

Acknowledgements

First and foremost, I would like to express my deep and sincere gratitude and appreciation to my guide Dr. P. Padmaja Sudhakar, who introduced me to this topic and whose original and never ending flow of ideas and encouragement are in a large part responsible for the work described in this thesis. Inculcation of having a systematic approach in any scientific endeavor will help me in the long run. I shall always cherish the memories of my association with her.

I am sincerely thankful to Dean, Faculty Authority of Faculty of Technology & Engineering and to Prof. C.N. Murthy, Head, Applied Chemistry Department, for providing me the laboratory facilities during their tenures. I am thankful to Prof. Uma Chudasama, Dr. Jayrang S. Dave, Dr. D.P. Bharambhe, Dr. P.T. Deota, Dr. A.K. Prajapati and all other teaching and non-teaching staff members of the department for their kind help and suggestions during my Ph.D. work.

And I am thankful to Prof. Surekha Devi (Ex Head), Prof. B.V. Kamath, Head, Chemistry Department, Science Faculty for providing lab facilities and all other Teaching and Non-Teaching staff members of Chemistry department for their kind help and suggestions during my Ph.D work.

The financial support received from the M.S. University of Baroda, Vadodara is acknowledged greatly.

I am grateful to Dr. K.V.R. Murthy and Prof. L. Rey, for Luminescence studies of pesticides and also thankful to Dr. Maitreyee Nandi for Low dose irradiation studies and Dr. S.P. Ramani for High dose Irradiation studies of Pesticides.

I am thankful to Dr. Vandana Rao, Metallurgy Department, M. S. University of Baroda for SEM study, Dr. Sundara Murthy for XRD analysis; Dr. R.A. Sengupta, Head, Chemical Engineering Department for using the Jaw-Crusher. I am also thankful to Mr. K.V. Rao, B.A.C.L., Baska, Vadodara, who took an active and keen interest in my work and helped me during my research work.

I express my heartfelt thanks to our group Jignesh B. Patel, Meeta, Sansruti, Shaligram Rane, Shilpi Kushawa, Ajeetha V., Harneesh and Jitendra and all my close colleagues of Applied Chemistry and Chemistry Department for their co-operation, encouragement and valuable tips throughout the entire research work. And my special thanks to Mayur Patel, Vinod and Parimal for their help at the final stages of my thesis work.

I would like to express my deep sense of gratitude to my parents and my husband for their patience and continued encouragement and I am thankful to Dr. K.V.R. Murthy, Reader, Applied Physics Department, without whose cooperation and moral support, it would not have been possible to carry out this work. I am highly grateful to my child Rishita for all her sacrifices and made possible to complete this work. I would like to say my heartfelt thanks to Avani and her family for their valuable suggestions and moral support during my stay in Baroda. And I express my heartfelt thanks to my friend Kaminee Ranka for her co-operation, moral support, encouragement and valuable suggestions throughout the entire journey of my research work. Lastly I would like to acknowledge to my hostel friends, Sharada, Anjum Q, Dolly Singh, Mahima and Sushila mani and all my well wishers.

Sreelatha Gaddam
