

LIST OF TABLES

Sr. No.	Title	Page No.
1	Distribution of Postures according to their action categories	63
2	Categorization for the Illumination levels at Municipal Primary School Classrooms	71
3	Categorization for the temperature levels at Municipal Primary School Classrooms	71
4	Rational statistics applied to test the Hypotheses	73
5	Profile of the Respondents	79
6	Monthly Personal Income (In Rs.) of the respondents	80
7	Monthly Family Income (in Rs.) of the respondents	81
8	Years of Experience in teaching profession by the respondents	82
9	Mode of Conveyance used to reach School by the respondents	83
10	Distance travelled between Home and School by the respondents	84
11	Subjects the respondents teach in their school	85
12	Standards (Class) the respondents taught by them in Municipal Primary Schools	87
13	Hours spent in Teaching by the respondents at their Municipal Primary Schools	88
14	Hours spend while teaching in standing position in their school by the respondents	89
15	Hours spend while teaching in sitting position in their school by the respondents	90
16	Hours spent by the respondents at their School Teaching in Flexion Position	91
17	Number and Duration of breaks the respondents receives at their School	92
18	Time spent on Computer by the respondents	93

19	Time spent on Routine Physical Exercise by the respondents	94
20	Time spent on Daily household work by the respondents	95
21	Perceived health status of the respondents	96
22	Classrooms Dimensions of the Municipal Primary Schools	98
23	Colour painted on the Walls of the Municipal Primary Schools	100
24	Colour Painted on the Ceiling of the Classrooms of the Municipal Primary School	101
25	Flooring in the Classrooms of the Municipal Primary School	104
26	Number of Doors in the Classrooms of the Municipal Primary Schools	106
27	Number of Windows in the Classrooms in the Municipal Primary Schools	108
28	Number of Artificial Lights in the Classrooms of the Municipal Primary Schools	110
29	Number of Fans in the Municipal Primary Schools	111
30	Distribution of the Classroom according to the Average illumination (in lux) during Teaching in the Existing Classrooms of the Municipal Primary Schools	112
31	Distribution of the Classroom according to the Temperature (in °C) during Teaching in the Classrooms of the Municipal Primary Schools according to Risk Levels	114
32	Number of Tables for the Teachers in the Classrooms of the Municipal Primary Schools	116
33	Number of Chairs for the Teachers in the Existing Classrooms of the Municipal Primary Schools	117
34	Number of Writing Board for the Teachers in the Existing Classrooms of the Municipal Primary Schools	118
35	Number of Storage Unit for the Teachers in the Classrooms of the Municipal Primary Schools	120
36	Perceived Comfort Level of the respondents while using	121

	Writing Board in the classroom	
37	Perceived Comfort Level of the respondents while using Storage Unit in the classroom	124
38	Perceived Comfort Level of the respondents while using Chair in the classroom	126
39	Perceived Comfort Level of the respondents while using Writing Table in the classroom	129
40	Perceived Comfort Level while using Miscellaneous Physical Arrangements in the classroom	132
41	Overall Posture Analysis Showing Postures according to their action categories	135
42	Posture Analysis of the respondents teaching in Normal Postures	136
43	Posture Analysis of the respondents teaching in Stressful Posture	137
44	Posture Analysis of the respondents teaching in Harmful Posture	139
45	Posture Analysis of the respondents adopting Very Harmful Posture	140
46	Distribution of Respondents according to their Anthropometric Measurements	142
47	Distribution of Respondents according to their Anthropometric Measurements	145
48	Psychological Factors induced musculoskeletal pain felt by the Teachers at their School (Work Place)	148
49	Extend of Psychosocial Factors Induced Musculoskeletal Pain experienced by the respondents	150
50	Musculoskeletal Pain experienced by the respondents in past 12 months	154
51	Radiating Back Pain towards the legs as experienced by the respondents in past 12 months	157
52	Radiating Neck and Shoulder Pain till the Arms as experienced by respondents in past 12 months	158

53	Problems faced by the respondents due to Musculoskeletal pain while performing various activities	160
54	Sick leave taken due to musculoskeletal pain experienced by the respondents during the past 12 months	162
55	Duration of Musculoskeletal Pain experienced by the respondents	164
56	Musculoskeletal Pain related health conditions experienced by the respondents	166
57	Analysis of Variance (ANOVA) showing variation in Musculoskeletal Pain experienced by the respondents in past 12 months with their age (in years) and years of experience	168
58	Scheffe's test showing the mean difference between Musculoskeletal pain experienced by the respondents during	170
59	„t“ value showing the mean difference in Musculoskeletal Pain experienced by the respondents in past 12 months with their Gender	171
60	Correlation between the Musculoskeletal Pain among Teachers and their Body Mass Index (BMI)	173
61	Correlation showing the relationship between the Musculoskeletal pain experienced by the respondents in past 12 months with their Monthly Personal Income (in Rs./-).	175
62	Correlation showing the relationship between the Musculoskeletal pain experienced by the respondents in past 12 months with their Monthly Family Income (in Rs./-).	177
63	Correlation showing the relationship between the Musculoskeletal pain experienced by the respondents in past 12 months with their Type of family.	179
64	Correlation showing the relationship between the Musculoskeletal pain experienced by the respondents in past 12 months with their Number of Family Members	181

65	Correlation showing the relationship between the Musculoskeletal pain experienced by the respondents in past 12 months with their Psychosocial factors among respondents	183
66	Correlation showing the relationship between the Musculoskeletal pain experienced by the respondents in past 12 months with the problems faced by them while carrying out various activities	184
67	Feedback regarding the usage of stepping stool by the respondents	279
