## A WORD OF GRATITUDE

---

This study was originally initiated under the guidance of Dr. D.K. Shukla. I am much grateful to him for having provided the basic grounding of the study. The major part of the study has been carried out under the keen guidance of Dr. V.N. Kothari to whom I was transferred due to the sad demise of Dr. D.K. Shukla. I am deeply grateful to Dr. V.N.Kothari for his continuous guidance, keen interest and kind encouragement throughout the study. I am thankful to Dr. B.V. Mehta, Head, Department of Economics, South Gujarat University, Surat for his valuable suggestions and great encouragement during the course of the study. My thanks are due to Principal A.R. Desai, Sir K. P. College of Commerce, Surat for providing me the library facilities of his College. My thanks are also due to Prof. R.R. Wagnare of McMaster University, Canada for his valuable help in processing the data. Finally, I extend my thanks to the U.G.C. authorities for giving me financial help for carrying out the study.

Above all, I am grateful to my wife who cheerfully shared my hardships during the course of the study.
