

ACKNOWLEDGEMENT

The author is highly indebted to Dr. P.P.Patel for suggesting the problem and for guiding and supervising this research work.

The author takes this opportunity to express his deep sense of gratitude and sincere thanks to Prof. S. S. Merh, for reading the manuscript critically and advising the author at various stages in the preparation of the thesis. Without his constant and unfailing encouragement, it would not have been possible for the author to complete this study.

The author also wishes to place on record the encouragement and help received from Prof. N.M. Vashi, Head, Department of Geology, M.S.University of Baroda and Dr. N. D. Desai, Reader.

The first inspiration to take up Ph.D. work was provided by Shri K.R. Datye, Consulting Engineer, Bombay and the author is indebted to him.

Grateful thanks are also due -

1. To Dr. M.V.Bapat, Soil Survey Officer, who was kind enough to permit the author to collect various data on Heran River Project Command Area and Shri M.P.Patel, Deputy Engineer for his kind co-operation during data collection.

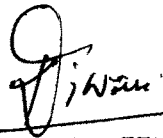

2. To Shri D.M.Pancholi, S.E.(Geol.) C.D.O., Gandhinagar, for making available exploratory drilling records and related literature of Heran and Rami dam projects.
3. To the GWRDC staff, especially Shri H.N. Parikh (Geohydrologist), for making available various literature and records. Shri B.S.Rana (Geologist-II), H.K.R.Mehta (Geophysicist-II), Rajendra Nakum, P.S.S.Rao, Jr. Geologist's for their help in data collection.
4. To Shri R. Ramkrishnan, the then director, G.S.I. (Gujarat Circle) for giving him permission to carryout airphoto studies at their laboratory and Shri Rajkumar Agraval Jr. Geologist for his help.
5. To Dr.C.R.Shah, Consulting Engineer for his detailed guidance to carryout hydrological studies, and his critical review and valuable suggestions in finalising the chapter on Groundwater Hydrology.
6. To Dr. G.T.Malpathak, Reader in Geology, for his help in field work and for giving constructive suggestions on pump test data evaluation.
7. To Dr. K.F.Patel and Shri N.S.Rathore (R.O.) for helping him in chemical analysis of groundwater samples. Shri D.T.Rao's (Geophysicist, GERI) help in resistivity data interpretation.
8. To Shri Md. Badrul Islam, Research Scholar, Shri R.N. Chowdhary, Geologist (ONGC), Shri V.N.Joshi, Geologist (CDO) and Shri P.P.Bose, Assistant Editor, McGraw Hill Co.

New York, for their sustained help. These friends not only provided constant assistance in various ways, but also cheered him up in moments of despair and anxiety.

9. To Shri Hari Vallabh Parikh (Bhaiji) Rangpur Ashram, Mrs. Sushilaben Modi and others, for providing free messing and accomodation facility to author and his team mates. Without their help it would not have been possible for the author to complete his investigation. Help rendered by Shri P.M.Vaghela, Supervisor, Lalpur dams site is also appreciated.
10. To Dr.S.P.Sychanthavong, Dr.(Miss) Karan Pandya, Dr. L.S.Chamyal, Shri Behram Bastani, Sanjiv Vaid and other research colleagues for their help and assistance at all stages of his investigation.
11. To Shri Rajkumar Sharma, Pradeep Agrawal, Biplab, Varinder Jamwal and Baldev Singh during compilation of thesis and Shri C.P.Mistry and Shri Arvind Suthar for drawing work.
12. To Shri R.K.Parmar and his staff members for providing the Secretarial help in the department.
13. To (Mrs) R Titus and (Miss) Pritti Patel (final and draft typing, respectively) and Shri B.M.Chauhan for photographic work, have done an excellent job in relatively small time made available to them.

14. To young friends Shri K.H.Girish, Shaladh Patel
(M.Sc.Applied), Tarvinder Sondhi, Vishnu C.Patel,
Raj Joravar Sing (M.Sc.) for their help in carrying
out resistivity survey.

Finally, the author consider its his duty to express his gratefulness to his parents and his wife Gayatri for the support and affection. Their constant encouragement, inspiration and sacrifice during the period of his research work deserves author's sincere acknowledgement.

(K. C. TIWARI)
