

Acknowledgement

It gives me immense pleasure just to know that what I dreamt about around 5 years ago is becoming a reality. The success is due to the support of many people.

First of all I am thankful to God for providing me with courage and strength to work. Secondly, I thank my parents for their timely support which was really the driving force behind me.

I am indeed most fortunate to have had Prof. D.R.S. Somayajulu for the esteemed guidance, unfailing support and constant encouragement during my research work. I extend my sincere thanks to him, for constructive and thought provoking suggestions at every stage of my research work. His approach in solving the problems was simply majestic. If given a chance, I would love to continue my further research in the future under his valuable guidance.

I am immensely thankful to my friend and colleague Mr. Narendra Patel. It would have been impossible to complete the task, without his unfailing support during the critical situations and his active involvement in the course of my research work.

My sincere thanks to Dr. K. C. Sebastian, for helping me in interpreting the results. His suggestions were valuable. I would also like to thank Dr. Mitesh Sarkar for his support and cooperation and share his experience in the same field of work.

I also thank Dr. K. Venugopalan and Dr. N. Laxmi for extending their experimental facilities at M.L.S. University, Udaipur. Their support in every aspect was appreciated.

I thank the scientists and the technical staff members of N. S. C, New Delhi, especially Dr. Awasthi, Dr. R.P. Singh, Dr. Muralithar and Dr. Bhowmik who helped me during my experimental work and providing the facilities.

I am thankful to Dr. Madhavrao from the Department of Chemistry, M.S.U for allowing me to utilize the weighing facility available with them.

I sincerely thank to Prof. C.F.Desai (HOD) for extending the departmental facilities during the course of work.

Not to forget the teaching faculty of Department of Physics, for their constant encouragement in completion of my work. The cooperation of non-teaching staff was admirable. Especially Mrs Sangeetaben was very supportive with administrative work Thanks to all of them too.

I also thank my Senior colleagues Mr. Naresh Patel, Dr. Dhuren Shah, Dr. K. N. Vyas, Dr. S. R. Bhavsar, Dr Harsh Panchal, Dr. P. Tripathi, Dr. P H. Soni and Dr. S M. Vyas, Dr. N.D.Chavda, Dr. B P.Shah for sharing their long research experience . Their accompany was wonderful and enjoyable.

I would also like to extend my thanks to the teaching faculty of Applied Physics Department, Faculty of Technology & Engineering, M. S. U , who motivated me in choosing the research career.

I am sincerely thankful to Mr. V. H. Kher, Dr. M. S. Gadkari and Ashish Jaituni of the Department of Applied Physics, Polytechnic, M. S. U. I never felt the burden of my job during research work, due to their kind support.

I cannot forget to acknowledge my friends Dhananjay, Pradeep, Falguni, Dinesh, Pranav, Nimisha and Prerna who helped me in all possible ways. Their presence had always freshened up from my hectic work.

I also extend my thanks to all the research scholars in the department for their support from time to time.

Last but not least, I am thankful to all those who have supported me indirectly in what so ever manner during this work, whom I might have missed inadvertently.

Mukesh Chawda
