

## LIST OF FIGURES

FIGURE NO.		PAGE NO.
1	The sugar sequences and the glycopeptide linkages of glycoproteins	8
2	The structures of Asparagine-linked carbohydrates	12
3	Histogram showing the BS levels in normal subjects and in patients of Group I, II, III, IV and V.	57
4	Histogram showing the PBH levels in normal subjects and in patients of Group I, II, III, IV and V.	58
5	Histogram showing the PBSA levels in normal subjects and in patients of Group I, II, III, IV and V.	59
6	Histogram showing the PBF levels in normal subjects and in patients of Group I, II, III, IV and V.	60
7	Histogram showing the PBHA levels in normal subjects and in patients of Group I, II, III, IV and V.	61
8	Biosynthetic scheme for the monosaccharide sugars from D-glucose	64
