INTRODUCTION	1-29
1.1 Refugee adolescents in India.....	3
1.2 Tibetan refugee adolescents in India.....	5
1.3 Adolescence.....	10
1.4 Stress.....	11
1.4.1 Stress among adolescence.....	12
1.4.2 Stress among refugee adolescents.....	12
1.5 Anxiety.....	13
1.5.1 Anxiety among adolescents.....	14
1.5.2 Anxiety among refugee adolescents.....	14
1.6 Coping.....	15
1.6.1 Coping among adolescents.....	15
1.6.2 Coping among refugee adolescents.....	16
1.7 Self-confidence.....	17
1.7.1 Self-confidence among adolescents.....	17
1.7.2 Self-confidence among refugee adolescents.....	19
1.8 Emotional intelligence.....	20
1.8.1 Emotional intelligence among adolescents.....	20
1.8.2 Emotional intelligence among refugee adolescents.....	21
1.9 Life skills education.....	22
1.9.1 Life skills education among adolescents.....	23
1.9.2 Life skills education among refugee adolescents.....	24
1.10 Mental health of refugee adolescents.....	25
1.11 Conceptual framework of the study.....	26
REVIEW OF RELATED LITERATURE.....	30-43
2.1 Refugee studies.....	30
2.2 Stress and anxiety.....	31
2.3 Coping.....	32
2.4 Self-confidence.....	35
2.5 Emotional intelligence.....	36
2.6 Life skills education.....	37

2.7 Research gap and rationales of the study.....	38
2.8 Objectives.....	40
2.9 Hypotheses.....	41

METHODOLOGY.....44-57

3.1 The study setting.....	44
3.2 Sample.....	44
3.3 Research design.....	46
3.4 Tools.....	47
3.5 Procedure.....	55
3.6 Statistical analysis.....	57

RESULTS.....58-156

Section 1

4.1 Independent t-test and One-way ANOVA for different demographic groups in the total sample of 600.....	59
4.1.1a) Mean difference between Tibet born adolescents and exile- born adolescents on psychosocial parameters.....	59
b) Mean difference between adolescents with privilege of vacation and adolescents without privilege of vacation on psychosocial parameters.....	62
c) Mean difference on psychosocial parameters among students who meet their family in different time intervals.....	65

Section 2

4.2 The effects of life skills training on psychosocial parameters.....	67
4.2.1 a) Effect of LST on stress.....	68
b) Effect of LST on anxiety.....	75
c) Effect of LST on coping.....	77
d) Effect of LST on self-confidence.....	81
e) Effect of LST on emotional intelligence.....	82
4.3 Regression analysis.....	83
4.3.1 Life skills as predictors of stress.....	84
4.3.1.1 a) Life skill group 'A' for the prediction of school stress.....	85

b) Life skill group 'B' for the prediction of school stress.....	86
4.3.1.2 a) Life skill group 'A' for the prediction of future stress.....	88
b) Life skill group 'B' for the prediction of future stress.....	90
4.3.1.3 a) Life skill group 'A' for the prediction of home stress.....	91
b) Life skill group 'B' for the prediction of homes stress.....	92
4.3.1.4 a) Life skill group 'A' for the prediction of peer stress.....	93
b) Life skill group 'B' for the prediction of peer stress.....	94
4.3.1.5 a) Life skill group 'A' for the prediction of leisure stress.....	95
b) Life skill group 'B' for the prediction of leisure stress.....	96
4.3.1.6 a) Life skill group 'A' for the prediction of opposite sex stress.....	98
b) Life skill group 'B' for the prediction of opposite sex stress.....	99
4.3.1.7 a) Life skill group 'A' for the prediction of self stress.....	100
b) Life skill group 'B' for the prediction of self stress.....	101
4.3.2 Life skills as predictors of anxiety.....	103
4.3.2.1 a) Life skill group 'A' for the prediction of state anxiety.....	103
b) Life skill group 'B' for the prediction of state anxiety.....	104
4.3.2.2 a) Life skill group 'A' for the prediction of trait anxiety.....	106
b) Life skill group 'B' for the prediction of trait anxiety.....	107
4.3.3 Life skills as predictors of coping	109
4.3.3.1 a) Life skill group 'A' for the prediction of active	

