

LIST OF FIGURES

1. The human digestive system-----	12
2. Routes of feeding-----	48
3. Organ glutamine flow following gut insult-----	76
4. Polymeric kitchen-based protein rich EN with sources from soy & milk--	99
5. Polymeric kitchen-based protein rich EN with sources from soy and milk & subsequent enrichment with glutamine-----	100
6. Experimental flow chart-----	101
7. Disease distribution pattern in hospitals of Ahmedabad-----	109
8. Disease distribution pattern (ICU) of selected hospitals Of Ahmedabad-	110
9. Gastrointestinal disease distribution pattern-----	111
10. Nutritional risk index-----	115
11.Impact of Diets on total protein and albumin (EnR, EnS, EnM groups]--	127
12 Impact of Diet (EnR study group) on total protein and albumin-----	128
13 Impact of Diets (EnS study group) on total protein and albumin-----	128
14.Impact of Diets (EnM study group) on total protein and albumin-----	128
15.Impact of Diets on weight gain/loss on discharge-----	131
16.Impact of Diets on weight gain/loss (Subcategories)-----	132
17.Impact of Diets on length of stay (LOS)-----	135
18.Impact of Diets on LOS (subcategories)[a, b, c]-----	136
19.Nutritional risk index-----	141
20.Impact of Diets on total protein and albumin (GEnR, GEnS, GEnM study groups)-----	153
21.Impact of Diet (GEnR study group) on total protein and albumin-----	154
22.Impact of Diets (GEnS study group) on total protein and albumin-----	154
23.Impact of Diets (GEnM study group) on total protein and albumin-----	154
24.Impact of Diets on weight gain/loss on discharge-----	157
25.Impact of Diets on weight gain/loss (Subcategories)-----	158
26. Impact of Diets on length of stay (LOS)-----	162
27. Impact of Diets on LOS (subcategories) [a, b, c] -----	163
28. Effectiveness of glutamine enrichment on the biochemical aspect of study groups-----	188
