

# INDEX

	Title	Page No.
<b>Chapter 1:</b>	<b>INTRODUCTION</b>	<b>1 – 67</b>
1.1	Introduction	1
1.2	Basic Concepts	2
1.3	Research Theme	3
1.4	Objectives of the Study	3
1.5	Methodology	4
	1.5.1 The Process of Research	4
	1.5.2 Selection of the Study Area	5
	1.5.3 Sample Design	5
	1.5.4 Time Frame	7
	1.5.5 Selection of Variables	7
	1.5.6 Statistical Application	9
	1.5.7 Cartographic Application	10
	1.5.8 Devices & Apparatuses Used	10
	1.5.9 Approaches	10
	1.5.10 Hypotheses	12
	1.5.11 Scheme of the Study	13
1.6	Review of Literature – Ideological Means and Deviations	15
	1.6.1 Introduction	15
	1.6.2 The Origin & Evolution of Tribes and Their Settlement	16
	1.6.3 Interrelationship between Tribes and Environment	18
	1.6.4 The Problems and their Cases	22
	1.6.5 Remedial Solutions or Models for the Problems	22
	1.6.6 Development of Tribal Space and Their Environment	23
	1.6.7 Development of Environment	34
	1.6.8 Human Environment: Socio–Cultural and Economic Environment	51
	1.6.9 Miscellaneous	59
<b>Chapter 2:</b>	<b>ENVIRONMENTAL CHARACTERISTICS OF THE SAMPLE AREA: AN ANALYTICAL RETROSPECTION</b>	<b>68 – 89</b>
2.1	Locational Characteristics	68
2.2	Climate Characteristics	69
2.3	Geology	72
2.4	Geomorphology	72
2.5	Physiography	73
2.6	Drainage Pattern	76
2.7	Natural Resources	79

	<b>Title</b>	<b>Page No.</b>
2.8	Exploitational Units of Space	83
2.8.1	Cultivable Space	84
2.8.2	Barren & Uncultivable Land	85
2.8.3	Forest Area	85
2.9	Population	86
2.10	Literate Population	86
2.11	Functional Population	87
<b>Chapter 3:</b>	<b>A PERSPECTIVE ON THE EVOLUTION AND LOCATION OF TRIBES IN HILLY ENVIRONMENT</b>	<b>90 – 100</b>
3.1	Evolution of Tribes	90
3.2	Location of Tribes	92
3.2.1	Self – Regulating Random Location	94
3.2.2	Induced Location – Geographical and Historical Centres	95
<b>Chapter 4:</b>	<b>EFFICACY OF GEOGRAPHICAL CATALYSTS IN THE EVOLUTION AND TRANSFORMATION OF ENVIRONMENT INHABITED BY TRIBES</b>	<b>101 – 176</b>
4.1	A General Study of Temporal Characteristic Transformation of the Environment	101
4.1.1	Objectives	102
4.1.2	The Bases of Generalisation	102
4.1.3	Explanation and Evidence	102
4.2	Temporal Efficacy of Geographical Catalysts	122
4.2.1	Efficacy on Population	125
4.2.2	Efficacy on Population Density	126
4.2.3	Efficacy on Population of Tribes	127
4.2.4	Efficacy on Tribal Population Density	129
4.2.5	Efficacy on Tribal Arable Density	130
4.2.6	Efficacy on Population of Literates	132
4.2.7	Efficacy on Ratio of Male–Female Literate Population	134
4.2.8	Efficacy on Main Worker Population	136
4.2.9	Efficacy of Ratio of Male / Female Worker Population	137
4.2.10	Efficacy of Population on Cultivators	138
4.2.11	Efficacy of Infrastructure	140
4.3	Contemporary Efficacy of Geographical Catalysts	142
4.3.1	Efficacy of Tribal Population	142
4.3.2	Efficacy of Tribal Population Density	142