coping.....	109
b) Life skill group 'B' for the prediction of active coping.....	110
4.3.3.2 a) Life skill group 'A' for the prediction of internal coping.....	111
b) Life skill group 'B' for the prediction of internal coping.....	112
4.3.3.3 a) Life skill group 'A' for the prediction of withdrawal coping.....	113
b) Life skill group 'B' for the prediction of withdrawal coping.....	114
4.3.4 Life skills as predictors of self- confidence.....	115
4.3.4.1 a) Life skill group 'A' for the prediction of self-confidence.....	116
b) Life skill group 'B' for the prediction of self-confidence.....	117
4.3.5 Life skills as predictors of emotional intelligence.....	119
4.3.5.1 a) Life skill group 'A' for the prediction of emotional intelligence.....	119
b) Life skill group 'B' for the prediction of emotional intelligence.....	120
4.4 Differences among Tibetan refugee adolescents from different demographic background.....	122
4.4.1 a) Mean difference between Tibet born adolescent and exile born adolescents on psychosocial parameters in post-test scores.....	122
b) Mean difference between Tibet born adolescents and exile born adolescents on life skill parameters.....	125
4.4.2 a) Mean difference between male and female adolescents on psychosocial parameters in post-test scores.....	128
b) Mean difference between male and female adolescents on life skill parameters.....	130
4.4.3 a) Mean difference between adolescents with privilege of vacation and adolescents without privilege of vacation on psychosocial parameters in the post-test scores.....	132

b) Mean difference between adolescents with privilege of vacation and adolescents without privilege of vacation on life skill parameters.....	135
4.4.4 a) Mean difference among adolescents who meet family in different time interval on psychosocial parameters in post-test scores	137
b) Mean difference among adolescents who meet family in different time interval on life skill parameters.....	139
4.4.5 Mean difference between experimental and control group on parameters in post- test scores	141

Section 3

4.5 Independent t-test, regression analysis and correlation performed to explore the possible differences between Tibetan refugee and Indian adolescents.....	143
4.5.1 Mean difference between Tibetan refugee adolescents and Indian adolescents on psychosocial parameters.....	144
4.5.2. Inter-correlation among various psychosocial parameters for Tibetan refugee adolescents and Indian adolescents.	147
4.5.3 a) Coping, self-confidence and emotional intelligence as predictors of stress among Tibetan and Indian adolescents.....	153
b) Coping, self-confidence and emotional intelligence as predictors of anxiety among Tibetan and Indian adolescents.....	156

DISCUSSION.....	157-214
------------------------	----------------

5.1 Differences among Tibetan adolescent subjects according to the demographic background.....	157
---	------------

5.1.1 a) Mean difference between Tibet born and exile born on domains of stress.....	157
b) Mean difference between Tibet born and exile born adolescents in state and trait anxiety.....	162
c) Mean difference between Tibet born and exile born	

adolescents in coping.....	163
d) Mean difference between Tibet born and exile born adolescents in self-confidence.....	164
e) Mean difference between Tibet born and exile born adolescents in emotional intelligence.....	165
 5.1.2 a) Mean difference between males and females in post –test scores in stress.....	166
b) Mean difference between males and females in post –test scores in anxiety.....	169
c) Mean difference between males and females in post –test scores in self-confidence.....	170
 5.1.3. Mean difference between adolescents with privilege of vacation and adolescents without privilege of vacation across psychosocial parameters	172
 5.1.4 Mean difference among adolescents who meet family in different time intervals across psychosocial parameters.....	173
 5.1.5 Mean difference between experimental and control group across psychosocial parameters.....	174
 5.2 The effect of life skills training on psychosocial parameters.....	174
5.2.1 a) Effect of LST on stress.....	174
b) Effect of LST on anxiety.....	184
c) Effect of LST on coping.....	185
d) Effect of LST on self-confidence.....	187
e) Effect of LST on emotional intelligence.....	188
 5.3 Cross-cultural comparison between Tibetan refugee adolescents and Indian adolescent on psychosocial parameters.....	192
5.3.1 a) Mean difference between Tibetan and Indian adolescents on psychosocial parameters.....	192
 5.3.2 a) Correlation between stress and other psychosocial parameters....	196
b) Correlation between anxiety and other psychosocial parameters..	198
c) Correlation between coping and other psychosocial parameters...	199
d) Correlation between self-confidence and other	

psychosocial parameters	200
e) Correlation between emotional intelligence and other psychosocial parameters.....	202
5.3.3 a) Emotional intelligence, self-confidence and coping as predictors of stress among Tibetan and Indian adolescents	203
b) Emotional intelligence, self-confidence and coping as predictors of anxiety among Tibetan and Indian adolescents	207
5.4 Major findings,	209
5.5 Conclusion.....	211
5.6 Implication.....	212
5.7 Limitations.....	212
5.8 Direction for future research.....	213
REFERENCES.....	215
APPENDICES.....	1 - 40
Appendix 1. Problem questionnaire.....	1
2. Coping across situation questionnaire.....	5
3. State and trait anxiety questionnaire.....	7
4. Self-confidence inventory.....	9
5. Emotional intelligence profile.....	13
6. Life skills training module assessment tools.....	17
