrics in grade.....	<b>169</b>
<b>4.65</b>	Pearson correlations and p-values of tightness factor versus MMT indices of Single Jersey Modal Knitted fabrics.....	<b>177</b>
<b>4.66</b>	MMT results of Modal knitted pique fabrics in value.....	<b>179</b>
<b>4.67</b>	MMT results of Modal knitted pique fabrics in grade.....	<b>180</b>
<b>4.68</b>	Pearson correlations and p- values of tightness factor versus MMT indices of Pique Knitted fabrics.....	<b>189</b>
<b>4.69</b>	MMT results of Excel knitted Single Jersey fabrics in value.....	<b>191</b>
<b>4.70</b>	MMT results of Excel knitted Single Jersey fabrics in grade.....	<b>192</b>
<b>4.71</b>	Pearson correlations and p-values of tightness factor versus MMT indices of Single Jersey Excel Knitted fabrics.....	<b>201</b>
<b>4.72</b>	MMT results of Excel knitted Pique fabrics in value.....	<b>203</b>
<b>4.73</b>	MMT results of Excel knitted pique fabrics in grade.....	<b>204</b>
<b>4.74</b>	Pearson correlations and p- values of tightness factor versus MMT indices of Pique Knitted excel fabrics.....	<b>213</b>
<b>4.75</b>	ANOVA Test for Fibre type and Fabric Structure.....	<b>261</b>
<b>4.76</b>	Fabric classification results of Viscose knitted fabrics.....	<b>262</b>
<b>4.77</b>	Fabric classification results of Cotton knitted fabrics.....	<b>262</b>
<b>4.78</b>	Fabric classification results of Modal knitted fabrics.....	<b>263</b>
<b>4.79</b>	Fabric classification results of Excel knitted fabrics.....	<b>263</b>
