

ACKNOWLEDGEMENTS

My pleasant duty is to express profound gratitude to all associated with me for their constant support and affection, which enabled me to complete this work. First and foremost, I would like to thank Almighty God for giving me the strength, knowledge, ability, and opportunity to undertake this research study and complete it satisfactorily. Without his blessings, this achievement would not have been possible.

I am privileged to express deep sense of regard and respect to my guide **Prof. Sanjay S. Ingle** for his untiring guidance. His unparalleled scientific vision coupled with immense knowledge of the subject was always there to help in perceiving, analyzing and interpreting the results. His constructive criticism has helped me in addressing the problem in better ways. I am indebted to him for cultivating values and confidence in me and helping me evolve as a better human being. I would like to thank her for encouragement in my research which kept me enthusiastic towards the research

I am grateful to the **Prof. G. Archana** Head Department of Microbiology and Biotechnology Centre for allowing me to pursue my research work in the Institute and generously providing the relevant facilities required for the same. I have got the pleasure to enjoy her scientific concepts, ideas and attitude to learning more and try new things. I appreciate her contribution for time and funding to making my Ph.D. successful. She always inspired me to focus on the work without getting distracted by the minor issues happened around. I always admire her as successful women professor and she is an excellent example for many of us.

I would like to thank **Prof. G. Naresh Kumar** Retd. Professor Department of Biochemistry who contributed in my research by giving us excellent ideas for experiments. He is the one who teaches me the scientific attitude by telling me to understand the true meaning of the experiments while doing it which help us to keep the harmony with the real word of science. The scientific discussion with him develops the attitude to investing the time towards the high goal. He is the fully passionate person who thinks out of the box and gives the world-class ideas which inspire us to become more excited toward the science.

I sincerely thanks to **Prof. Anuradha Nerurkar** for giving the valuable suggestions during the scientific sessions of Ph.D. students.

I extend my thanks to all the member of the department **Dr. Pranav Vyas** for teaching that always maintain the pace and patience during the journey to becoming Ph.D.

I extend my thanks to **Dr. Nandita Baxi** and **Prof. Devarshi Gajjar** Co-ordinator Biotechnology Programme for their support.

I would like to special thanks, **Shirish bhai** for his helping nature and efficiently taking care of all the official work every time during my Ph.D. His timely help from start of my Ph.D. is greatly acknowledged. I also thank him for helped me in travel grant paper work and process. I can't thank enough for all that help you have done for me.

I also like to thank the **Aparna madam** for providing the bacterial strains whenever it is required. **Mandvekar sir** was a source of any protocol or chemical in any emergency. **Talati sir** was a prosperous source indeed for books, consumables

and chemicals. **Praveen sir and Seema mam** provided an unaltered supply of glassware and distilled water. **Thomas mam** was the official source of cakes during the Christmas. **Panchalkaka and Harsukh sir** were the support whenever required. **Niteshbhai** also helped in many formalities to be carried out at department and university. Also thanks to Jayeshbhai, Nileshbhai, Chimanbhai, Pradeepbhai, Girishbhai, Rameshbhai, and Mukesh, had played a decent role in maintaining the department on its line. I heartily thank all of them for being with me whenever I was in need. I am also grateful to the Office staff, Faculty of science and University office for timely support in the lengthy administration work of fellowships.

I am thankful to GFL Research Scholars **Vipul, Juliya Thomas, Shubhangi Pandey, Dipeskhsa Hansoti, and Krishna** for being helpful; during all situations. I am also grateful Research scholars **Ajinkya, Roshni, Shivani, Dr. Akhil Thaker** for their support. I would like to thanks **Mr. Suraj Shukla** for helping me in the analysis of Whole genome sequencing without his support I was not able to reach up to the results.

I thankful to all my Dissertation students especially **Asha, Apexa, Mollika, Brijesh, Shrija, Avani, Nishant, Suhani and Nishi** for sharing the burden of my research work. Their belief in me and endless help strengthen my confidence. The research was a joyful experience due to them. I specially thank them all for being with me.

I am thankful to the **Dr. H. P. Patel** Unit Officer of Pulse Research Station, Anand Agriculture University, and Vadodara to providing the facility of Field trials and Seed variety of Pigeon pea.

I would like to thanks **Dr. Mukesh Patel** Director Agriland Biotech, Vadodara to provide me the Strain of Mycorrhiza for field trials also providing me the field for trials.

I would like to thanks **Prof. Ashutosh Bedekar** Head Department of Chemistry to provide me the facility of FTIR and NMR. I would like to thanks **Prof. Padmaja Sudhakar** to provide the facility of GC for ethylene measurement in Department of Chemistry.

I would like to thanks **Dr. Sankalp Misra**, Research Associate, NBRI, Lucknow for helping me in Manuscript writing and Thesis writing.

I would like to thanks **Dr. Kiran Kalia** for servicing provide for LC-MS at NIPER, Ahmedabad. Also I would like to thanks **Dr. Kanojiya**, Scientist, CDRI, Lucknow for helping me in the analysis of LC-MS.

I would like to thanks **Mr. Vishal** for providing the facility of SEM at ERDA, Vadoadara.

I would like to thanks **Dr. Vishal Nanavati**, Scientist NeubergSupratech Laboratory, Ahmedabad for providing the faculty of qRt-PCR study for miRNA. Also I would like to thanks Eurofins for Transcriptome analysis study.

I am thankful to the UGC for providing me **Research Fellowship in Science for Meritorious Students (RFSMS)** under BSR scheme which helped me to pursue the Ph.D.

A warm thank to the food and tea vendors at Dairy-Den Circle and canteens. The place where we used to forget our all clashes, tensions, fights, workloads and

enjoyed the tea and morning-evening snacks. A cup of tea was used to be the solution of any tension for us. Those days will be missed forever. I am immensely indebted to my **Ma and Papa** whose blessing, concerted effort, constant motivation, encouragement and true-hearted cooperation enable me to reach this milestone. I cannot finish without thanking my lovely **Sisters, Jiju** and my little heart my Niece and Nephew **Dravya-Drashti and Harsh** for their support. No word can thank you enough for always staying with me and supporting me.

I thank the God almighty for kind blessing all the time.
