

**“THE CONSUMER STUDY OF DRIVERS FOR B2C M-COMMERCE ADOPTION  
IN SELECTED CITIES IN THE STATE OF GUJARAT”**

**LIST OF TABLES**

<b>SR. NO.</b>	<b>TABLE NUMBER</b>	<b>PARTICULARS</b>	<b>PAGE NUMBER</b>
1	4.1	Taluka Wise Distribution of Sample Size for calculating total sample size of the proposed research study	142
2	4.2	List of Selected References of Selected Criteria Used in Drafting of Structured Questionnaire	146
3	4.3	Kolmogorov-Smirnov Test of Normality	148
4	4.4	Descriptive Values for Normality Test of m-Commerce Users	149
5	4.5	Reliability of Opinion of Selected m-Commerce Users on Selected Criteria for the Study	150
6	5.1	Demographic Details of Selected m-Commerce Users (Number and Percentage)	162
7	5.2	Friendliest Operating System in Mobile Phones (Number and Percentage)	167
8	5.3	Selected Users’ Response Regarding Frequency of Shopping by Using Mobile Phones (Number and Percentage)	168
9	5.4	Selected Users’ Response Regarding Preferred Place of Shopping Using Mobile Phones (Number and Percentage)	169
10	5.5	Selected Users’ Response Regarding Preferred Time of Shopping Using Mobile Phones (Number and Percentage)	170
11	5.6	Selected Users’ Response Regarding Average time spent on Shopping Using Mobile Phones (Number and Percentage)	171
12	5.7	Selected Users’ Response Regarding Source of Information for Shopping Using Mobile Phones (Number and Percentage)	172
13	5.8	Selected Users’ Response Regarding the Reasons for Downloading and Using m-Commerce Applications (Number and Percentage)	173
14	5.9	Selected Users’ Response Regarding Number of Applications Used for m-Commerce transaction (Number and Percentage)	174
15	5.10	Selected Users’ Response Regarding Product Brought Through Mobile	379
16	5.11	Response Regarding the Mobile Applications used while involving in m-Commerce Transactions (A=Agree, D=Disagree and U= Undecided)	381
17	5.12	Selected Users’ Observation Regarding Perceived Cost with Regard to M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	386
18	5.13	Selected Users’ Observation Regarding Personalisation with Regard to m-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	387
19	5.14	Selected Users’ Observation Regarding Privacy with Regard to m-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	388
20	5.15	Selected Users’ Observation Regarding Perceived Trust with Regard To M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	389
21	5.16	Selected Users’ Observation Regarding Perceived Risk Involved With M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	390

<b>SR. NO.</b>	<b>TABLE NUMBER</b>	<b>PARTICULARS</b>	<b>PAGE NUMBER</b>
22	5.17	Selected Users' Observation Regarding Perceived Ease of Use Involved With M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	391
23	5.18	Selected Users' Observation Regarding Perceived Usefulness Involved With M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	392
24	5.19	Selected Users' Observation Regarding Social Norms Involved With M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	393
25	5.20	Selected Users' Observation Regarding Perceived Behavioural Control Involving with m-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	394
36	5.21	Selected Users' Observation Regarding Attitude Involved with M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	395
27	5.22	Selected Users' Observation Regarding Adoption Intention Involved with M-Commerce Transactions (Number and Percentage) (A=Agree, D=Disagree and U= Undecided)	396
	5.23	Perception regarding users' overall satisfaction while involving with m-commerce transaction	192
28	6.1	Findings of Correlation Between Drivers of m-Commerce Viz Perceived Cost, Personalisation, Privacy, Perceived Trust, Perceived Risk, Perceived Ease of Use, Perceived Usefulness, Social Norms and Perceived Behavioural Control with Attitude Towards m-Commerce Applications	204
28	6.2	Findings of Correlation Between Drivers Viz., Perceived Cost, Personalisation, Privacy, Perceived Trust, Perceived Risk, Perceived Ease of Use, Perceived Usefulness, Social Norms, Perceived Behavioural Control and Attitude with Adoption Intention Towards m-Commerce	205
30	6.3	Selected m-Commerce Users' Opinion on Perceived Cost of Smartphone and m-Commerce Transaction Vis-à-Vis Selected Demographic Variable Viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	207
31	6.4	Selected M-Commerce Users' Opinion on Personalization of m-Commerce Transaction Vis-à-Vis Selected Demographic Variables of m-Commerce users Viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	208
32	6.5	Selected m-Commerce Users' Opinion on Privacy of m-Commerce Transaction Vis-à-Vis Selected Demographic Variable Viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income:	208
33	6.6	Selected m-Commerce Users' Opinion on Perceived Trust involved with m-Commerce Transaction Vis-à-Vis Selected Demographic Variable Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	209

