

List of Figures

Figure No.	Title	Page no.
2.1	<i>Functions of Various Micronutrients</i>	13
2.2	<i>Micronutrient Deficiency throughout the lifespan</i>	14
2.3	<i>Magnitude of Hidden Hunger Around the World</i>	16
2.4	<i>Calculation formula for Hidden Hunger</i>	25
2.5	<i>Hidden Hunger and The Energy Intake from Cereals</i>	27
2.6	<i>Micronutrient Prevalence across the Countries</i>	30
2.7	<i>History of Food Fortification Worldwide</i>	33
2.8	<i>Retention of Nutrients after Cooking</i>	39
2.9	<i>Consumption of Salt by Households in India (NFHS 5)</i>	42
2.10	<i>Claims on Fortified Products by FSSAI</i>	44
2.11	<i>Current Progress of States/ UTs with respect to Fortification</i>	47
2.12	<i>Socio-Ecological Model of Change</i>	50
2.13	<i>Investments in Malnutrition and its Return</i>	52
2.14	<i>Reach of Fortified Foods across the world</i>	53
2.15	<i>Status of Fortification of Wheat Flour & Rice in 91 Countries</i>	60
2.16	<i>Global Status of Fortification</i>	61
4.1	<i>Experimental design</i>	69
4.2	<i>Sample size selection for the study</i>	70
4.3	<i>Phases of the study</i>	70
4.4	<i>The e-Intervention Methodology</i>	73
4.5	<i>Stages of Assessment after e-intervention</i>	77
4.6	<i>Methodology for identification of fortified food staples in selected markets of Vadodara</i>	78
4.7	<i>Adopters categorization according to Diffusion of Innovation Model</i>	82
5.1.1	<i>No. of Subjects' who were aware and not aware of Food Fortification and Percent subjects having awareness about Food Fortification</i>	92

5.1.2	<i>Percent subjects reporting about the source of information for Fortified Foods (N=125)</i>	92
5.1.3	<i>Percent subjects reporting about awareness of staples that are being Fortified in India</i>	94
5.1.4	<i>Percent subjects purchasing Fortified Staples at Baseline</i>	97
5.1.5	<i>Percent subjects storing staple for a year</i>	98
5.1.6	<i>Association between awareness and purchase practice of Fortified Foods</i>	99
5.1.7	<i>Responses of the subjects for Vitamin A Health Benefits, Sources, and Signs of Deficiency</i>	99
5.1.8	<i>Responses of the subjects for Vitamin D Health Benefits, Sources, and Signs of Deficiency</i>	100
5.1.9	<i>Responses of the subjects for Vitamin B12 Health Benefits, Sources, and Signs of Deficiency cent subjects marked correct responses for Vitamin B12 Health Benefits, Sources, and Signs of Deficiency</i>	100
5.1.10	<i>Responses of the subjects for Iron Health Benefits, Sources, and Signs of Deficiency</i>	101
5.1.11	<i>Responses of the subjects for Iodine Health Benefits, Sources, and Signs of Deficiency</i>	101
5.2.1	<i>Increase in Awareness of Fortified Foods</i>	107
5.2.2	<i>Impact of e-Intervention on Awareness of Fortified Staples amongst the Subjects (N=349)</i>	109
5.2.3	<i>Impact of e-Intervention on Attitude of the subjects toward Fortified Foods</i>	110
5.2.4	<i>Impact of e-intervention on Purchase Practices for the five staples</i>	112
5.2.5	<i>Purchase of Fortified Foods after 7 months of Washout</i>	116
5.2.6	<i>Purchase Practices of Fortified Staples after 7 months of Washout</i>	117
5.2.7	<i>Purchase Practices concerning the DIM Model</i>	119
