

ACKNOWLEDGEMENTS

I feel proud of myself in being associated with Dr. A. R. Mehta, National Correspondent (India) for International Association for Plant Tissue and Cell Culture, and Professor of Botany, at The M. S. University of Baroda, Baroda, in my present research endeavour. I express my indebtedness and deep sense of gratitude to him, for making this study possible. His guidance and criticism throughout has made this work a worthy and rewarding experience.

I am grateful to Professor C. H. Pathak, Head, Department of Botany for providing laboratory facilities and an opportunity given to carry out research under FIP programme.

I owe a debt of gratitude to Dharmabad Shikshan Sanstha and Principal, L. B. S. Mahavidyalaya for granting me leave for the period of 3 years.

Sincere thanks are due to all my colleagues for their efficient help and constant encouragement.

I wish to thank Mr. P. T. Dindorkar for his assistance in photography and Mr. P. S. Bhoite for typing the manuscript.

Financial assistance by U.G.C. under Faculty Improvement Programme is being acknowledged.

G. R. Nambiar
