

## ACKNOWLEDGEMENTS

The author expresses his deep sense of gratitude to Prof. S.J.Desai for his guidance and encouragements throughout the preparation of the thesis. Without his help and assistance at the various stages of the preparation of the thesis, the author would not have successfully completed the thesis.

He also owes much indebtedness to Dr.M.P. Patel, Reader in Geology, M.S.University of Baroda, Vadodara for his sustained help and meticulous scrutiny of the entire thesis. But for his inquisitive and keen sense of inspiration, the thesis would not have attained the present shape.

The author is also equally thankful to Prof. N.M. Vashi, Head Dept of Geology and Prof. S.S.Merh, Sr.Scientist, INSA for extending the adequate facilities for working in the department. He further takes the opportunity to thank Dr.K.L.N. Rao and Dr. A.K. Datta for granting him permission to carry out the Ph.D work. Help & inspiration rendered by Dr.S.Srinivasan and Dr. M.G. Hardas and other colleagues of O.N.G.C. as well as Shri A.R. Trivedi of G.W.R.D.C., Himatnagar are gratefully acknowledged.

The author is equally thankful to the staff members of the Geology Dept. for their direct or indirect help. The help of Shri M.M. Dalwani, of O.N.G.C. and Shri N.Nandakumar for their sincere and excellent typing in computer at Friendlyware, Baroda, are duly acknowledged.
