

LIST OF TABLES

Table No.	Title	Page No.
1.	Students categorized according to their scores in the intelligence test	108
2.	Distribution of sample into two groups according to their intelligence	109
3.	Distribution of students into high and low categories according to intelligence	110
4.	Distribution of sample according to age.	114
5.	Mean intelligence test scores of the two groups	115
6.	Distribution of sample according to the variables	117
7.	Pre test, IRT and DRT scores of the two groups	119
8.	Percentage distribution of students according to scores obtained in IRT and DRT	122
9.	Comparison of the mean scores of the two groups on IRT	122
10.	Mean IRT and DRT scores of the two groups	124
11.	First garment and second garment scores of the two groups	127

Table No.	Title	Page No.
12.	Percentage distribution of the students according to scores obtained in the first and the second garment	129
13.	Difference in the means of the two groups in the two garments	130
14.	Mean IRT scores of the two groups according to intelligence	132
15.	Mean IRT scores of the two groups according to English	133
16.	Mean IRT scores of the two groups according to Clothing and Textiles	133
17.	Difference in the means of the different groups in the pre test, IRT and DRT	134
18.	Mean DRT scores of the two groups according to intelligence	138
19.	Mean DRT scores of the two groups according to English	139
20.	Mean DRT scores of the two groups according to Clothing and Textiles	140
21.	Differences in the mean achievement of the two groups in the IRT and DRT	141
22.	Mean of the first garment scores according to high and low categories in intelligence	143

Table No.	Title	Page No.
23.	Mean of the first garment scores according to high and low categories in English	144
24.	Mean of the first garment scores according to high and low categories in Clothing and Textiles	145
25.	Differences in the means of the two groups in the two garments	148
26.	Mean of second garment scores according to high and low categories in intelligence	149
27.	Mean of second garment scores according to high and low categories in English	150
28.	Mean of second garment scores according to high and low categories in Clothing and Textiles	151
29.	Correlation between the different variables for the whole class	153
30.	Correlation between the different variables for group A	154
31.	Correlation between the different variables for group B	154
32.	Expert-evaluated and self-evaluated scores of the two groups	155

Table No.	Title	Page No.
33.	Differences in the expert-evaluated and self-evaluated scores	156
34.	Percent distribution of students in self-evaluation when compared to expert- evaluation	157
35.	Distribution of respondents into different categories according to their reactions	159
