

RECOMMENDATIONS

As a sequel to this study following is proposed

- 1. The data in the present study has analyzed the combined perceptions of parents on ECCE. Difference in perceptions of mothers and fathers may be analyzed separately in future studies.**
- 2. A study to analyze the competence of the kids in primary school who had earlier attended AWCs can be taken up.**
- 3. Gurgaon and similar pockets like Gurgaon are undergoing rapid socio-economic change, thus the flow of migratory population in these areas is on rise. Therefore in future a study on the conceptions of migratory population on ECCE may be taken up, as majority of them are using the ECCE services under ICDS scheme.**
- 4. Need to develop indigenous models of curriculum/ Teaching -Learning aids that may be relevant in Indian context.**
