	<u>page</u>
<u>ACKNOWLEDGEMENTS</u>	i-iii
<u>LIST OF TABLES</u>	vi-xi
<u>GLOSSARY OF TECHNICAL TERMS</u>	xi
 <u>CHAPTER I : INTRODUCTION</u>	 <u>1-11</u>
1. Importance of Electricity Industry	1
Share of Electricity Industry in	
Plan Investment.	3
Special Advantages of Electricity as	
a source of Energy.	5
2. Characteristics of Electricity Industry	6
Public Utility	6
Peak-Loading	7
Types of Generation	7
Generation, Transmission and Distribution	8
3. Electricity Industry in India: A Preserve	
of Public Sector	9
3. Problems Studied	9
Characteristics of Growth of Output	9
Partial Productivity Analysis	10
Measurement of the Contribution of	
Technical Progress	10
Pricing of Electricity	11
 <u>CHAPTER II : ANALYSIS OF THE GROWTH OF OUTPUT</u>	 <u>12-85</u>
1. Progress of Electricity Utility in India	12
Sources of Data	12

Installed Capacity	14
Power Generated	14
Electricity Sold	14
Connected Load	15
Transmission and Distribution Lines	15
Towns and Villages Electrified	16
Sales Per Consumer and Per KW connected	23
Quinquennial Changes	24
2. Vacuum Effect	35
Accelerating Factors	37
Retardatory Factors	38
High Rate of Growth	41
Acceleration/Retardation in the Rate of Growth	49
Timing of Acceleration/Retardation	64
3. Gross Value Added	66
Double Deflation Method	73
 <u>CHAPTER III : PRODUCTIVITY OF LABOUR AND FUEL</u>	 <u>86-121</u>
1. Labour Productivity	86
Concept of Labour Productivity	86
Estimates of Labour Input	87
Analysis of Labour Productivity	101
2. Productivity of Fuel Input	107
Types of Fuel Input	107
Equivalent of Heat Input	110
Factors Behind Fuel Productivity Improvement	117
 <u>CHAPTER IV : CAPITAL PRODUCTIVITY</u>	 <u>122-159</u>
1. Problems of Concept and Measurement	122
Concept of Capital	122

Measurement of Capital	124
Alternative Methods of Measurement	125
Capital at Purchase Prices	128
2. Capital in Electricity	130
Age Profile of Fixed Assets	130
Age Profile at Current Prices	137
Inventories	141
Composition of Capital	143
Capital:Output Ratio	144
Rate of Growth of Capital Productivity	150
 <u>CHAPTER V : TECHNICAL PROGRESS IN ELECTRICITY IN</u>	
<u>INDIA</u>	<u>160-174</u>
1. Concept of Technical Progress	160
2. Estimates of Technical Progress	165
 <u>CHAPTER VI : PRICING OF ELECTRICITY</u>	<u>175-226</u>
1. Principles of Electricity Tariff Fixing	175
Need for a separate analysis	175
Types of Tariffs	178
Types of Costs	195
Objectives	202
Pricing Principles	203
2. Electricity Pricing in India	206
Objectives	206
Price Discrimination in Electricity in	
India	211
Operating Expenses of Electricity Utility	212
Allocation of Costs to Different Consumers	213
Relative Costs and Relative Prices	221
Profitability and Adequacy of Tariffs	224
 <u>CONCLUDING OBSERVATIONS</u>	<u>227-230</u>
 <u>BIBLIOGRAPHY</u>	<u>231-238</u>
