SCORING KEY

All the statements except statement number 12 are positive. For positive statements, the weightage is as follows: SA = 5, A = 4, U = 3, D = 2, and SD = 1. For the negative statement, the scoring is reversed. The scores on item numbers 11 and 12 are added to give a composite score, since they denote two aspects of the same skill. The score on each statement is a measure of the student's liking for his teacher for that particular skill. Thus, this scale provides 15 scores on 15 variables.
