

Appendix E

Guideline for Family Tree Checklist

Dear Parents,

Attached herewith is a Family Tree Checklist for both you and your spouse. I request you to kindly check for the values you live by and correspondingly mention the sources of these values in your life (for eg. Parents, teachers, etc.). Being universal in nature, it is possible that you may possess all of these values in different capacities i.e. to a lesser or greater extent, however I am interested in knowing the values which actually defines you as a person and on which you would not like to compromise. In the last column, please specify from the given list, which values you would essentially like to pass on to your child. If you wish to add on any comments, please write your responses in the space provided at the bottom of every page.

I request you to kindly respond to the same as soon as possible. The checklist needs to be fulfilled keeping your 9-12 year old child in mind. Complete confidentiality will be ensured of your responses. If you have any queries you can call me at home on the phone number given below.

I look forward to your cooperation.

Thanking you

Divya Sharma