	<b>Title</b>	<b>Page No.</b>
4.3.3	Efficacy of Literate Population	143
4.3.4	Efficacy of Cultivable Land Per Household	143
4.3.5	Efficacy of Diseased Population	144
4.3.6	Efficacy of Yield Per Hectare	144
4.3.7	Efficacy of Alcohol Addiction	144
4.3.8	Efficacy of Annual Crime	145
4.3.9	Efficacy of Vegetation Density	145
4.3.10	Efficacy of House Type	146
4.3.11	Efficacy of Animal Domestication per Household	146
4.3.12	Efficacy of Animal Death Rate	146
4.3.13	Efficacy of Electrification	147
4.4	Efficacy of Geographical Variation and Location in the Spatial Distribution of Phenomena	152
4.4.1	General Efficacy of Forest & Non-Forest Area	152
4.4.2	General Efficacy of Riverine & Non-Riverine Area	153
4.4.3	Contemporary Efficacy of Forest & Non-Forest Area	155
4.4.4	Contemporary Efficacy of Riverine & Non-Riverine Area	156
4.5	Efficacy of Geographical Variations and Locations	158
4.5.1	General Efficacy of Altitude	158
4.5.2	General Efficacy of Distance from Urban Centres	160
4.5.3	General Efficacy of Physiographic Characteristics	161
4.5.4	Contemporary Efficacy of Altitude	162
4.5.5	Contemporary Efficacy of Distance from Urban Centres	164
4.5.6	Contemporary Efficacy of Physiographic Characteristics	166
<b>Chapter 5:</b>	<b>INTEGRATED NATURE OF PHENOMENA AND SUSTAINABILITY OF ENVIRONMENT</b>	<b>177 – 225</b>
5.1	General Nature of Association between Different Phenomena	178
5.2	Contemporary Nature of Association between Different Phenomena	183
5.2.1	Altitude and Different Phenomena	184
5.2.2	Distance from Towns and Different Phenomena	185
5.2.3	Distance from Growth Centres and Different Phenomena	187
5.2.4	Forest Area and Different Phenomena	187
5.2.5	Cultivable Area and Different Phenomena	188
5.2.6	Tribal Land Percentage and Different Phenomena	189
5.2.7	Tribal Population and Different Phenomena	190

	<b>Title</b>	<b>Page No.</b>
	5.2.8 Tribal Literate Population and Different Phenomena	191
	5.2.9 Land Per Tribe and Different Phenomena	192
	5.2.10 Tribal Arable Density and Different Phenomena	193
	5.2.11 Soil Depht and Different Phenomena	193
	5.2.12 Miscellaneous	193
5.3	Presentation of Association between Phenomena and Nuclear Correlation Systems	194
5.4	Verification of Findings	198
5.5	Conclusions and Implications	222
<b>Chapter 6:</b>	<b>PLANNING AND DEVELOPMENT OF TRIBAL HILLY ENVIRONMENT</b>	<b>226 – 250</b>
6.1	The Concept of Planning	226
6.2	Phases of Changing Altitude Towards Planning	226
6.3	Planning of Tribal Hilly Environment	228
	6.3.1 The Basic Problem	228
	6.3.2 Strategy of Planning	228
	6.3.3 Association and Intricacy of Problems	228
6.4	Detection of Thrust Area for Planning and Development	230
6.5	Causes of the Growing Problems	236
6.6	Approaches of Planning	237
6.7	Objectives	238
6.8	Tripodal Chain Reaction Development Model	239
	6.8.1 The Bases of the Model	239
	6.8.2 The Process of Development	242
	6.8.3 Management Process of the Tripods or Cardinal Elements	243
6.9	Multitudinal Synergic Effect of Syncretic Effort	249
6.10	Conclusion	249
<b>Chapter 7:</b>	<b>CONCLUSIONS AND RECOMMENDATIONS</b>	<b>251 – 265</b>
	<i>Bibliography</i>	<b>266–283</b>
	<i>Appendix</i>
