

A C K N O W L E D G E M E N T

During my stay in West Germany for about two to three years i.e. from 1963 to 1965, I had a unique opportunity to come in close contact with Prof. -Dr. Georg Budd~~ass~~uss, Director, Department of Indology, University of Mainz, who initiated me in tackling this investigational work " Functions of Auxiliary Verbs in Marathi." I am, therefore, much thankful and grateful to him for his valuable suggestions and encouragement.

I am specially indebted to my Guide Dr. S.M. Divekar, for taking active interest in the development and completion of this work. But for his perpetual care and guidance, this work would not have seen the light of the day. I must also express my feeling of gratitude to Dr. R.N. Vale, Poona, whose valuable work and labour in this field inspired me to proceed with this problem. In the course of the treatment of this subject, I have considerably drawn from the works of many authors who have made worthwhile contribution to the study of this subject and forgetting whom would be culpable ingratitude.

Finally, I record my feelings of sincerity and affection for the willing help I have received from my Gurus — Prof. D.G. Apte and Prof. M.S. Patel, who have been, indeed, a source of knowledge and inspiration throughout my post-graduate studies.
