

ACKNOWLEDGEMENTS

I have been able to see so far because I was on the shoulders of giants

I have been encouraged and helped by many people during my study and work towards the preparation of this manuscript. Without their moral support and time this would not have been possible. I would like to quote their part and express my sincere gratitude towards them.

My foremost and utmost thanks go towards my guide and mentor, **Dr. R. Balaraman**, Professor and Head, Pharmacy Department, Faculty of Technology and Engineering, The M. S. University of Baroda for his constant guidance. In spite of his busy schedule due to the additional responsibility as the Head of the department of Pharmacy, I received the generous gifts of his time and talent. His immense patience, constant motivation and timely criticism encouraged me through out the course of this study.

I express my gratefulness towards my colleagues and friends Aman, Chitraang, Chintan, Rishit, Vinod and Vaibhav for their constant support and encouragement.

I am thankful to **Dr. Ravindra Pasle** and **Dr. Oza** of Baroda Clinical Laboratory, Baroda for their help in preparation and photography of the histological slides.

My sincere thanks to **Dr. Tarkesh Mehta** for helping me with the analysis of serum samples in his laboratory with the auto analyzer and helping me with the interpretation of histological slides.

This work would not have been possible without the patience and love shown by my family especially my husband **Dr. Supreet** who sacrificed his time of leisure and rest to help me in preparation of the manuscript and my loving son **Siddharth**

for his immense patience for the last three years, who longed for my time, love and care, but did not come in the way of my long hours of work.

My sincere gratitude towards my **Parents** and **Parents-in laws** for their moral support and blessings.

Last but not least I extend my prayers of gratitude to The Almighty for giving me such wonderful teachers, parents, relatives and friends who directly or indirectly contributed immensely towards the preparation of this manuscript.
