

### ACKNOWLEDGEMENTS

I am grateful to Dr.A.M.Talati, Ex-Professor and Head, Applied Chemistry Department, Faculty of Technology and Engineering, M.S.University of Baroda for suggesting this problem and guidance throughout the investigation and compilation of the thesis. It is a matter of pleasure for me to record here that I have been enjoying his constant care and attention throughout my stay here. I am thankful to him for his attachment to this work inspite of his busy day-to-day schedule.

I am thankful to Prof.S.B.Pandya, Dean, Faculty of Technology and Engineering, and to Prof.J.M.Lohar, Head, Applied Chemistry Department, for providing me necessary facilities in the department. I am obliged to all staff members for giving encouragement during the course of my research work.

My special thanks are due to Dr S.S. Lele and Mr. S.L.Patel for the micro-analysis of the samples.

I shall always remember a nice company that I had with my colleagues B.N.Narkhede, S.K.Mehta, R.N.Trivedi and D.S.Chaudhari. My sincere thanks are due to their untiring help.

I am grateful to all who have been associated with me and who have contributed in many ways.

I would like to express my appreciation to Mrs. Madhuben A. Talati for her patience and moral support.

Finally I thank all of my family members for their constant encouragement and patient endurance throughout my studies; I am grateful in measure beyond words.

Fellowship awarded to me by U.G.C. is highly appreciated and gratefully acknowledged.

V. J. DHIMAR
