

LIST OF MAPS & FIGURES

No.	Page:No
1.1 The conceptual frame work of study	3
3.1 Spread of Leprosy in the world from 327 BC to 16 century A.D.	25
5.1 World distribution of Leprosy, based on WHO Map (Bachelli and Martinez Dominguez 1966).	69
5.2 Number of registered cases in the world,1985.	72
5.3 Distribution of Leprosy in the world 1987	74
5.4 Distribution of Leprosy in the world 1990	76
5.5 Distribution of Leprosy in India-1971	81
5.6 Distribution of Leprosy in India-1987	84
5.7 Distribution of Leprosy 1991	86
5.8 Distribution of Leprosy in Gujarat state 1984-85	93
5.9 Distribution of Leprosy in Gujarat state 1991.	94
6.1 Location of the study area.	100
7.1 Distribution of active Leprosy cases from 1st April 1992 to June 1992.	107
7.2 Distribution of Active Leprosy cases from 1st April 1992 Sept. 1992.	108
7.3 Distribution of Active Leprosy cases from 1st April 1992 to Dec. 1992.	109
7.4 Distribution of Active Leprosy cases from 1st April	110

1992 to March. 1993.

7.5	Location of sample villages & towns in study area.	119
8.1	Population surveyed and detection rate of Leprosy	131
8.2	Child population surveyed and detection rate of Leprosy	131
8.3	Prevalence rate in Vadodara district from 1982-83 to 1992-93.	134
8.4	Incidence rate in Vadodara district from 1982-83 to 1992-93	134
8.5	Old & new MB detection rate in Vadodara district from 1982-83 to 1992-93.	134
8.6	Prevalence rate in the combined administrative units of Vadodara district 1985-86 to 1988-1989.	136
8.7	Incidence rate in the combined administrative units of Vadodara district 1985-86 to 1988-89.	136
8.8	Total MB case rate in the combined administrative units of Vadodara district 1985-86 to 1988-89.	137
8.9	New MB detection rate in the combined administrative units of Vadodara district to 1985-86 to 1988-89.	137
8.10	Prevalence rate in the talukas of Vadodara district from 1989-90 to 1992-93.	139
8.11	Incidence rate in the talukas of Vadodara district	139

from 1989-90 to 1992 -93.	
8.12 MB case rate in the talukas of Vadodara district	141
from 1989-90 to 1992 -93.	
8.13 MB detection rate in the talukas of Vadodara district	141
from 1989-90 to 1992 -93.	
8.14 Distribution of Active Leprosy Cases in Vadodara city	144
8.15 Age - sex composition by type of cases in Vadodara	149
District	
8.16 Sex-Wise Break-up of cases by age and type of case in	149
Vadodara District.	
10.1 Villagewise distribution map of Active Leprosy cases	192
from 1st April 1992 to 31st March 1993	
10.2 Land use map of Vadodara district.	193
10.3 Ground elevation map of Vadodara district.	195
10.4 Population Density map of Vadodara district.	196
10.5 Annual average of maximum & minimum temperatue along	204
with rainfall during 1985-1992 in Vadodara district.	
10.6 Annual average rainfall during 1985-1992 in Vadodara	204
District	
10.7 Annual average relative humidity with maximum &	204
minimum temperature during 1985-1992 in	
Vadodara district.	

10.8 Availability of water holding capacity (AWHC) of the soil in Vadodara district.	207
10.9 Sub-Surface permeability (S.S.P) of the soil in Vadodara district	210
10.10 Relationship between group of soils with varying water holding capacity and distribution of Leprosy cases.	213
10.11a Total number of Leprosy cases at the end of each quarter of the year 1992-93 in the entire district.	213
10.11b Total number of Leprosy cases at the end of each quarter of the year 1992-93 in the areas beside river or water bodies	213
10.12 High risk areas for leprosy in Vadodara district	216
10.13 Talukawise prevalence rate in the entire district and in area beside rivers.	228
10.14 Talukawise Incidence rate in the entire district and in area beside rivers	228
10.15 Talukawise MB case rate in the entire district and in area beside rivers	229
10.16 Talukawise MB case ^{te} detection rate in the entire district and in area beside rivers.	229
10.17 Classification of leprosy affected villages & towns	232

with Leprosy cases with in various groups of prevalence rate	
10.18 Classification of total & Leprosy affected villages & towns with in various groups of population density.	241
11.1 Classification of Leprosy cases according to various Castes	250
11.2 Classification of Castes among various types of Leprosy cases.	252
11.3 Relationship between family monthly income and Leprosy cases	257
12.1 Relationship between Number of Leprosy patients and year of suffering.	276
12.2 Attitude of a sufferers towards family, colleagues and community and vice versa.	278
12.3 Relationship between KAP score & distance from district head quater among sufferers & Non sufferers	329
12.4 Spatial distribution of Treatment facilities of Leprosy with in the district.	336
14.1 The process of diffusion of the disease	355
14.2 The process of diffusion of the disease within & outside the district.	357