<b>SR. NO.</b>	<b>TABLE NUMBER</b>	<b>PARTICULARS</b>	<b>PAGE NUMBER</b>
34	6.7	Selected M-Commerce Users' Opinion on Perceived Risk of m-Commerce Transaction Vis-à-Vis Selected Demographic Variables of m-Commerce users Viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	210
35	6.8	Selected m-Commerce Users' Opinion on Perceived Ease of Use of Smartphone in M-Commerce Transaction Vis-à-Vis Selected Demographic Variables of m-Commerce users Viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	211
36	6.9	Selected m-Commerce Users' Opinion on "Perceived Usefulness" of m-Commerce Transaction Vis-à-Vis Selected Demographic Variable viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	212
37	6.10	Selected m-Commerce Users' Opinion on Social Norms involved with m-Commerce Transaction Vis-à-Vis Selected Demographic Variable viz., Age; Gender; Marital Status; Type of Family; Occupation and Annual Income	213
38	6.11	Selected m-Commerce Users' Opinion on "Perceived Behavioural Control" involved with m-Commerce Transaction Vis-à-Vis Selected Demographic Variable Viz., Age; Gender, Income, Occupation, Type of Family and Marital Status	214
39	6.12	Selected m-Commerce Users' Opinion on Attitude towards m-Commerce Transaction Vis-à-Vis Selected Demographic Variable Viz., Age; Gender; Marital Status; type of family; occupation and annual income:	215
40	6.13	Selected Users' Opinion on Adoption Intention of M-Commerce Transaction Vis-à-Vis Selected Demographic Variable Viz., Age; Gender; Marital Status; type of family; occupation and annual income	216
41	6.14	Results of Independent Samples Kruskal-Wallis Test	223
42	6.15	City-Wise Differences in the Perception of Selected Users towards Perceived Cost involved in Adopting m-Commerce Applications	224
43	6.16	City-Wise Differences in the Perception of Selected Users towards the Personalisation Aspect involved Use of m-Commerce Applications	225
44	6.17	City-Wise Differences in the Perception of Selected Users towards Privacy Aspect Involved in Use of m-Commerce Applications	226
45	6.18	City-Wise Differences in the Perception of Selected Users Regarding the Aspect of Perceived Trust in Use of m-Commerce Applications	227
46	6.19	City-Wise Differences in the Perception of Selected Users towards Perceived Ease of Use in the Use of m-Commerce Applications	228

<b>SR. NO.</b>	<b>TABLE NUMBER</b>	<b>PARTICULARS</b>	<b>PAGE NUMBER</b>
47	6.20	City-Wise Differences in the Perception of Selected Users towards Perceived Usefulness in the Use of m-Commerce Applications	229
48	6.21	City-Wise Differences in the Perception of Selected Users towards the Social Norms in the Use of m-Commerce Applications	230
49	6.22	City-Wise Differences in the Perception of Selected Users towards Perceived Behavioural Control in the Use of m-Commerce Applications	231
50	6.23	City-Wise Differences in the Opinion of m-Commerce Users towards Attitude for m-Commerce Applications	231
51	6.24	City-Wise Differences in the Adoption Intention of M-Commerce Applications	232
52	6.25	Details of code for AMOS	397
53	6.26	Factor Loading, Convergent Validity, Composite Reliability, Discriminant, Construct Validity and Cronbach Alpha	235
54	6.27	Findings of AVE Values and Fornell–Larcker Test of Discriminant Validity	237
55	6.28	Goodness of fit Index	238
56	6.29	Findings of Regression and Hypothesis testing	240
57	7.1	A Brief Factual Profile of the Research Study	252
58	7.2	Kolmogorov-Smirnov Test of Normality	254
59	7.3	Descriptive Values for Normality Test of m-Commerce Users	255
60	7.4	Reliability of Opinion of Selected m-Commerce Users on Selected Criteria for the Study	257
61	7.5	Demographic Details of Selected m-Commerce Users (Number and Percentage)	258
62	7.6	Factor Loading, Convergent Validity, Composite Reliability, Discriminant, Construct Validity and Cronbach Alpha	272
63	7.7	Findings of AVE Values and Fornell–Larcker Test of Discriminant Validity	274
64	7.8	Goodness of Fit Index	275
65	7.9	Findings of Regression and Hypothesis testing	277
66	7.10	Table Providing Details of Hypotheses, Findings and Implications of the Research Study	278
