## **List of Illustrations**

## List of Illustrations

I have tried to make the captions in this list as complete as possible. Wherever dates of art works are uncertain, I have used ca. (circa) so as to allow a ten-year span. Also in the case of art works with uncertain information regarding size and medium, I have given approximate and available details.

As acknowledged before, I thank once again the museums, galleries, institutions and private collectors from whose collections I have selected the art works in this research.

I thank the artists who have shared the photographs of their works with me in order to help my project of developing an archive.

In addition to the reference books / articles listed below, the numerous exhibition catalogues of Hyderabad Art Society and the erstwhile Andhra Pradesh Lalit Kala Academy have been utilised for this research.
