

LIST OF FIGURES

FIGURE	TITLE	PAGE NO.
1.	Schematic representation of the hypothesized relationship amongst the selected variables	91
2.	Description of consumer segments based on selected attributes	92
3.	Outline map of Mumbai showing the locale of the present study.	106
4.	Diagrammatic representation of sampling procedure	107
5.	Distribution of consumers of SPFs by age	131
6.	Distribution of consumers of SPFs by education	132
7.	Distribution of consumers of SPFs by occupational status	132
8.	Distribution of the consumers of SPFs by family type	133
9.	Distribution of the consumers by family size	134
10.	Distribution of the consumers of SPFs by socio-economic status	136
11.	Scree Plot	148
12.	Distribution of consumers of SPFs by lifestyle orientations	157
13.	Distribution of consumers of SPFs by personality traits	160
14.	Cluster distribution of the consumers of ready-to-eat soups	177
15.	Distribution of Consumers by Convenience FSO	185
16.	Distribution of Consumers by Experimental-loyal FSO	185
17.	Distribution of Consumers by Explorative FSO	185
18.	Distribution of Consumers by Impulsive FSO	185
19.	Distribution of Consumers by Price-Conscious FSO	186
20.	Distribution of Consumers by Quality-Conscious FSO	186
21.	Distribution of Consumers by Value-for-money FSO	186
22.	Distribution of Consumers by Green-orientation Lifestyle	187
23.	Distribution of Consumers by Innovative-orientation Lifestyle	187
24.	Distribution of Consumers by Nutrition-orientation Lifestyle	187
25.	Distribution of Consumers by Social-role orientation Lifestyle	188
26.	Distribution of Consumers by Socially-outgoing Lifestyle	188
27.	Distribution of Consumers by Trend-conscious Lifestyle	188

FIGURE	TITLE	PAGE NO.
28.	Distribution of Consumers by Openness-to-change Personality Trait	189
29.	Distribution of Consumers by Reasoning Personality Trait	189
30.	Distribution of Consumers by Rule-consciousness Personality Trait	189
31.	Distribution of Consumers by Social-boldness Personality Trait	190
32.	Distribution of Consumers by Vigilance Personality Trait	190
33.	Distribution of Consumers by market belief that When in doubt, it is safe to go with once usual brands RES	191
34.	Distribution of Consumers by market belief that When one is in doubt about a brand of RES it is always safe to go with an Indian brand	191
35.	Distribution of Consumers by market belief that the best brands of RES are the ones that are purchased the most	191
36.	Distribution of Consumers by market belief that all brands of RES are basically the same	191
37.	Distribution of Consumers by market belief that large size packets of RES are cheaper than small-size packets	192
38.	Distribution of Consumers by market belief that RES being a new concept are more expensive	192
39.	Distribution of Consumers by market belief that the price of RES will settle down as time goes by	192
40.	Distribution of Consumers by market belief that RES having synthetic ingredients are lower in quality, than those having natural ingredients	192
41.	Distribution of Consumers by market belief that discount coupons received during the previous purchase represent real savings	193

FIGURE	TITLE	PAGE NO.
42.	Distribution of Consumers by market belief that within a given store, higher prices of RES generally indicate higher quality	193
43.	Distribution of Consumers by market belief that when you buy heavily advertised RES, you are paying for the label not for the higher quality	193
44.	Distribution of Consumers by market belief that the department stores that are constantly having sales, don't really save you money	193
45.	Distribution of Consumers by market belief that a store character is reflected in its window display	194
46.	Distribution of Consumers by market belief that locally owned grocery stores provide more personalized services	194
47.	Distribution of Consumers by market belief that sales people in big department stores are more knowledgeable	194
48.	Distribution of Consumers by market belief that credit and return policies are most lenient at large department stores	194
49.	Distribution of Consumers by attitude towards advantages of RES	195
50.	Distribution of Consumers by attitude towards characteristics of RES	195
51.	Distribution of Consumers by attitude towards economy aspect of RES	195
52.	Distribution of Consumers by attitude towards health and hygiene aspect of RES	196
53.	Distribution of Consumers by attitude towards consequences of use of RES	196
54.	Distribution of Consumers by overall attitude towards RES	196
55.	Distribution of Consumers by perceived financial risk	197
56.	Distribution of Consumers by perceived functional risk	197

FIGURE	TITLE	PAGE NO.
57.	Distribution of Consumers by perceived physiological risk	197
58.	Distribution of Consumers by perceived psychological risk	198
59.	Distribution of Consumers by perceived social risk	198
60.	Distribution of Consumers by perceived overall risk	198
61.	Diagrammatic representation of Up-ward full strategy	271
