

## ACKNOWLEDGEMENTS

The thesis is the expression of constant interaction between my guide Prof.Piyush Parikh and the author. The fundamental concepts and theoretical developments are due to my guide under whom the rock material research programme in the department is in progress. The author shall ever be grateful to him for his invaluable direction, indefatigable zeal and meticulous attention to all the facets of research work.

The author owes a deep sense of gratitude to Prof.V.S.Thattey and Prof.A.V.Shroff of Applied Mechanics Department for the fruitful discussions and valuable suggestions for the present research.

The author is indebted to Prof.S.K.Damle, Applied Mechanics Department for his keen interest in the work.

The author wishes to express his sincere thanks for constant encouragement and help to his colleagues notably Prof.J.K.Vyas, Prof.R.M.Bhagia, Dr.S.C.Patodi, Mr.A.K.Shah and Mr.A.S.Chirmade.

Special acknowledgements are due to Dr.V.D.Pathak and Dr.RamMohan of Applied Mathematics Department for their valuable consultations.

The author benefited from stimulating discussions from his colleague Mr.M.C.Gandhi concurrently working for doctoral programme. Thanks are also due to my students Mr.S.R.Parikh and Mr.N.K.Ingreji for their help in the experimental work.

The author is obliged to Mr.C.D.Thatte, Director Gujarat Engineering Research Institute and Mr.V.N.Sharma of Central Soil and Material Research Station, New Delhi for their co-operation and help. Special thanks are due to Mrs.Y.A.Mehta of Technology Library for all the help during library work.

The author wishes to record the appreciations for the laboratory staff namely Mr.P.C.Gandhi, Mr.V.N.Kadam,

Mr.R.J.Chauhan, Mr. H.Patel and Mr. D.V.Shah for their co-operation and help during the present investigation.

The author wishes to acknowledge the Dean Faculty of Technology and Engineering for providing the research facilities and the grants for the present research work through agencies like U.G.C. and P.G. Research Council of M.S.University of Baroda.

The author is thankful to Mr. R.A.Bhosle for his meticulous typing work and Mr.Subnis for an accurate drafting work. The acknowledgements are also due to Mr.D.G.Somani for his selfless contribution in the documentation work of the thesis. The author is personally obliged to Mr.Manubhai for the financial assistance for the printing of thesis.

The accomplishment of the present research work is due to inexpressible invaluable contribution of Mrs. Ramaben Parikh and my wife Alka.

  
(K.R.BIYANI)
