

ACKNOWLEDGEMENTS

The present work was carried out under the direction of Dr. J. C. George, Professor and Head, Department of Zoology and I am deeply indebted to him for encouragement and guidance throughout the course of this work.

The fishes used in this study have been made available to me through the kind cooperation from the Superintendant of Fisheries, Baroda, and the Director of Fisheries, Government of Maharashtra, to whom I should express my gratitude. A part of the work in this thesis was supported by a grant from the Muscular Dystrophy Associations of America, Inc., to Professor J. C. George. Finally, it is a pleasure to thank all my friends and colleagues in the Department of Zoology, who have helped me in various ways during the course of this work.
