

LIST OF TABLES

TABLE NO.	PAGE
1.1 : Varimax Rotation Factor Solution in Samrong Pengnu's Study	.. 35
1.2 : Varimax Rotated Factor Solution	.. 36
1.3 : Six Organizational Climate Vignettes across Eight Sub-Tests of OCDQ	.. 43
2.1 : District-wise Distribution of the Colleges (Sample)	..105
2.2 : Faculty-wise Distribution of the Sample	..106
2.3 : City-Town-wise Break-up of the Sample	..107
2.4 : Distribution of Sampled Colleges according to their Size	..108
2.5 : Zone-wise Distribution of the Sampled Colleges	..108
2.6 : Faculty-wise Distribution of the Sampled Colleges of the Three Zones	..109
2.7 : Distribution of Sampled Colleges of the Gujarat University - Teachers and Faculty-wise	..111
3.1 : Sub-Testwise Distribution of Items in the Experimental Draft and the Final Form of the ICDQ	..142
3.2 : Dimension-wise Distribution of the Items of the I.C.D.Q. (Baroda Form II)	..143
3.3 : Intercorrelation Matrix (20 X 20)	..147
3.4 : Original Principal Component Factor Matrix (12 X 5)	..149
3.5 : Rotated Varimax Factor Matrix of the ICDQ (15 X 5)	..150

(List of Tables)

=====	
TABLE NO.	PAGE
3.6 : Varimax Factor I	..151
3.7 : Varimax Factor II	..152
3.8 : Varimax Factor III	..153
3.9 : Varimax Factor IV	..153
3.10 : Varimax Factor V	..154
3.11 : Factors of College Teacher Morale Tool and the Number of Items under Each Factor (Experimental Draft)	..160
3.12 : Dimension-wise Distribution of the Final Form of College Teacher Morale Opinionnaire (The CTMO)	..169
3.13 : Original Principal Component Factor Matrix (8 X 4)	..171
3.14 : Rotated Factor Matrix (8 X 4)	..172
3.15 : Varimax Factor I	..173
3.16 : The Varimax Factor II	..174
3.17 : The Varimax Factor III	..175
3.18 : The Varimax Factor IV	..175
3.19 : Biserial Correlations for Items of the SCI Form	..178
4.1 : Climate-wise Distribution of the Sampled Colleges (N = 122)	..191
4.2 : Comparison of Dimension-wise Mean Scores of the Sampled Colleges possessing Open Climate and Closed Climate	..196
=====	

(List of Tables)

TABLE NO.	PAGE
4.3 : Percentage Distribution of the Faculties of Gujarat University according to Climate Category	..200
4.4 : College Climate and Mean Scores (Part I and Part II)	..202
4.5 : Comparison of Component-wise Institutional Climate of the Faculties of Gujarat University in Terms of their t-values and significance	..207
4.6 : Mean Scores and S.D. of Different Faculties on the ICDQ Dimension	..209
4.7 : Ranking of Faculties on each Dimension of the ICDQ on the Basis of Conversion of their Mean Scores into Standard Score	..225
4.8 : Results of Tests of No Mean Differences in Scores on ICDQ Dimensions for College Principals and Teachers.	..228
4.9 : Percentage Distribution of Three Climate Type Colleges according to Size	..231
4.10 : Results of t-tests of Mean Differences of Scores on ICDQ Dimensions according to the Size of the Colleges	..234
4.11 : Percentage Distribution of Three Climate Type Colleges according to City-Town Situation	..237
4.12 : Results of t-tests of Significant Relationship on City-Town Location of Colleges and their Institutional Climate	..239
4.13 : Percentage Distribution of Three Climate Type Colleges in the Central, South and North Zones	..242
4.14 : t-test Result on the Global Climate with Regard to Twelve Dimensions of the ICDQ according to the Zonal Distribution of the Colleges	..245

(List of Tables)

=====	
TABLE NO.	PAGE
4.15 : Distribution of the Teachers, with Different SES Categories in Open, Intermediate and Closed Climate	..248
4.16 : Distribution of Items in the CTMO	..251
4.17 : Conversion of Double Standard Scores into Stanine Categories	..253
4.18 : Percentage of Distribution of Colleges under Morale Category	..254
4.19 : Distribution of the Teachers according to 'High', 'Average', and 'Low' Morale in Perspective of Colleges in Central, South and North Zones	..256
4.20 : Distribution of the Teachers according to the Three Levels of Morale Category against the Colleges of Large and Small Size	..257
4.21 : Distribution of the Teachers according to the Three Morale Categories against the Colleges situated in Cities and Towns.	..258
4.22 : Distribution of the Teachers with 'High', 'Average' and 'Low' Morale in Different Faculties	..259
4.23 : F-Ratio Test of the Significance of Variations among the Faculties of the Gujarat University	..260
4.24 : Results of Tests of Mean Differences in Scores on CTMO Factor-wise and Four Styles of Pairing the Colleges	..262
4.25 : Faculty-wise Distribution of Mean Scores of the Components of CTMO (Baroda Form)	..263
4.26 : Relationship between Climate and Teacher Morale of the Sampled Affiliated Colleges.	..281
4.27 : Examination of Relationship of Eight Factors of CTMO with Three Types of Climate	..284
=====	

(List of Tables)

=====	
TABLE NO.	PAGE
4.28 :	Correlation Between Climate and Morale ..288
4.29 :	Mean Scores of Teachers of Different Faculties on Custodial and Humanistic Ideology as measured by SCI ..293
4.30 :	Results of t-tests on Significance of Differences in Mean Scores on Custodial and Humanistic Ideology of Teachers of Different Faculties ..294
4.31 :	t-test Values on Two Dimensions of Student-Control Ideology according to the Variable of Zones ..296
4.32 :	t-test values on Two Dimensions of Student-Control Ideology according to Variables of City-Town Location ..296
4.33 :	t-Test Values on Two Dimensions of Student Control Ideology according to the Variable of Size ..296
4.34 :	Summary Data and Analysis of Variance Data for the Relationship Between Institutional Climate and Student Control Ideology of the Colleges ..298
4.35 :	Inter-relatedness among Climate Types, Morale Levels and Control Ideology Dimensions ..300
4.36 :	Interrelationship Between Morale and Control Ideology ..301
4.37 :	Regression Equation Between the Twelve Dimensions of the ICDQ - the Predictors - and the Climate Score - the Criterion Variable ..303
4.38 :	Regression Equation based upon the Climate Score as Criterion Variable and Different Factors of College Teacher Morale Opinionaire and Student Control Ideology ..305
4.39 :	Regression Equation Between the Dimensions of ICDQ, Factors of CTMO and SCI - 23 Predictors and the Climate score - the Criterion Variable. ..306
