LIST OF FIGURES

		PAGE
Figure 3.1-A	Weekwise food intake in rats fed various diets for 28 days.	73
Figure 3.1-B	Weelwise body weight gain in rats fed various diets for 28 days.	76
Figure 3.2	Blood sugar levels and hepatic glycogen contents of rat fed various diets for 28 days.	88
Figure 4.1	Schematic representation of haemotrichorial placenta of rat.	99
Figure 4.2-A	Food intake of pregnant rats fed various diets for first 10 days and latter 10 days of gestation period.	112
Figure 4.2-B	Total body weight gain of pregnant rats fed various diets for first 10 days and latter 10 days of gestation period.	114
Figure 4.3 a,b,c,	Photomicrograph of the placenta of the rats fed SB diet throughout the gestation period.	123
Figure 4.3 d,e,f,g.	Photomicrograph of the placenta of the rats fed SB diet showing SZ & LZ zones.	124
Figure 4.4 a,b,c,d.	Photomicrograph of the placenta of the rats fed M diet throughout the gestation period.	125
Figure 4.4 e,f,g,h.	Photomicrograph of the placenta of the rats fed M diet showing SZ & LZ zones.	127

PAGE

Figure 4.5 a,b,c,d. Photomicrograph of the placenta of the rats fed MSU diet during the gestation period of 20 days. 128

Figure 4.5 e,f,g. Photomicrograph of the placenta of the rats fed MSR diet showing SZ & LZ zones. 130

Figure 4.6 a,b,c,d. Photomicrograph of the placenta of the rats fed SPM diet showing GC, SZ zone & LZ zone. 131

Figure 4.7 Photographs of pups (zero day old) from the dams fed various diets. 144

Figure 4.8 a,b,c,d,e. Electrophoretic pattern of serum protein fractions in groups of weaned pups of dams fed various diets. 153

Figure 5.1 Photograph of TLC plate showing the presence of saponin in Mahuda flowers. 167

Figure 5.2 Tracing of TLC plate showing position of saponin separated from Mahuda flowers. 169

Figure 5.3 Response of alcoholic extract of Mahuda flowers in rabbit duodenum. 172

Figure 5.4 Response of water extract of Mahuda flowers in rat stomach fundus. 173

Figure 5.5 Response of alcoholic extract of Mahuda flowers in presence of Acetylcholine in rabbit duodenum. 174
