

ACKNOWLEDGEMENTS

I wish to express my appreciation, gratitude and indebtedness to my guide, Dr.(Mrs.) S.J. Mehta, for her efficient and resourceful guidance throughout my study. But for her unflagging efforts and consistent co-operation, this research effort would never have been completed.

My thanks are due to Prof. D.B. Desai, Dean, Faculty of Education and Psychology and Head, CASE, and other faculty members from whom I received a good measure of encouragement.

With gratitude, I acknowledge the cordial assistance extended by Dr.(Miss) M. Chakraborty, Director, Department of Adult and Continuing Education, M.S. University, Baroda, in permitting me to conduct the final experiment in her department.

My lasting gratitude to the many friends at CASE, specifically Mr. Arun Kumar, Miss P. Vardhinee, Mr. Shyam Menon and Mr. Derek Sequera for their constructive criticism, wise counselling and valuable assistance.

May, 1981.

Mrs. D.L. CHARLES
