

ACKNOWLEDGEMENT

The author is highly grateful to Prof. D.M. Shringarpure for his continued help and encouragement through out this research work. Under his able guidance and supervision the author was able to complete this work on "K/T Boundary in Kutch, Western India: Implications of its Rock Records on Extinction of Dinosaurs and other Fossil Forms".

The author is also grateful to the Director General, Geological Survey of India, for his kind permission for registration and facilities for the continuance of this work. Shri S.M. Sundaram, Dy. Director General kindly made arrangements for various analysis at the Physical Research Laboratory, Ahmedabad. The author is also thankful to Prof. N. Bhandari and his associates for the above facilities and cooperation. The ^{work} would have not been completed smoothly without the active support of Shri C. Srikarni from time to time during various phases of the work.

Dr. Nishith Y. Bhatt has kindly offered all possible help in the preparation and processing of the manuscript. I would fail in my duties if, I do not acknowledge various help and logistic support extended by Prof. R.D. Shah, Shri Paras Solanki and Miss Chandni G. Dave during the last phases of submission of this thesis.

I am also thankful to the persons who have directly or indirectly helped during this work.
